Shelley M. Griffin, Nasim Niknafs

Traumas Resisted and (Re)Engaged Shelley M. Griffin, Nasim Niknafs, 2023-12-30 This book focuses on the traumatic experiences within and through music that individuals and collectives face, while considering ways in which they (re)engage with their traumas in educational settings. The chapters delve into the physical, psychological, philosophical, sociological, and political aspects, as they relate to the reciprocal influences of trauma on musical practices and education. Readers are immersed in topics related to societal violence, physical injuries, grief, separation, loss, death, and ways of working through these in educational and artistic situations. In the introductory chapter, the co-editors draw attention to theoretical matters related to trauma through narrative inquiry in music education. The first section of the book, *Separation Revisited*, brings together notions of separation, focusing on how loss is emotionally and physically manifested when death, grief, and bodily injury are experienced. In the second section, *(Re)Engaging with Lost and Found*, readers are encouraged to imagine new possibilities considering trauma and loss in educational and musical spaces. These pieces offer deliberate ruminations moving the discourse toward (re)engagement in and through music education and artistic contexts. The co-editors conclude the book by drawing attention to narrative inquiry's double-edged nature in stories of trauma and how the retelling of lost and found narratives offers a way to imagine lives otherwise—lives not smothered by grief and horror—through the conceivable reliving of unfathomable stories of experience. This book emerges from the 7th International Conference on Narrative Inquiry in Music Education (NIME7), October 2020, co-hosted by Brock University, Faculty of Education and the University of Toronto, Faculty of Music, Ontario, Canada.

Historical Dictionary of Choral Music Melvin P. Unger, 2023-08-14 A Library Journal Starred Review (March 2024) praises the book as a remarkable resource that will please both musical professionals and amateurs, along with teachers and their students, and conductors and singers." Throughout the ages, people have wanted to sing in a communal context. This desire apparently stems from a deeply rooted human instinct. Consequently, choral performance historically has often been related to human rituals and ceremonies, especially rites of a religious nature. *Historical Dictionary of Choral Music*, Second Edition contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 1,300 cross-referenced entries on composers, conductors, choral ensembles, choral genres, and choral repertoire.
