Saudi Arabia and Indonesian Networks Sumanto Al Qurtuby,2019-12-26 What is the relationship between Saudi Arabia and Indonesia? For centuries, Indonesians have travelled to Saudi Arabia and have been deeply involved in education, scholarship and the creation of centres for Islamic learning in the country. Yet the impact of this type of migration has not yet been the focus of scholarly research and little is known about the important intellectual connections that now exist. This book examines Indonesian educational migrants and intellectual travellers in Saudi Arabia including students, researchers, teachers and scholars to provide a unique portrait of the religious and intellectual linkages between the two countries. Based on in-depth interviews and questionnaires, Sumanto Al Qurtuby identifies the “Indonesian legacy” in Saudi Arabia and examines in turn how the host country's influential Islamic scholars have impacted on Indonesian Muslims. The research sheds light on the dynamic history of Saudi Arabian-Indonesian relations and the intellectual impact of Indonesian migrants in Saudi Arabia.

Waqf Development and Innovation Syed Nazim Ali,Umar A. Oseni,2021-11-29 Waqf is one of the most potent socio-economic tools for reducing public sector deficit and breaking the chain of intergenerational poverty. Providing a high-level discussion on waqf development and innovation within the context of modern socio-economic and legal developments, this book examines the importance and potentials of waqf and the issues relating to its legal and regulatory framework. The research delivers future directions for countries that plan to explore this socio-economic institution. Readers and

policymakers will be able to replicate successful experiments and learn from some failed initiatives to seek alternative funding platforms to support the fiscal policies of developing countries. The volume discusses the relevance and novel application of waqf in the modern economic system and social development, it reviews applicable laws and regulations pertaining to waqf and trust laws and examines critical, cross-country case studies and experiences. Setting an agenda for further researchers in the field of waqf, this comprehensive high-level analysis, with case studies from leading jurisdictions across the world, is a key resource for researchers, policymakers and institutions interested in charitable endowments, Islamic finance, and social finance.

Islam in Southeast Asia Norshahril Saat,2018-05-30 Islam in the Malay world of Southeast Asia or Islam Nusantara, as it has come to be known, had for a long time been seen as representing the more spiritual and Sufi dimension of Islam, thereby striking a balance between the exoteric and the esoteric. This image of 'the smiling face of Islam' has been disturbed during the last decades with increasing calls for the implementation of Shari'ah, conceived of in a narrow manner, intolerant discourse against non-Muslim communities, and hate speech against minority Muslims such as the Shi'ites. There has also been what some have referred to as the Salafization of Sunni Muslims in the region. The chapters of this volume are written by scholars and activists from the region who are very perceptive of such trends in Malay world Islam and promise to improve our understanding of developments that are sometimes difficult to grapple with. — Professor Syed Farid Alatas, Department of Sociology, Faculty of Arts and Social Sciences, National University of Singapore

Cyber Worship in Multifaith Perspectives Mohamed Taher, 2006 Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an 'everything you need to know' guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.
