RePEc ,2000* RePEc, a collaborative effort of over 100 volunteers in about 25 countries to enhance the dissemination of research in economics, is a decentralized database of working papers, journal articles and software components. Any institution is welcome to join in contributing its research materials. RePEc does not contain full-text journal articles; RePEc services provide links to many full text articles, but you may need a personal or institutional subscription to follow those links.

International Handbook on Teaching and Learning Economics Gail Mitchell Hoyt, KimMarie McGoldrick, 2012 ÒThe International Handbook on Teaching and Learning Economics is a power packed resource for anyone interested in investing time into the effective improvement of their personal teaching methods, and for those who desire to teach students how to think like an economist. It sets guidelines for the successful integration of economics into a wide variety of traditional and non-traditional settings in college and graduate courses with some attention paid to primary and secondary classrooms. . . The International Handbook on Teaching and Learning Economics is highly recommended for all economics instructors and individuals supporting economic education in courses in and outside of the major. This Handbook provides a multitude of rich resources that make it easy for new and veteran instructors to improve their instruction in ways promising to excite an increasing number of students about learning economics. This Handbook should be on every instructorÕs desk and referenced regularly.Õ Ð Tawni Hunt Ferrarini, *The American Economist* ÒIn delightfully readable short chapters by leaders in the sub-fields who are also committed teachers, this encyclopedia of how and what in teaching economics covers everything. There is nothing else like it, and it should be required reading for anyone starting a teaching career Ð and for anyone who has been teaching for fewer than 50 years!Õ Ð Daniel S. Hamermesh, University of Texas, Austin, US The International Handbook on Teaching and Learning Economics provides a comprehensive resource for instructors and researchers in economics, both new and experienced. This wide-ranging collection is designed to enhance student learning by helping economic educators learn more about course content, pedagogic techniques, and the scholarship of the teaching enterprise. The internationally renowned contributors present an exhaustive compilation of accessible insights into major research in economic education across a wide range of topic areas including: ¥ Pedagogic practice Ð teaching techniques, technology use, assessment, contextual techniques, and K-12 practices. ¥ Research findings Ð principles courses,

measurement, factors influencing student performance, evaluation, and the scholarship of teaching and learning. ¥ Institutional/administrative issues Ð faculty development, the undergraduate and graduate student, and international perspectives. ¥ Teaching enhancement initiatives Ð foundations, organizations, and workshops. Grounded in research, and covering past and present knowledge as well as future challenges, this detailed compendium of economics education will prove an invaluable reference tool for all involved in the teaching of economics: graduate students, new teachers, lecturers, faculty, researchers, chairs, deans and directors.

Know it All, Find it Fast for Academic Libraries Heather Dawson, 2012 A comprehensive and easy-to-use version of the best-selling Know it All, Find It Fast developed specifically for information professionals working in academic libraries, this will help you to tackle the questions most commonly asked by students, academics and researchers. Each topic is split into three sections to guide your response: typical questions listing the common enquiries you'll encounter points to consider exploring the issues and challenges that might arise where to look listing annotated UK and international resources in print and online including key organisations, scholarly bodies, digital libraries, statistical data and journal article indexes. Readership: This will prove an indispensable day-to-day guide for anyone working with students, academics and researchers in an academic library.

Libraries Beyond Their Institutions Rita Pellen, William Miller, 2014-06-03 Discover collaborative possibilities for your library beyond mere memberships in bibliographic utilities Libraries Beyond Their Institutions: Partnerships That Work illustrates the remarkable range of cooperative activities in which libraries are engaged in order to provide the best possible service. Increasingly, librarians recognize the need to link their institutions to the world around them as part of their obligation to enhance the integration of digital information, not only for students in academic settings, but also throughout all levels of society. An excellent companion and complement to Libraries Within Their Institutions: Creative Collaborations (Haworth) from the same editors, this unique book examines the variety of ways librarians work with community organizations, government agencies, professional organizations, minority communities, and city governments in their efforts to serve not just students in academic settings, but all of society. Libraries Beyond Their Institutions: Partnerships That Work reflects the growing understanding of the key role played by libraries in the development of civil society. This unique book examines the variety of possibilities for collaborations outside institutions, including the ways librarians function in a variety of other campus settings, such as writing centers, teaching excellence centers, and academic departments in support of teaching, learning, and research; partnerships with graduate school, and information resources management to preserve theses and dissertations electronically; promoting civic partnerships; initiating a campus-wide information literacy resource; and partnering with government agencies to form a data literacy program. Libraries Beyond Their Institutions: Partnerships

That Work provides practical information on: collaborative training programs to develop baseline competencies in academic libraries to support data services the Chicano/Latino Network and the Community Digital Initiative developing an international presence through digital resource sharing successful models of statewide library consortia technology-based partnerships promoting K-20 information literacy collaborations between the United States Patent and Trademark Office and patent and trademark depository libraries (PTDL) the development of AgEcon Search, an alternative method of delivering research results Libraries Beyond Their Institutions: Partnerships That Work is an invaluable resource for librarians working in academic, school, special, and public settings, and for library science faculty and students.

How to Write about Economics and Public Policy Katerina Petchko, 2018-07-12 How to Write about Economics and Public Policy is designed to guide graduate students through conducting, and writing about, research on a wide range of topics in public policy and economics. This guidance is based upon the actual writing practices of professional researchers in these fields and it will appeal to practitioners and students in disciplinary areas such as international economics, macroeconomics, development economics, public finance, policy studies, policy analysis, and public administration. Supported by real examples from professional and student writers, the book helps students understand what is expected of writers in their field and guides them through choosing a topic for research to writing each section of the paper. This book would be equally effective as a classroom text or a self-study resource. - Teaches students how to write about qualitative and quantitative research in public policy and economics in a way that is suitable for academic consumption and that can drive public policy debates - Uses the genre-based approach to writing to teach discipline-appropriate ways of framing problems, designing studies, and writing and structuring content - Includes authentic examples written by students and international researchers from various sub-disciplines of economics and public policy - Contains strategies and suggestions for textual analysis of research samples to give students an opportunity to practice key points explained in the book - Is based on a comprehensive analysis of a research corpus containing 400+ research articles in various areas of public policy and economics
