Justice and Harmony Joshua Mason, 2022-08-16 Justice and harmony have long been two of the world's most treasured ideals, but much of modern moral and political philosophy puts them on opposite sides of the divide between liberal theories of the right and communitarian theories of the good. Joshua Mason argues that the encounter with their Chinese counterparts, zhengyi and hexie, can overcome this opposition, revealing a pattern that reframes justice and harmony as mutually interdependent concepts in a three-part framework of root harmony (benhe), harmonic justice (heyi), and just harmony (zhenghe). Broadly surveying the histories of western and Chinese moral and political philosophies, *Justice and Harmony: Cross-Cultural Ideals in Conflict and Cooperation* explores our cross-cultural conceptual inventories and develops a comparative framework that can overcome entrenched binary oppositions and reconcile these grand global values.

Reconstructing Social Justice Lauretta Conklin Frederking, 2013-11-12 The rhetoric of social justice is commonplace but increasingly it means little more than a tag line or a punctuation point. *Reconstructing Social Justice* presents a new framework for social justice that will change the way people think about social justice and change the way people implement social justice. This book carves out an intellectual and practical space for social justice that is distinct from political, legal, and economic spheres. While emphasizing a distinct domain for social justice, the author then makes sense of its healing role in terms of the polity, economy, technology, and religion. Drawing from a rich supply of classroom experiences, her research on mosque controversies after September 11, 2001, and then the global examples of truth and reconciliation commissions, Frederking invites the reader to think about the relevance of social justice from the micro to the macro level. Rather than a set of policy outcomes or ideological positions, social justice is a process of social accountability that demands honest and transparent engagement. While disagreement is likely and controversy inevitable, this social justice process reaffirms our connectedness and moves us forward as a collective.

Christian Realism and the Revival of Public Theology Charles McDaniel, 2025-09-26 *Christian Realism and the Revival of Public Theology* analyzes Reinhold Niebuhr's *The Children of Light and the Children of Darkness* 80 years after publication and argues that it provides pertinent lessons for the contemporary era. This book considers how Niebuhr's book—as well as his other work—remains relevant and retains insights for an America which seems increasingly to be losing its moral bearings and political courage. The author examines the roots of political polarization in Niebuhr's categories of the children

of light and the children of darkness, finding it a more useful binary than liberalism vs. conservatism for understanding America's culture wars and the growing sense that its political institutions are in terminal decay. This book seeks to show how public theology offers resources to foster democratic and moral renewal. It concludes by calling for a reinvigorated civil religion to promote unity rather than division. This book will appeal to scholars of American politics, Christian ethics, Christian Realism, public theology, and American religious history as well as historians of American Christianity.

Local Self-Governance in Antiquity and in the Global South Dominique Krüger, Christoph Mohamad-Klotzbach, Rene Pfeilschifter, 2022-12-31 The nucleus of society is situated at the local level: in the village, the neighborhood, the city district. This is where a community first develops collective rules that are intended to ensure its continued existence. The contributors look at such configurations in geographical areas and time periods that lie outside of the modern Western world with its particular development of society and statehood: in Antiquity and in the Global South of the present. Here states tend to be weak, with obvious challenges and opportunities for local communities. How does governance in this context work? Scholars from various disciplines (Classics, Theology, Political Science, Sociology, Social Anthropology, Human Geography, Sinology) analyze different kinds of local arrangements in case studies, and they do so with a comparative approach. The sixteen papers examine the scope and spatial contingency of forms of self-governance; its legitimization and the collective identity of the groups behind them; the relations to different levels of state governance as well as to other local groups. Overall, this volume makes an interdisciplinary contribution to a better understanding of fundamental elements of local governance and statehood.

Future Bioethics Ronald Alan Lindsay, 2008 few areas of public policy have been fraught with as much controversy as bioethics. Each novel development in biomedical technology seems to spark rancorous disputes. Those averse to new technologies often express the concern that the new technology is 'unnatural' or requires us to 'play God'. Slogans such as 'Frankenfoods' and 'sanctity of life' substitute for reasoned argument. This is an ambitious book that seeks to reframe the debates surrounding current controversies in bioethics. Carefully examining and dissecting claims made by many policy-makers and ethicists on topics such as assistance in dying, genetic engineering, and embryonic stem cell research, bioethicist Ronald A Lindsay shows that all too often these claims are based on instinctive reactions, beliefs that lack factual support, and religious or ideological dogma. After describing in detail the proper way to approach and resolve a dispute in bioethics, Lindsay proceeds to analyse several different cutting-edge issues. Through his insightful analysis, Lindsay demonstrates how to achieve pragmatic, progressive solutions to these controversies. An antidote for misguided thinking, *Future Bioethics* illuminates the way forward to bioethics policies appropriate for the 21st century.

