The Rune Primer Sweyn Plowright, 2006-11-01 Sorting fact from fiction about runes has become increasingly difficult in recent years. The number of rune books has multiplied, but the majority of them are based on speculation, or even complete fantasy, and are often contradictory and confusing. Some readers may be content to settle for these, but a growing number of rune students have been asking for a basic factual foundation so that they can judge for themselves the reliability of the information in the esoteric rune books. *The Rune Primer* at last bridges the gap between the dry, complex, and expensive academic works, and the less reliable esoteric and New Age books about rune magic and divination. This book makes the old sources accessible, with translations of the rune poems, and the historical information presented in plain English. It also traces many of the recently invented rune myths to their sources, reviews some of the most popular authors, and explains the ideas behind some of the modern esoteric rune systems.

A Legacy of Druids Ellen Evert Hopman, 2016-04-29 A book of conversations with prominent Druids from across Britain, the USA and other countries whose voices describe the basic beliefs, practices and struggles of the emerging Druid faith. Conducted in person and online in the late 20th century, these collected conversations provide a historic window into the movers and shakers of the modern Druid world.

Knowing the Facts about Divination Practices and Occult "Games" John Ankerberg, John Weldon, 2012-09-28

Divination has existed in all cultures throughout history. It is the attempt to predict or control one's future or to gain access to hidden information by the assessment of various indicators or use of particular implements. Some "Christian" diviners have pointed to biblical examples of divination in order to justify their practices. This book examines where the power comes from; explains how the various implements (including games) are used; and warns of the potential dangers.

Encyclopedia of New Age Beliefs John Ankerberg, John Weldon, 1996 This comprehensive, indexed volume includes short, one-page listings of pertinent facts about a particular movement, its founder, how it claims to work, scientific evaluations done, and its potential dangers. Some topics covered are angels, visualization, shamanism, hypnosis, new age medicine and martial arts.

At the Well of Wyrd Edred Thorsson, 1988 The author leads you to the holy road that takes you to the depths of you Self, so you can communicate directly with a god -- or the gods -- and thus realize the hidden meaning of the runes.

Runes in Ten Minutes Richard T. Kaser, 2010-10-12 Runic divination is a method that is more than 2,000 years old, yet rune stone sets are available today in New Age stores. For readers who do not have their own rune stones, Kaser shows how to create your own, as well as how to substitute Scrabble tiles for traditional runes. From the successful author of Tarot in Ten Minutes.
