Conservatori, accademie, istituti di design AA.VV.,2024-07-16T00:00:00+02:00 Una finestra sul bello. E' quella che vogliamo aprire con una guida all'alta formazione artistica e musicale. Per la prima volta Il Sole 24 Ore, nell'ambito dell'iniziativa editoriali sull'education, dedica un prodotto ad hoc a quel vasto e ancor poco noto mondo che parte dalle Accademie e passando per i Conservatori arriva agli Istituti di design. Tra le opportunità, a disposizione degli studenti freschi di maturità, per ottenere un titolo di istruzione terziaria ci sono infatti anche quelle offerte da dalle istituzioni AFAM: 158 luoghi di studio di approfondimento e di ricerca sparsi lungo lo stivale che vedono aumentare il numero di iscritti e che spesso sono più conosciuti all'estero che in patria come dimostra l'alto numero di studenti internazionali.

Higher Education in Regional and City Development: Lombardy, Italy 2011 OECD,2011-11-03 This review finds that Lombardy is the most prosperous region in Italy. But the region faces long-term challenges emerging from an ageing population, immigration and slow adaptation of practices and technologies to enhance productivity.

Inseguì i tuoi sogni. Piccolo manuale dell'imprenditore di successo Giorgio Lonardi,Salvatore Pironti,2018-07-26 Se tutti sognano di trasformare in lavoro i propri interessi e passioni, è altrettanto vero che sono pochi quelli che effettivamente riescono a farlo. Tutti noi abbiamo paura di fallire, e spesso ci rassegniamo a svolgere lavori che non ci soddisfano del tutto, pensando che debba funzionare così per forza. Lo scopo di questo volume è quello di trasformare un'idea imprenditoriale in un vero e proprio Piano d'Impresa, nel quale si sviluppano le tematiche su cui interrogarsi nel caso in cui si voglia fondare una start-up, o semplicemente sviluppare nuove progettualità. I temi sono affrontati senza tralasciare alcun elemento rilevante, accompagnando il lettore passo dopo passo nella realizzazione del Business Plan. Ogni capitolo ti permetterà di valutare consapevolmente le criticità della tua idea e di un mercato sempre più complesso e multidimensionale, in cui questa andrà a collocarsi. Grazie all'esperienza maturata dagli autori nella consulenza aziendale, nell'attività di formazione e nel contatto diretto con le imprese, questo volume rappresenta uno strumento pratico ed efficace per tutti coloro che vogliano fare impresa senza avere alle spalle una specifica formazione economico-manageriale.

Painting as Business in Early Seventeenth-century Rome Patrizia Cavazzini,2008 Painting as Business in Early Seventeenth-Century Rome offers a new perspective on the world of painting in Rome at the beginning of the Baroque, from both an artistic and a socioeconomic point of view. Biased by the accounts of seventeenth-century biographers, who were

often academic painters concerned about elevating the status of their profession, art historians have long believed that in Italy, and in Rome in particular, paintings were largely produced by major artists working on commission for the most important patrons of the time. Patrizia Cavazzini's extensive archival research reveals a substantially different situation. Cavazzini presents lively and colorful accounts of Roman artists' daily lives and apprenticeships and investigates the vast popular art market that served the aesthetic, devotional, and economic needs of artisans and professionals and of the laboring class. *Painting as Business* reconstructs the complex universe of painters, collectors, and merchants and irrevocably alters our understanding of the production, collecting, and merchandising of painting during a key period in Italian art history.

