Unlearning the Hush Marlee S. Bunch, 2025-10-07 Despite significant challenges and historical opposition, Black female teachers stood at the forefront of advocating for and providing education to Black students. Their dedication not only improved opportunities for Black communities but also influenced changes in U.S. laws and societal expectations. Marlee S. Bunch draws on oral histories to illuminate the interior lives of Black female educators who taught before and after desegregation in Hattiesburg, Mississippi. In their own voices, these women detail the hurdles they faced guiding students through Jim Crow laws and Civil Rights-era desegregation. Bunch unearths the personal stories of teaching and activism during a historic time that included the Brown v. Board of Education decision and whites' massive resistance to desegregation. The educators highlight the significance of the Black community and the role of Black homes in fostering student success and community cohesion. In addition, Bunch looks at the legacies of Black educators and the work still to be done. Visual artwork and poetry complement the text. Inspiring and immersive, *Unlearning the Hush* blends personal memory with Civil Rights history to document the pivotal role Black women played in education during a transformative and charged period in American history.

Like Children Camille Owens, 2024-07-30 Finalist, 2025 PROSE Awards: Literature A new history of manhood, race, and hierarchy in American childhood *Like Children* argues that the child has been the key figure giving measure and meaning to the human in thought and culture since the early American period. Camille Owens demonstrates that white men's power at

the top of humanism's order has depended on those at the bottom. As Owens shows, it was childhood's modern arc—from ignorance and dependence to reason and rights—that structured white men's power in early America: by claiming that black adults were like children, whites naturalized black subjection within the American family order. Demonstrating how Americans sharpened the child into a powerful white supremacist weapon, Owens nevertheless troubles the notion that either the child or the human have been figures of unadulterated whiteness or possess stable boundaries. Like *Children* recenters the history of American childhood around black children and rewrites the story of the human through their acts. Through the stories of black and disabled children spectacularized as prodigies, Owens tracks enduring white investment in black children's power and value, and a pattern of black children performing beyond white containment. She reconstructs the extraordinary interventions and inventions of figures such as the early American poet Phillis Wheatley, the nineteenth-century pianist Tom Wiggins (Blind Tom), a child known as "Bright" Oscar Moore, and the early-twentieth century "Harlem Prodigy," Philippa Schuyler, situating each against the racial, gendered, and developmental rubrics by which they were designated prodigious exceptions. Ultimately, *Like Children* displaces frames of exclusion and dehumanization to explain black children's historical and present predicament, revealing the immense cultural significance that black children have negotiated and what they have done to reshape the human in their own acts.