America's Untapped Resource Richard D. Kahlenberg, 2004 With access to higher education more important than ever, low-income students of all racial and ethnic groups continue to lag in participation. What can be done to ensure that more low-income students have adequate financial aid to attend college? That disadvantaged students are academically prepared for college and can persist to graduation? That selective universities are open to students of all economic backgrounds? As

Congress prepares to reauthorize the Higher Education Act, a group of widely respected scholars proposes a number of provocative ideas in this volume. Chapters include Low-Income Students and the Affordability of Higher Education, by Lawrence Gladieux, a former official with the College Board; Improving the Academic Preparation and Performance of Low-Income Students in Higher Education, by P. Michael Timpone of the Aspen Institute and Arthur M. Hauptman, a higher education consultant; and Socioeconomic Status, Race/Ethnicity and Selective College Admissions, by Anthony P. Carnevale of the Educational Testing Service and Stephen J. Rose of ORC Macro International. The volume also includes an appendix, Pell Grant Recipients in Selective Colleges and Universities, by Donald Heller of Pennsylvania State University.

Human Rights, Human Plights in a Global Village Rob Buitenweg, 2007 In today's globalized world, all people are within six steps--six links of acquaintanceship--of every other person in the world. Yet a significant percentage of these people we all know live in abject socio-economic misery, exploited, and without enough food or education, and often ill. How is it possible that these people are only six steps away from us? How can human misery continue despite the economic, technological and moral progress mankind has made? Human rights are intended to alleviate human misery and contribute to a dignified life -- so isn't this widespread, socio-economic human misery a violation of people's human rights, and especially of their economic, social and cultural rights? This book addresses the rights, the wrongs, the law, and what we need to do.

Staat und Geschlecht Gundula Ludwig, Birgit Sauer, 2009 Mit Beginn der 1990er Jahre setzten in den USA und Westeuropa systematische Versuche ein, eine politikwissenschaftliche feministische Staatstheorie zu entwickeln. Der Einsatz dieser neuen Beschäftigung mit dem Staat zielt auf die Beantwortung der Frage, wie Geschlecht und Geschlechterverhältnisse als konstitutive Elemente des modernen Staates begriffen werden können. Dies beinhaltet die Analyse vergeschlechtlichter staatlicher Institutionen, die Regulierung des Verhältnisses von Männern und Frauen durch staatliche Instrumente, aber auch die Herstellung von Geschlechtern bzw. Geschlechterverhältnissen durch Staaten - also Formen der Subjekt- und Identitätsbildung. Der vorliegende Band gibt einen Einblick in den aktuellen Stand feministischer Staatsdebatten, er macht aber auch exemplarisch sichtbar, welchen Beitrag feministische Konzepte zur Analyse staatlichen Wandels, der Veränderung geschlechtsspezifischer Staatlichkeit sowie für eine staatstheoretische Begründung von Emanzipation und Geschlechterdemokratie leisten können.

Why is Corporate America Bashing Our Public Schools? Mary Kathleen Emery, Susan Ohanian, 2004 Where exactly did high-stakes testing come from anyway? Neither parents, teachers, administrators, nor school boards demanded it, and now many communities feel powerless to reverse its appalling effect on our schools. Hot on the heels of the testing masterminds and peeling back layer upon layer of documentation, Kathy Emery and Susan Ohanian found a familiar scent at the end of the

paper trail. Corporate money. CEOs and American big business have blanketed United States public education officials with their influence and, as Emery and Ohanian prove, their fifteen year drive to undemocratize public education has yielded a many-tentacled private-public monster. With stunning clarity and meticulous research, Emery and Ohanian take you on a tour of board rooms, rightist think tanks, nonprofit concerned citizens groups, and governmental agencies to expose the real story of how current education reform arose, how its deceptive rhetoric belies its goals, and the true nature of its polarizing and disenfranchising mission. Why is corporate America bashing our schools? Because it's in their interests not yours. What can you do to promote your best educational interests? Read this expose and get ready to dismantle the education-reform machine.
