

When I Am Older I Will Be Stronger Song

Richard Bailey

When I Am Older, I Will Pray More Roy K. Bohrer, 2011-08-24 As Ecclesiastes says, “There is a time for everything, and a season for every activity under the heavens.” In the same way, When I Am Older, I Will Pray More shares prayers for seniors suitable for every life situation. These prayers can be used exactly as they are written in your devotional life, or as examples of how to regularly talk with the Lord about subjects ranging from everyday troubles to sick friends to preparation for upcoming life changes. Within each prayer also lies a positive message of inspiration that will provide comfort and peace, no matter what circumstances you face. If you prefer to create your own prayers, When I Am Older, I Will Pray More provides a five-point prayer form that you can memorize to help you when saying prayers aloud. You will also learn the “praying fingers” method—a simple technique to help remember who you are praying for. By using each finger on your hand, you can use this practice to ensure that you pray for everyone in your life, from the people closest to you to teachers, pastors, and even government leaders. Intended for all in or just entering their senior years, When I Am Older, I Will Pray More provides a nondenominational, easy-to-use resource of relevant prayers.

Bridging Music Informatics with Music Cognition Naresh N. Vempala, Frank A. Russo, Geraint A.

Wiggins, 2018-09-14 Music informatics is an interdisciplinary research area that encompasses data driven approaches to the analysis, generation, and retrieval of music. In the era of big data, two goals weigh heavily on many research agendas in this area: (a) the identification of better features and (b) the acquisition of better training data. To this end, researchers have started to incorporate findings and methods from music cognition, a related but historically distinct research area that is concerned with elucidating the underlying mental processes involved in music-related behavior.
