**African Americans on Television** David J. Leonard, Lisa Guerrero, 2013-04-23 A comprehensive look at the history of African Americans on television that discusses major trends in black TV and examines the broader social implications of the relationship between race and popular culture as well as race and representation. Previous treatments of the history of African Americans in television have largely lacked theoretical analysis of the relationship between representations and social contexts. *African Americans on Television: Race-ing for Ratings* fills the existing void by supplying fundamental history with critical analyses of the racial politics of television, documenting the considerable effect that television has had on popular notions of black identity in America since the inception of television. Covering a spectrum of genres—comedy, drama, talk shows, television movies, variety shows, and reality television, including shows such as *Good Times*, *The Oprah Winfrey Show*, and *Chappelle's Show*—this insightful work traces a cultural genealogy of African Americans in television. Its chronological analysis provides an engaging historical account of how African Americans entered the genre of television and have continued to play a central role in the development of both the medium and the industry. The book also tracks the shift in the significance of African Americans in the television market and industry, and the changing, but enduring, face of stereotypes and racism in American television culture.

**Open TV** Aymar Jean Christian, 2018-01-09 How the internet transformed television Before HBO's hit show *Insecure*, Issa Rae's comedy about being a nerdy black woman debuted as a YouTube web series *The Misadventures of Awkward Black Girl*, her response to the absence of diverse black characters on the small screen. *Broad City*, a feminist sitcom now on Comedy Central, originated as a web series on YouTube, developed directly out of funny women Ilana Glazer and Abbi Jacobson's real-life friendship. These unconventional stories took advantage of the freedom afforded outside the traditional television system: online. *Open TV* shows how we have left "the network era" far behind and entered the networked era, with the web opening up new possibilities for independent producers, entrepreneurs, and media audiences. Based on interviews with writers, producers, show-runners, and network executives, visits to festivals and award shows, and the experience of producing his own series, Aymar Jean Christian argues that the web brought innovation to television by opening up series development to new producers, fans, and sponsors that had previously been excluded. Online access to distribution provides creative freedom for indie producers, allows for more diverse storytelling from marginalized communities, and introduces

new ways of releasing and awarding shows. Open TV is essential reading for anyone interested in the changing environment of television and how the internet can inspire alternatives to what's on TV tonight.

**Internet Comedy Television Series, 1997-2015** Vincent Terrace, 2016-02-25 Created around the world and available only on the web, Internet television series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through crowd-funding, they are filmed with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The fourth in a series covering Internet TV, this book takes a comprehensive look at 1,121 comedy series produced exclusively for online audiences. Alphabetical entries provide websites, dates, casts, credits, episode lists and storylines.

**Encyclopedia of Television Shows** Vincent Terrace, 2018-01-14 This is a supplement to the author's Encyclopedia of Television Shows, 1925-2010. It covers 1,612 series broadcast between January 1, 2011, and December 31, 2016. Major networks--ABC, CBS, the CW, Fox and NBC--are covered along with many cable channels, such as AMC, Disney, Nickelodeon, Bravo, Lifetime, Discovery, TNT, Comedy Central and History Channel. Alphabetical entries provide storylines, casts, networks and running dates. A performer index is included.

**Don't Knock the Hustle** S. Craig Watkins, 2019-05-07 Offers a timely analysis of the sheer ingenuity and persistence of young people who cobble together the resources they need to pursue the lives and careers they want. Young adults are coming of age at a time when work is temporary, underpaid, incommensurate with their education, or downright unsatisfying. Despite these challenges, media scholar S. Craig Watkins argues that this moment of precarity is rife with opportunities for innovation, and that young adults are leading the charge in turning that into an inventive and surprisingly sustainable future. As a result, society is expanding its understanding of who we think of as innovators and what qualifies as innovation, while wealth is spreading beyond traditional corridors of powerful tech companies, venture capitalism, and well-endowed universities. Drawing on over ten years of interviews and data, Watkins reveals the radical ways in which this community of ambitious young creatives is transforming businesses from the outside in. Diverse perspectives that are often ignored or silenced by major corporations are garnering public attention as women and people of color are redefining industries across the globe—all from their computer screens. We meet people like Prince Harvey, a New York-based hip-hop artist who recorded his album entirely on an Apple showroom laptop; screenwriter, producer, and actor Issa Rae, who first used YouTube and Kickstarter to develop the web series that became her hit HBO show Insecure; the Empowerment Plan, a nonprofit organization created by product design student Veronika Scott in Detroit; and start-up companies like Qeyno Group in San Francisco and Juegos Rancheros in Austin that help make tech more accessible to people of color. Forward-thinking and dynamic, Don't Knock the Hustle shows the diversity and complexity of a generation on the rise. UNIQUE APPROACH TO UNDERSTANDING MILLENNIALS that looks beyond stereotypes about their relationships with tech and labor, based on two

years of MacArthur Grant-funded research. DIVERSE AUDIENCE APPEAL that will reach millennials, educators, people seeking to hire millennials, and scholars of technology, media, and labor.
