Gladys Rosa Calvo

Aprendiendo a ser sociólogos Cecilia Carrera, 2020-09-30 Aprendiendo a ser sociólogos es una etnografía que busca dar cuenta de lo cotidiano como dimensión constitutiva de los procesos educativos en la universidad, haciendo foco en las prácticas y las relaciones sociales que se construyen en la institución, el papel del conocimiento académico y la presencia de otros saberes en la definición de los procesos de formación. Para ello, la autora describe la vida cotidiana de algunos estudiantes, docentes y graduados de la carrera de sociología de una universidad pública en Argentina. El enfoque etnográfico permitió comprender el proceso de formación de sociólogos no simplemente como la transmisión y adquisición de conocimientos y habilidades definidos como contenidos curriculares sino como la incorporación de personas a un grupo social -mirado como comunidad de práctica- a través de su participación en él. Esta indagación es una vía de acceso relevante a una comprensión compleja de los procesos educativos que se despliegan en las universidades públicas y sus articulaciones con otros espacios sociales, como la militancia política y los campos de inserción profesional. Aprendiendo a ser sociólogos nos interpela, invitándonos a deconstruir los sentidos que hemos incorporado acerca de la universidad pública. Se trata de una etnografía que brinda herramientas para contemplar las visiones en pugna que dieron forma a nuestras casas de estudio, señalando que muchas de ellas no están saldadas, y forman parte del decir y el hacer vigente entre las y los jóvenes que transitan su formación superior. La recuperación de sus voces y las visiones que construyen de sí mismos, de los otros y de la carrera que estudian, constituyen aportes valiosos para entender las formas de adquisición y transmisión de conocimientos en las universidades públicas contemporáneas (prólogo de María Macarena Ossola).

Sociología de las organizaciones Públicas Mario José Krieger, 2021-06-03 Este libro pretende llenar el vacío existente en materia de sociología de las organizaciones públicas y análisis del comportamiento de la administración pública. En tal sentido, se busca dar respuesta a la inquietud de varias cátedras y docentes de grado y posgrado de diversas universidades que demandaban una bibliografía ajustada a la temática para facilitar su abordaje por los cursantes que desean introducirse en la problemática. Con el referido propósito, el libro plantea los principales temas en debate en este campo de estudio interdisciplinar, como son el de la sociología de las organizaciones públicas y el comportamiento en la administración pública, con una visión actualizada y crítica, pero a la vez didáctica. Asimismo, busca brindar los elementos teóricos para abordar estos fenómenos. Los aspectos prácticos de métodos y técnicas de investigación y de diagnóstico e intervención

organizacional serán tratados en un segundo libro, que continuará y completará a este, con el cual pretende conformar una sola obra. De tal manera que la teoría que aquí se ofrece pueda operacionalizarse con el propósito de efectuar diagnósticos e intervenciones en organizaciones públicas, solucionando los problemas. La obra se basa en la experiencia argentina, con una perspectiva latinoamericana y global. También se encuentra dedicada a funcionarios y agentes públicos que por su quehacer deban profundizar la comprensión del fenómeno organizacional, sistematizar los conocimientos interpretativos y operativos de su actividad cotidiana, y a todos aquellos que por una u otra razón necesiten comprender sociológicamente el comportamiento de la administración pública, la gestión pública o la implementación de políticas públicas.

La formación en investigación en la universidad Gladys Rosa Calvo, 2021-11-23 ¿Cómo se forma un investigador? ¿Qué instancias se prevén en las carreras de grado para preparar en los quehaceres investigativos? ¿Qué características didácticas tiene la formación en investigación en la universidad? ¿Qué particularidad asume en las carreras de grado de las ciencias sociales y humanas? Estas y otras preguntas orientan el desarrollo de esta obra que abre a respuestas y a nuevos interrogantes para los docentes y estudiantes preocupados por la formación en la universidad, dado que investigación, docencia y extensión se constituyen en los pilares de nuestra institución. El rol de investigador se integra en las competencias a desarrollar en esa formación, y, a la vez, se constituye en un rasgo que distingue y caracteriza al profesional que desarrolla actividades académicas. La mayor parte de los planes de estudios universitarios explicitan la intención de formar profesionales capacitados para realizar investigaciones científicas, sin embargo, este interés no deriva necesariamente en el desarrollo de contenidos y estrategias tendientes al logro de esta finalidad. El presente trabajo, parte de un estudio didáctico general para, posteriormente, profundizar en las modalidades de relación teoría y práctica que adquieren las distintas instancias curriculares dedicadas a formar en investigación, especialmente aquellas que se encuentran en el ciclo de formación general. El estudio tiene su anclaje empírico en las nueve carreras de la Facultad de Filosofía y Letras de la Universidad de Buenos Aires. Preguntarnos en torno a la formación de los investigadores en la universidad resulta de interés ya que problematiza y busca aportar conocimiento sobre un tema de relevancia académica y social, ya que no solo implica a la institución productora de ese conocimiento sino también a la sociedad que aparece como destinataria de ese conocimiento producido.

La sociología del control penal en España y Latinoamérica. Amaral Machado, Bruno, Anitua, Gabriel Ignacio, 2021-03-16 El presente libro es un homenaje y continuación del acervo intelectual bergalliano y es también una manera de hermanamiento y a la vez consolidación de lo que podría denominarse “la escuela de Barcelona de la criminología crítica”. En los trabajos que presentan destacadas figuras de la criminología de España, Argentina, Brasil, Colombia,

Venezuela, México y Chile se observa esa unidad en la diversidad que, al rendir homenaje al maestro, retoma y amplía consideraciones sobre los saberes y enseñanzas, sobre la cuestión criminal, el control social, la cárcel, la justicia (especialmente la transicional), la policía y la violencia, así como una muy nutrida e importante reflexión sobre el derecho penal y las mujeres, los delitos de los poderosos, los estudios culturales y la cuestión migratoria, entre otros temas.

Evaluación Institucional: La Sociología en Tamaulipas María del Rosario Hernández Fonseca,2024-10-29 Esta obra es producto de una investigación documental y aplicada que permite conocer la opinión de los estudiantes, egresados y empleadores con respecto a la Sociología en Tamaulipas. Se destaca la importancia y necesidad de la disciplina para el desarrollo social en el sector productivo, agrícola, ganadero, pesquero, apicultor, turístico, maquilador, y educativo entre otros. Sin embargo, a la distancia de más 30 años presenta la peor crisis de su historia por baja matrícula; su continuidad y permanencia es crítica y demanda un “nuevo rostro” para ser considerada por los jóvenes de pregrado como una opción de estudios superiores. Finalmente, se integran algunas propuestas para fortalecer el Programa Académico.

Politics and Education in Argentina, 1946-1962 Monica Rein,1998-03-11 Mid-twentieth century Argentine history was characterized by a long series of political upheavals, economic ups and downs, and social crises. Successive regimes attempted to shape national consciousness to legitimize and support their respective goals. The education system, at all levels, served as a major tool in these efforts. This study focuses on the formal education system in Argentina during the 1940s, the 1950s, and the early 1960s. It analyzes the link between politics and education against the backdrop of changing social conditions in Argentina under the regimes of Peron, Lonardi and Aramburu (the Liberating Revolution), and Frondizi, by evaluating textbooks, official bulletins, children's periodicals, speeches, and personal interviews.
