

Born On Third Base Quote

Rosina Ehmann

The Quote Verifier Ralph Keyes, 2007-04-01 Our language is full of hundreds of quotations that are often cited but seldom confirmed. Ralph Keyes's *The Quote Verifier* considers not only classic misquotes such as Nice guys finish last, and Play it again, Sam, but more surprising ones such as Ain't I a woman? and Golf is a good walk spoiled, as well as the origins of popular sayings such as The opera ain't over till the fat lady sings, No one washes a rented car, and Make my day. Keyes's in-depth research routinely confounds widespread assumptions about who said what, where, and when. Organized in easy-to-access dictionary form, *The Quote Verifier* also contains special sections highlighting commonly misquoted people and genres, such as Yogi Berra and Oscar Wilde, famous last words, and misremembered movie lines. An invaluable resource for not just those with a professional need to quote accurately, but anyone at all who is interested in the roots of words and phrases, *The Quote Verifier* is not only a fascinating piece of literary sleuthing, but also a great read.

Born on Third Base Chuck Collins, 2016-09-23 “A call to action for America's wealthy and a warning shot across the bows of their yachts if they fail to act, *Born on Third Base* offers a clear and compelling case for why the privileged and powerful must act to reverse widening inequality of income, wealth, and political power in America.”—Robert B. Reich, former US Secretary of Labor; author of *Saving Capitalism* An essential piece of reading for anyone concerned by the increasing wealth inequality—made worse by the global pandemic and political partisanship The growing wealth inequality continues to dominate headlines. The divide between the haves and have nots in America is increasingly political and tensions are rising. On one side, the wealthy wield power and advantage, keeping the system operating in their favor—all while retreating into enclaves that separate them further and further from the poor and working class. On the other side, those who find it increasingly difficult to keep up or get ahead are desperate and frustrated —waging a rhetorical war against the rich and letting anger and resentment keep us from seeing new potential solutions. But can we suspend both class wars long enough to consider a new way forward? Is it really good for anyone that most of society's wealth is pooling at the very top of the wealth ladder? Does anyone, including the one percent, really want to live in a society plagued by economic apartheid? It is time to think differently, says longtime inequality expert and activist Chuck Collins. Born into the one percent, Collins gave away his inheritance at 26 and spent the next three decades mobilizing against inequality. He uses his perspective from both sides of the divide to deliver a new narrative. Collins calls for a ceasefire and invites the wealthy to

come back home, investing themselves and their wealth in struggling communities. And he asks the non-wealthy to build alliances with the one percent and others at the top of the wealth ladder. Stories told along the way explore the roots of advantage, show how taxpayers subsidize the wealthy, and reveal how charity, used incorrectly, can actually reinforce extreme inequality. Readers meet pioneers who are crossing the divide to work together in new ways, including residents in the author's own Boston-area neighborhood who have launched some of the most interesting community transition efforts in the nation. In the end, Collins's national and local solutions not only challenge inequality but also respond to climate change and offer an unexpected, fresh take on one of our most intransigent problems.

The Little Book of Misquotations Lou Harry, 2019-08-06 Motivational quote books abound, but where are the volumes of misquotations?! In this era of fake news and fake quotes, *The Little Book of Misquotations* uncovers the truth behind the 200+ most famous things they never said! Just because a quote is engraved in marble, stenciled on your mom's wall, or repeated a million times online doesn't exactly mean that it is correct. It's time to set the record straight. *The Little Book of Misquotations* is the definitive collection of the quotes people frequently get wrong, including: For attractive lips, speak words of kindness. -- Audrey Hepburn (Somebody else said it!) I want to suck your blood. -- Dracula (Nope! He said, I only drink...wine.) Art should comfort the disturbed and disturb the comfortable. -- Banksy (He wasn't the first person to say it!) A penny saved is a penny earned. -- Ben Franklin (That's not what he said!) With deep dives on popular yet erroneous quotations from artists, writers, celebrities, scientists, politicians, and legendary figures from around the globe, *The Little Book of Misquotations* offers addictive reading--and a delightful reminder not to believe everything you read!