Compresenze. Corpi, azioni e spazi ibridi nella città contemporanea Giovanni Caudo, Janet Hetman, Annalisa Metta, 2017-11-01 Questo libro raccoglie l'esito di una call, lanciata nell'autunno del 2016, promossa da un gruppo di ricercatori del Dottorato in Paesaggi della Città Contemporanea. Politiche, tecniche e studi visuali, afferenti al Dipartimento di Architettura dell'Università Roma Tre. L'invito, rivolto a studiosi, progettisti, fotografi e artisti in diversi ambiti, è di indagare i caratteri delle molteplici manifestazioni con cui le compresenze - le forme di abitare la città e costruire gli spazi urbani che includono differenti e plurali intenzionalità, spontanee, predisposte o suggerite - si compiono nei luoghi delle città contemporanee e sollecitano l'incontro tra corpi, comportamenti, spazi, tempi e culture differenti. Il libro contiene i contributi selezionati, con una ricca varietà di casi e di riflessioni, rivolti sia a pratiche informali sia a progetti autoriali, a edifici e spazi aperti, esperienze didattiche, di ricerca teorica o applicata, in grado di offrire spunti di riflessione per rispondere ad alcune domande di cui proponiamo l'urgenza: quali sono le dinamiche spaziali in corso nelle nostre città capaci di accogliere ed esprimere forme di compresenza? Quali cronologie richiedono o descrivono? Quali gli strumenti, le attitudini e le competenze necessarie per progettare ambiti di compresenza? Quali sono i luoghi privilegiati per sperimentare azioni, pratiche e progetti di compresenza? Il volume contiene inoltre saggi di: Federica Andreoni, Francesco Careri, Matilde Cassani, Fabio Di Carlo, Giulio Giovannoni, Jacopo Leveratto, Giovanni Longobardi, Gabriele Rossi.

Right and Left in Early Christian and Medieval Art Robert Couzin, 2021-03-01 Robert Couzin's *Right and Left in Early Christian and Medieval Art* is the first in-depth study of handedness, position, and direction in the visual culture of Europe and Byzantium from the fourth to the fourteenth century. Heretofore largely unnoticed or ignored, the pre-eminence of the right and lapses or intentional departures from that norm in medieval imagery are relevant to such major themes as iconography, visuality, reception, narrative, form, gender, production, and patronage. The author's investigation of right and left in visual culture is informed by modern experimental research on laterality and contextualized within prevailing theological doctrines and socio-cultural practices. Illustrations in the text are complemented by hundreds more made available on Brill's Arkyves platform here. See inside the book.

Galileo Paolo Galluzzi,2009 Since the dawn of time, man has been fascinated by the night sky and the heavenly bodies that inhabit it. In 1609, Galileo Galilei created an instrument that would change the way the world looked at the heavens forever - the telescope. Galileo: Images of the Universe is a magnificently illustrated volume that takes readers on a journey via the works of artists great and small, known and unknown, from the mystical and poetic visions of the heavens held in Egypt and Mesopotamia, through the Greek cosmogonies and the planetary architecture of Ptolemy, to the heliocentric theories of Copernicus that inspired the likes of Galileo, Kepler, and Newton to create the modern concept of the universe.

Caravaggio John T. Spike, Michèle K. Spike,2010-04-06 Every extant work by Caravaggio is reproduced in color in this lavish newly updated volume, the long-awaited result of more than twenty years of research by a leading authority on the artist. In an engaging and informed text, John T. Spike explores in detail Caravaggio's scandalous life and provocative work. Placing Caravaggio within the broad panorama of society and ideas at the turn of the 17th century, the author sets a richly detailed stage for an artist who has been called the first modern painter. Caravaggio (1571-1610) reflected in his canvases his own desires and spiritual crises to an extent no one ever had imagined possible, and he shocked his contemporaries by portraying the saints and virgins of Christianity with the faces and bodies of his companions and lovers in Rome's demimonde. Accompanying the book is a critical catalog on CD-ROM in which all of Caravaggio's extant paintings, as well as lost and rejected works, are thoroughly described. Each entry specifies the work's medium, dimensions, location, and provenance, and provides an annotated bibliography of sources. Most of the entries conclude with a brief technical analysis. Much of this scientific data, of prime importance for attribution and dating, has not previously been published. With its fresh insights, as well as judicious readings of the documents and the physical evidence of the paintings themselves, Caravaggio is the most thorough study on the artist to date, and it will no doubt remain a definitive monograph for many years to come. This revised edition includes a new preface and updated bibliography.
