A Guide to Administering Distance Learning ,2021-09-06 Winner of the Distance Education Book Award! Listen to the podcast! The rapid rise of e-learning worldwide means that campuses are creating new positions in distance learning leadership, often at the vice-president or vice-provost level. Frequently, those applying for such positions are recently graduated doctoral students or faculty members who have never served in administration. Unlike any other book to date, this Guide to Administering Online Learning provides easy access to an overview of tasks to be accomplished or maintained and perspectives to consider in order to direct dynamic online initiatives. In it, experienced distance learning teachers and administrators share their insights regarding what must be done to administer effective online learning, including theoretical insights as well as practical principles. They provide comprehensive guidelines for addressing issues and needs that distance learning administrators currently face: barriers to adoption, policies, legalities, ethics, strategic planning, emerging technologies, design of professional development, management of the course development process, quality assurance, student support, and recruitment and marketing. This book is a timely offering from those who have effectively led distance learning initiatives for those who are interested in leading distance learning for the next generation of learners. Each chapter includes questions, prompts, or activities to help readers relate the concept to their own experiences.

Decision Intelligence Miriam O'Callaghan,2023-04-26 Revealing the limitations of human decision-making, this book explores how Artificial Intelligence (AI) can be used to optimize decisions for improved business outcomes and efficiency, as well as looking ahead to the significant contributions Decision Intelligence (DI) can make to society and the ethical challenges it may raise. From the theories and concepts used to design autonomous intelligent agents to the technologies that power DI systems and the ways in which companies use decision-making building blocks to build DI solutions that enable businesses to democratize AI, this book presents an impressive framework to integrate artificial and human intelligence for the success of different types of business decisions. Replete with case studies on DI applications, as well as wider discussions on the social implications of the technology, *Decision Intelligence: Human-Machine Integration for Decision Making* appeals to both students of AI and data sciences and businesses considering DI adoption.

A Supplement to the Oxford English Dictionary R. W. Burchfield,1972 These volumes replace the 1933 Supplement to the OED. The vocabulary treated is that which came into use during the publication of the successive sections of the main Dictionary -- that is, between 1884, when the first fascicle of the letter A was published, and 1928, when the final section of the Dictionary appeared -- together with accessions to the English language in Britain and abroad from 1928 to the present day. Nearly all the material in the 1933 Supplement has been retained here, though in revised form (Preface).

Frommer's Hawaii on \$35 a Day Faye Hammel,Sylvan Levey,1984-11

Southwest and South Central, 1998 Fodor's,Fodor's Travel Publications, Inc. Staff,1998 Seventeen years ago, three young women were killed, their bodies dumped in the wasteland of the L.A. River. The killer was never found, and the case was mysteriously closed. Now, all these years later, as memories from her past threaten her present, Detective Alex Delillo reopens the River Killer case. After a chaotic year, homicide detective Alex Delillo's life is finally back to normal - her daughter is in college and she is experiencing the first pangs of an empty nest - until she receives a phone call about a death outside her Pasadena jurisdiction. The body of an unidentified man is found next to the river near Griffith Park with a single gunshot wound to the head - apparent suicide - and Alex was the last person he tried to contact before he died. When she goes to identify him, Alex comes face to face with the spitting image of her father. Now, a half brother she never knew she had is dead under more than mysterious circumstances. LAPD thinks it's an open-and-shut case; Alex isn't so sure. When she reconstructs her brother's final hours, she discovers he had investigated on an old LAPD serial killer case from the '70s - the River Killings. He may have come across something buried deep within the case files, something that could have gotten him killed. As Alex gets closer to the truth of her brother's murder, her father's past comes into alarming focus, and disturbing flashbacks from her childhood start to plague her. A journeyman actor who disappeared when she was child, her father had a history of violence against women, but was he capable of murder? And is he the one in the shadows, stalking Alex's every move and leaving a body count? In a chilling turn, Alex finds that the truth is as murky and as empty as the L.A. River itself.--
