Christus Troia Nova and Babylon the Great E. K. McFall Ph.D., 2024-08-26 Christus Troia Nova and Babylon the Great:

How Daniel, Aristotle, Virgil, Seneca, and the Didache Prophesized the USA and the Return of Christ understands Greco-Roman epic and tragedy as a part of Judeo-Christian scripture—that together they make up a more complete whole. Building upon his earlier article, “Are Dionysos and Oedipus Name Variations for Satan and Antichrist?,” originally published in *The Journal of Greco-Roman Christianity and Judaism*, the book reflects new insights about the place of the USA in end-time prophecy. Thus, following Joachim of Fiore, the approach in this book has been to understand history as exegesis. The difference is Joachim thought as Bernard McGinn notes in *Antichrist: Two Thousand Years of the Human Fascination with Evil*, ‘God’s judgment over history is grasped only through the interpretation of the Bible’ whereas I believe Greco-Roman tragedy and epic, in conjunction with the Bible and the Didache’s three signs signifying the final Theophany of Christ, provides a more complete picture. The approach here, therefore, incorporates the following assessment: (1) Dionysos/Satan/Osiris are the same deity. (2) Canaanites/Phoenicians/Ham/Hercules/Cadmus/Oedipus/Alexander the Great/Nero/Macbeth are all related by blood. (3) USA is a reconstituted Roman Empire. It is or can be Dante’s ‘that Rome of which Christ was Roman’ or Babylon the Great of Revelation.

The Illustrated Guide to the Egyptian Museum in Cairo Alessandro Bongioanni, Maria Sole Croce, Laura Accomazzo, 2001

An immense reservoir of art history, Cairo's Museum of Egyptian Antiquities contains fabulous collections of relics from the Mediterranean's most mysterious and ancient civilization, the true cradle of western culture. From the creation of the first state on the banks of the Nile to its submission to the Roman empire, the millennial story of ancient Egypt is recounted here through the artistic masterpieces, the everyday objects, the spectacular jewels, and the magnificent remains from the tombs of the pharaohs, all remarkably assembled within the walls of a single institution. Structured as a guide, but fully illustrated with superb color photographs, this book suggests a simple but comprehensive itinerary through the museum, subdividing the tour into chapters devoted to the most important episodes in Egyptian history. Collected during the course of over a century of archaeological excavations, jewelry, tools, toys, models, religious objects, mummies, and monumental sculptures offer vivid glimpses of a formidable civilization. The rich funerary cache of Tutankhamun, the treasures of Tanis, and the jewels of Queen Ahhotep reflect the glory of the Egyptian monarchy, but there are insights too into the day-to-day lives of the more humble sections of society. Previously unpublished photographs and plans alongside texts prepared by the museum curators themselves help readers to penetrate the corridors and halls of the great museum in search of a heritage unique in its richness and variety, following in the footsteps of the great figures in Egyptian history: from the pharaohs, suspended between heaven and earth, to the archaeologists who, with their patient excavations, have helped to shed new light on the land of the pyramids.
