Young Adult Literature in Action Rose Brock,2019-06-14 Taking a genre approach, this overview of young adult literature shows new librarians and library science students the criteria to use for selecting quality books, including recommended titles. This third edition of *Young Adult Literature in Action* draws on the success of the previous two editions authored by Rosemary Chance, updating and expanding on them to meet the needs of today's librarians and library science students. It includes a new focus on diverse books, LGBTQ+ selections, the role of book formats, and the relevance of librarians serving teen populations and is an ideal resource for teaching young adult literature courses. Organized by major genre divisions, this easy-to-use book includes new information on timely topics such as audio and e-books, accessible books, and graphic novels. Each chapter includes revised and updated information on collaborative activities, featured books, special topics and programs, selected awards and celebrations, historical connections, recommended resources, issues for discussion, author comments, and assignment suggestions. Further updates include citations of exemplary young adult books and award winners, references, websites, and a bibliography.

Exercises in Architecture Simon Unwin,2022-08-01 This revised edition of *Exercises in Architecture: Learning to Think as an Architect* is full of new content, building on the success of the previous edition. All the original exercises have been revised and new ones added, with the format changing to allow the inclusion of more supplementary material. The aim

remains the same, to help pre- or early-course architecture students begin and develop their ability to think as architects. Learning to do architecture is tricky. It involves awakening abilities that remain dormant in most people. It is like learning language for the first time; a task made more mystifying by the fact that architecture deals not in words but in places: places to stand, to walk, to sit, to hide, to sleep, to cook, to eat, to work, to play, to worship... This book was written for those who want to be architects. It suggests a basis for early experiences in a school of architecture; but it could also be used in secondary schools and colleges, or as self-directed preparation for students in the months before entering professional education. *Exercises in Architecture* builds on and supplements the methodology for architectural analysis presented in the author's previous book *Analysing Architecture: the Universal Language of Place-Making* (fifth edition, 2021) and demonstrated in his *Twenty-Five Buildings Every Architect Should Understand* (Routledge, 2015). Together, the three books, deal with the three aspects of learning any creative discipline: 1. *Analysing Architecture* provides a methodology for analysis that develops an understanding of the way architecture works; 2. *Twenty-Five Buildings* explores and extends that methodology through analysis of examples as case studies; and 3. *Exercises in Architecture* offers a way of expanding understanding and developing fluency by following a range of rudimentary and more sophisticated exercises. Those who wish to become professional architects (wherever in the world they might be) must make a conscious effort to learn the universal language of architecture as place-making, to explore its powers and how they might be used. The exercises in this book are designed to help.

Literary Prizes and Cultural Transfer Petra Broomans, Mathijs Sanders, Jeanette den Toonder, Elise Bijl, 2022-02-05
Literary Prizes and Cultural Transfer addresses the multilevel nature of literary and translation prizes, with the aim of expanding our knowledge about them as an international and transnational phenomenon. The contributions to this book analyse the social, institutional, and ideological functions of such prizes. This volume not only looks at famous prizes and celebrities but also lesser known prizes in more peripheral language areas and regions, with a special focus on cultural transmitters and their networks, which play a decisive role in the award industry. Cultural transfer and translations are at the heart of this book and this approach adds a new dimension to the study of literary and translation prizes. The contributions reveal the diverse ways in which a cultural transfer approach enhances the study of literary prizes, presenting the state of the art regarding recent developments in the field. Articles with a broader scope discuss definitions, concepts, and methods, while other contributions deal with specific case studies. A variety of theoretical and methodological approaches are explored, applying field theory, network analysis, comparative literature, and cultural transfer studies. By providing multiple perspectives on the literary prize, this volume aims to contribute to our knowledge and understanding of this intriguing phenomenon.

Second Chance Boyfriend Monica Murphy, Benjamin Mallais, 2025-01-15 Perdu. Ma vie se résume à ce mot désespérant. J'ai perdu deux mois de ma vie à noyer mon chagrin. J'ai perdu ma petite amie, Fable, la seule fille qui ait jamais compté à mes yeux. J'avais peur de la blesser en restant avec elle. Hanté par des souvenirs qui l'empêchent de poursuivre sa relation avec Fable, Drew disparaît sans donner signe de vie. Deux mois après cette séparation, il n'arrive toujours pas à tourner la page. De son côté, Fable a trouvé un poste de serveuse dans le club branché où Drew se réunit avec ses coéquipiers les soirs de victoire. Quand il se retrouve nez à nez avec Fable, le jeune homme comprend qu'il n'a jamais cessé de l'aimer. S'il tient vraiment à elle, il devra se battre pour l'en convaincre. « Un roman rythmé à souhait, aussi touchant que troublant. » New Adult Addiction
