Terapeutica Dental, 2003 Hoy día, en Odontología, se prescriben un amplio número de fármacos. Para ello, al especialista le resulta imprescindible disponer de una buena guía de medicamentos que sea bastante más que un escueto diccionario farmacológico. Precisamente, es el principal objetivo de esta Guía Dental de la ADA: ofrecer al especialista una completa, concisa y cuidada información de los medicamentos más adecuados para cada acción terapéutica. Tiene facilidad de consulta, con tablas bien organizadas que permiten una rápida y segura información; los datos actualizados, sobre dosis, interacciones, efectos adversos y características de cada fármaco; breve, pero completa información, de los tipos de fármacos, lo que lo convierte en un puente entre el diccionario de medicamentos y volumen de textos farmacológicos. Se

estructura en tres secciones: fármacos utilizados en Odontología, fármacos utilizados en Medicina en general y fármacos con características especiales utilizados en la práctica odontológica. Además, se incluyen varios apéndices que tratan de hierbas medicinales, suplementos dietéticos y sustancias causantes de fotosensibilidad. Asimismo, dispone de un amplio índice, con fármacos de marca y genéricos, y las principales indicaciones odontológicas de cada medicamento. Totalmente actualizada, esta Guía de la ADA es una herramienta terapéutica de gran valor práctico para ayudar a tomar las decisiones más correctas al especialista.

Análisis químico Herbert A. Laitinen, Walter E. Harris, 1982

Química orgánica industrial Klaus Weissermel, Hans-Jürgen Arpe, 1981 No siempre es fácil conocer con rapidez y seguridad el estado actual de la Química orgánica en la industria. Es por ello que surgió la necesidad de una exposición renovada limitada a los productos de partida e intermedios más importantes. Los autores se han esforzado, basados en su experiencia industrial y la adquirida en conferencias y cursos en su lugar de residencia, en depurar su contenido y exponerlo de forma que refleje las cuestiones y análisis diarios de problemas de investigación y desarrollo y resulten comprensibles al lector.
