Alberto Trueba Urbina

Derecho de obligaciones y contratos en general Encarna Cordero Lobato, Manuel Jesús Marín López, 2019-11-25 El Derecho de Obligaciones y Contratos en general pretende ser un texto de referencia tanto para estudiantes de Grado en Derecho, como para profesionales, sean o no jurídicos. A diferencia de los manuales al uso, se trata de una obra que sintetiza lo esencial de la materia, facilitando su asimilación a través de la peculiar estructura y ordenación de las lecciones. Precedidas de un breve cuadro normativo, las ideas fundamentales de cada lección se exponen en epígrafes independientes, acompañadas de cuadros dedicados a tratar cuestiones controvertidas de interés, y cada lección termina con un compendio de las reglas fundamentales que han sido expuestas. La obra constituye el instrumento más completo, actualizado y útil para conocer lo fundamental del Derecho de Obligaciones y Contratos en general, comprendiendo el concepto y clasificación de los contratos, sus elementos esenciales y accidentales, su formación, eficacia e ineficacia, su interpretación, así como la noción de obligación y de relación obligatoria, las fuentes de las obligaciones, su clasificación, modificación y extinción, el incumplimiento de las obligaciones, la afección del patrimonio al cumplimiento, las garantías de la obligación y los medios de tutela y protección del crédito.

Tort Law in Chile Alfredo Ferrante,2022-04-21 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in the Chile. This traditional branch of law not only tackles questions which concern every lawyer, whatever his legal expertise, but also concerns each person's most fundamental rights on a worldwide scale. Following a general introduction that probes the distinction between tort and crime and the relationship between tort and contract, the monograph describes how the concepts of fault and unlawfulness, and of duty of care and negligence, are dealt with in both the legislature and the courts. The book then proceeds to cover specific cases of liability, such as professional liability, liability of public bodies, abuse of rights, injury to reputation and privacy, vicarious liability, liability of parents and teachers, liability for handicapped persons, product liability, environmental liability, and liability connected with road and traffic accidents. Principles of causation, grounds of justification, limitations on recovery, assessment of damages and compensation, and the role of private insurance and social security are all closely considered. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for lawyers in Chile. Academics and researchers will also welcome this very useful guide, and will appreciate its value not only as a contribution to comparative law but also as a stimulus to harmonization of the rules on tort.
