**Tough Rugged Bastards** John A. Dailey,2024-08-13 Following the 9/11 attacks, Secretary of Defense Donald Rumsfeld directed the Marine Corps to establish a unit that would answer to US Special Operations Command (USSOCOM). The eighty-six-man "Detachment One" was formed with a two-year charter to train and deploy as a "proof-of-concept" to assess the viability of a larger Marine Special Operations contribution in support of the Global War on Terror. For such a departure from the norm, a special leader was needed. The Commanding Officer—Colonel Robert J. Coates, a Marine Force Recon legend—was given his pick of personnel. One of the four team leaders he selected was Gunnery Sergeant John A. Dailey. Coates gave Dailey and the others free rein to select their men from a crew of proven Force Recon Marines with the sole stipulation that they be: "Tough, rugged bastards with strong backs and hard feet." These men built a unit from nothing, trained for unknown missions in an unknown location, and deployed amid controversy and skepticism. Once in Iraq, they were dubbed "Task Unit Raider" and quickly won over the naysayers who doubted the Marine's ability to operate successfully in the fluid and unconventional special operations environment. This book tells Dailey's story of the creation, training, and volatile 2004 Iraq deployment of Task Unit Raider that led to the creation of the Marine Forces Special Operations Command (MARSOC). Det-1 served as the bridge between the Raiders of WWII and the Marine Raiders of today

**Califailure** Steve Hilton,2025-03-25 Steve Hilton tackles the (literally) burning question: What will it take to save California? California is a model for the nation, Governor Gavin Newsom keeps telling us. We're following a formula for success. In Califailure, Hilton compellingly captures exactly where this far-left experiment has gone fundamentally—catastrophically—wrong. Great cities like Los Angeles, San Francisco, and Oakland collapsed into squalor as crime and homelessness were allowed to explode. The state that used to pride itself as the home of innovation and opportunity became the state with the worst rate of poverty, highest unemployment, and most hostile business climate in America—as well as the highest taxes. How did this happen, and what is needed to turn things around? Hilton identifies the nine key pathologies—from Elitism to Cronyism to Narcissism—that define the ideology at the heart of California's decline. And he lays out a comprehensive program of policy reform (CaliFuture) that will restore the Golden State to its rightful place as the very best of America. Californians are starting to wake up from the long and fitful nightmare. In 2024 far-left politicians were removed from leadership positions in San Francisco and Los Angeles. Proposition 36, which in the words of its proponents makes crime illegal again, passed overwhelmingly with majorities in every county. Califailure is what happens when Democrats get everything they want. Increasingly, it's not what Californians want. This book explains why America must reject it, too.