Sports Talk Colin McNairn, 2017-02-24 It's game on in uncovering the many sports-inspired terms, expressions, sayings and images that populate our everyday language! That's the challenge that this book takes on, using a playbook for each sport. It kicks off with an opening run through the game of football, then it's out of the gate with wire-to-wire coverage of horse racing. After going for the fences and covering all the bases in the sport of baseball, the ball is kept rolling, despite many a sticky wicket, through the long-running game of cricket. A blow-by-blow account of the sweet science of boxing is followed by play-by-play accounts of 35 more sports that have been added to the roster. At the finish line, the top three sports, are scored on their relative contributions to everyday language, and declared win, place and show. The discussion is enlivened by lots of sports humour and anecdotes along with quotations from sports personalities some of which may sound quite familiar, much like déjà vu all over again.

The Routledge Handbook of Metaphor and Language Elena Semino,Zsófia Demjén,2016-11-03 The Routledge Handbook of Language and Metaphor provides a comprehensive overview of state-of-the-art interdisciplinary research on metaphor and language, and maps out future directions of research and practice in a variety of contexts in this field.

The Bush Dyslexicon Mark Crispin Miller,2001 'They misunderestimated me'... He tends to blurt out all or part of what he's really thinking, even as he's trying to lie about it...George W Bush is so illiterate as to turn completely incoherent when he speaks without a script. He seems like too easy a target, but Dubya speaks for himself. Whether he's envisioning 'a foreign-handed foreign policy', explaining the American military's role - 'to fight and be able to win war, and therefore prevent war from happening in the first place' - or telling his nation that 'more and more of our imports come from overseas', George W Bush's appointment to the highest office in the world should strike fear into all our hearts. THE BUSH DYSLEXICON not only places the President in the context of other notorious dunces-in-chief, but shows him to be indisputably in a league of his own. Packed with incisive essays, famous interviews and classic comments, this book is much more than an amusing collection of Bush's gaffes - it is also a biting polemic on a culture so dependent on the emptiness of television that it has allowed a man who was unable to name the leaders of Pakistan,Chechnya or India to become US President. To quote Bush himself, 'It's not the way America is all about'.

Bootstrapped Alissa Quart,2023-03-14 An unsparing, incisive, yet ultimately hopeful look at how we can shed the American obsession with self-reliance that has made us less healthy, less secure, and less fulfilled The promise that you can “pull yourself up by your bootstraps” is central to the story of the American Dream. It’s the belief that if you work hard and rely on your own resources, you will eventually succeed. However, time and again we have seen how this foundational myth, with its emphasis on individual determination, brittle self-sufficiency, and personal accomplishment, does not help us. Instead, as income inequality rises around us, we are left with shame and self-blame for our condition. Acclaimed journalist Alissa Quart argues that at the heart of our suffering is a do-it-yourself ethos, the misplaced belief in our own independence and the conviction that we must rely on ourselves alone. Looking at a range of delusions and half solutions—from “grit” to the false Horatio Alger story to the rise of GoFundMe—Quart reveals how we have been steered away from robust social programs that would address the root causes of our problems. Meanwhile, the responsibility for survival has been shifted onto the backs of ordinary people, burdening generations with debt instead of providing the social safety net we so desperately need. Insightful, sharply argued, and characterized by Quart’s lively writing and deep reporting, and for fans of *Evicted* and *Nickel and Dimed*, *Bootstrapped* is a powerful examination of what ails us at a societal level and a plan for how we can free ourselves from these self-defeating narratives.

Rediscovering Abundance Helen J. Alford,2006 Twelve papers consider what insights the Catholic social tradition can offer to our understanding of the creation and distribution of wealth.

Show Time Roger Simon,1998 'Show Time' covers everything from the campaign finance scandals, to why Clinton insisted his debates be 90 minutes long (that meant they went past Dole's usual 10:00 pm bedtime), to the contenders for the next election. 'Show Time' is a portrait of an out-of-control political circus and a president who is the biggest spinner of them all. -- back cover.
