Navigating Through the Crisis: Business, Technological and Ethical Considerations Silvia L. Fotea, Ioan Ș. Fotea, Sebastian Văduva, 2022-01-01 This proceedings volume provides a multifaceted perspective on the unprecedented crises generated by the global COVID-19 pandemic, and its ramifications for individuals, businesses, organizations, governments and systems in developing countries. Featuring selected papers from the 2020 Annual Griffiths School of Management and IT Conference (GSMAC), held in Oradea, Romania, this volume focuses on business, technological and ethical considerations in the process of navigating through a global crisis. It analyzes the effectiveness of different measures taken at individual, organizational and country level and outlines potential scenarios and solutions for the new post-crisis reality. Finally, the book provides diagnosis and recommendations for managerial practice in various industries impacted.

Advances in Functional and Protective Textiles Shahid Ul Islam, Bhupendra Singh Butola, 2020-06-11 *Advances in Functional and Protective Textiles* explores the latest research in the use of textile materials for protective clothing. The book's international roster of researchers in industry and academia describe innovative applications in defense, medical, sports, fire protection, radiation protection, and more. This book is an invaluable resource for readers seeking to produce textiles with self-cleaning, antimicrobial, super-hydrophobic, UV-protective, insect repellent, flame retardant or anti-felting properties. Particular attention is given to textile fibers, including cotton, wool, viscose, and other synthetic fibers whose properties solve many problems. Sustainable approaches to the processing of textiles for protective properties are also addressed, as are hazards. - Introduces the advanced testing and modeling methods that are necessary for the production of protective textiles - Describes the properties of the latest advanced chemicals and materials used to make protective textiles and clothing - Covers every step in the development of protective clothing, from the engineering of novel materials, to advanced fabrication methodologies and applications

The Passivhaus Designer's Manual Christina Hopfe,Robert McLeod,2015-10-05 Passivhaus is the fastest growing energy performance standard in the world, with almost 50,000 buildings realised to date. Applicable to both domestic and non-domestic building types, the strength of Passivhaus lies in the simplicity of the concept. As European and global energy directives move ever closer towards Zero (fossil) Energy standards, Passivhaus provides a robust 'fabric first' approach from which to make the next step. The Passivhaus Designers Manual is the most comprehensive technical guide available to those wishing to design and build Passivhaus and Zero Energy Buildings. As a technical reference for architects, engineers and construction professionals The Passivhaus Designers Manual provides: State of the art guidance for anyone designing or working on a Passivhaus project; In depth information on building services, including high performance ventilation systems and ultra-low energy heating and cooling systems; Holistic design guidance encompassing: daylight design, ecological materials, thermal comfort, indoor air quality and economics; Practical advice on procurement methods, project management and quality assurance; Renewable energy systems suitable for Passivhaus and Zero Energy Buildings; Practical case studies from the UK, USA, and Germany amongst others; Detailed worked examples to show you how it's done and what to look out for; Expert advice from 20 world renowned Passivhaus designers, architects, building physicists and engineers. Lavishly illustrated with nearly 200 full colour illustrations, and presented by two highly experienced specialists, this is your one-stop shop for comprehensive practical information on Passivhaus and Zero Energy buildings.

Food Powders Properties and Characterization Ertan Ermiş,2020-10-29 Food powders are an increasingly important aspect of processed food worldwide. Essential factors such as ease of storage and transport and usage convenience have greatly benefited the food industry and promise further advancements in processing techniques. Food powders can be stored for a longer period of time than other food products, making them essential for food supply in many regions of the world. There have been numerous research works on food powders properties and characterization, but there has not been an updated comprehensive review in this field. Food Powders Properties and Characterization is designed as an essential reference for individuals in the food industry and academia seeking a singular source that covers most of the basic aspects of food powders. With chapters focusing on the general properties of food powders, characterization of particle and bulk properties, adhesion and surface properties, this text presents comprehensive and fully up to date coverage of this challenging and important field.

Failure Analysis of Heat Treated Steel Components Lauralice de Campos Franceschini Canale,George E. Totten,Rafael A. Mesquita,2008

Personality Eric Shiraev,2023-10-04 Personality: Theories and Applications takes an interdisciplinary and cross-cultural approach to the study of personality. Author Eric Shiraev structures the text around three questions: What are the basic ideas and facts that we focus on? How do we study these ideas and facts? How do we apply them? Students will benefit from

a deeper understanding of personality as they navigate a wide range of theories, empirical studies, and thought-provoking exercises, fostering enhanced critical thinking and knowledge. The Second Edition includes a new chapter on the digital domain of personality, incorporates the latest findings from the fields of behavioral economics and neuroscience, and offers expanded coverage of LGBTQ+ issues, including prejudice and cultural stereotypes.
