The Long Way to a Small, Angry Planet Becky Chambers, 2015-03-16 LONGLISTED FOR THE BAILEY'S WOMEN'S PRIZE FOR FICTION 'A quietly profound, humane tour de force' Guardian The beloved debut novel that will restore your faith in humanity #SmallAngryPlanet When Rosemary Harper joins the crew of the Wayfarer, she isn't expecting much. The ship, which has seen better days, offers her everything she could possibly want: a small, quiet spot to call home for a while, adventure in far-off corners of the galaxy, and distance from her troubled past. But Rosemary gets more than she bargained for with the Wayfarer. The crew is a mishmash of species and personalities, from Sissix, the friendly reptilian pilot, to Kizzy and Jenks, the constantly sparring engineers who keep the ship running. Life on board is chaotic, but more or less peaceful - exactly what Rosemary wants. Until the crew are offered the job of a lifetime: the chance to build a hyperspace tunnel to a distant planet. They'll earn enough money to live comfortably for years... if they survive the long trip through war-torn interstellar space without endangering any of the fragile alliances that keep the galaxy peaceful. But Rosemary isn't the only person on board with secrets to hide, and the crew will soon discover that space may be vast, but spaceships are very small indeed. The Galaxy, and the Ground Within Becky Chambers, 2021-04-20 National Bestseller! Return to the sprawling, Hugo Award-winning universe of the Galactic Commons to explore another corner of the cosmos—one often mentioned, but not yet explored—in this absorbing entry in the Wayfarers series, which blends heart-warming characters and imaginative adventure. With no water, no air, and no native life, the planet Gora is unremarkable. The only thing it has going for it is a chance proximity to more popular worlds, making it a decent stopover for ships traveling between the wormholes that keep the Galactic Commons connected. If deep space is a highway, Gora is just your average truck stop. At the Five-Hop One-Stop, long-haul spacers can stretch their legs (if they have legs, that is), and get fuel, transit permits, and assorted supplies. The Five-Hop is run by an enterprising alien and her sometimes helpful child, who work hard to provide a little piece of home to everyone passing through. When a freak technological failure halts all traffic to and from Gora, three strangers—all different species with different aims—are thrown together at the Five-Hop. Grounded, with nothing to do but wait, the trio—an exiled artist with an appointment to keep, a cargo runner at a personal crossroads, and a mysterious individual doing her best to help those on the fringes—are compelled to confront where they've been, where they might go, and what they are, or could be, to each other.

Record of a Spaceborn Few Becky Chambers, 2018-07-24 National Bestseller! Winner of the Hugo Award for Best Series! Brimming with Chambers' signature blend of heart-warming character relationships and dazzling adventure, Record of a Spaceborn few is the third standalone installment of the Wayfarers series, set in the sprawling universe of the Galactic Commons, and following a new motley crew on a journey to another corner corner of the cosmos—one often mentioned, but not yet explored. Return to the sprawling universe of the Galactic Commons, as humans, artificial intelligence, aliens, and some beings yet undiscovered explore what it means to be a community in this exciting third adventure in the acclaimed and multi-award-nominated science fiction Wayfarers series, brimming with heartwarming characters and dazzling space adventure. Hundreds of years ago, the last humans on Earth boarded the Exodus Fleet in search of a new home among the stars. After centuries spent wandering empty space, their descendants were eventually accepted by the well-established species that govern the Milky Way. But that was long ago. Today, the Exodus Fleet is a living relic, the birthplace of many, yet a place few outsiders have ever visited. While the Exodans take great pride in their original community and traditions, their culture has been influenced by others beyond their bulkheads. As many Exodans leave for alien cities or terrestrial

colonies, those who remain are left to ponder their own lives and futures: What is the purpose of a ship that has reached its destination? Why remain in space when there are habitable worlds available to live? What is the price of sustaining their carefully balanced way of life—and is it worth saving at all? A young apprentice, a lifelong spacer with young children, a planet-raised traveler, an alien academic, a caretaker for the dead, and an Archivist whose mission is to ensure no one's story is forgotten, wrestle with these profound universal questions. The answers may seem small on the galactic scale, but to these individuals, it could mean everything.

To Be Taught, If Fortunate Becky Chambers, 2019-08-08 In the future, instead of terraforming planets to sustain human life, explorers of the galaxy transform themselves. *FROM THE SUNDAY TIMES BESTSELLING AUTHOR* 'Extraordinary . . . A future masterwork' Joanne Harris At the turn of the twenty-second century, scientists make a breakthrough in human spaceflight. Through a revolutionary method known as somaforming, astronauts can survive in hostile environments off Earth using synthetic biological supplementations. They can produce antifreeze in sub-zero temperatures, absorb radiation and convert it for food, and conveniently adjust to the pull of different gravitational forces. With the fragility of the body no longer a limiting factor, human beings are at last able to explore neighbouring exoplanets long suspected to harbour life. Ariadne is one such explorer. On a mission to ecologically survey four habitable worlds fifteen light-years from Earth, she and her fellow crewmates sleep while in transit, and wake each time with different features. But as they shift through both form and time, life back on Earth has also changed. Faced with the possibility of returning to a planet that has forgotten those who have left, Ariadne begins to chronicle the wonders and dangers of her journey, in the hope that someone back home might still be

listening. PRAISE FOR THE WAYFARERS 'Becky Chambers is a wonder, and I feel better for having her books in my life' JOHN CONNOLLY 'In a word, brilliant' ANDREW CALDECOTT 'A short but fierce ode to humanity and all our reaches and flaws. Unputdownable' NATASHA NGAN 'Outstanding . . . Chambers packs an immense amount of story into a novella worthy of full-length praise' PUBLISHERS WEEKLY, Starred Review 'Becky Chambers takes space opera in a whole new and unexpected direction' BEN AARONOVITCH

Disability and the Posthuman Stuart Murray, 2020 Disability and the Posthuman analyses cultural representations and deployments of disability as they interact with posthumanist theories of embodied technologies. Working across texts from contemporary writing and film, it argues that there are exciting, productive possibilities and subversive potentials in the dialogue between disability and posthumanism when read as generating sustainable yet radical critical spaces.

The Routledge Companion to Gender and Science Fiction Lisa Yaszek, Sonja Fritzsche, Keren Omry, Wendy Gay Pearson, 2023-02-10 The Routledge Companion to Gender and Science Fiction is the first large-scale reference work of its kind, critically assessing the relations of gender and genre in science fiction (SF) especially—but not exclusively—as explored in speculative art by women and LGBTQ+ artists across the world. This global volume builds upon the traditions of interdisciplinary inquiry by connecting established topics in gender studies and science fiction studies with emergent ideas from researchers in different media. Taken together, they challenge conventional generic boundaries; provide new ways of approaching familiar texts; recover lost artists and introduce new ones; connect the revival of old, hate-based politics with the increasing visibility of imagined futures for all; and show how SF stories about new kinds of gender relations inspire new models of artistic, technoscientific, and political practice. Their chapters are grouped into five conversations—about the history of gender and genre, theoretical frameworks, subjectivities, medias and transmedialities, and transtemporalities—that are central to discussions of gender and SF in the current moment. A range of both emerging and established names in media, literature, and cultural studies engage with a huge diversity of topics including eco-criticism, animal studies, cyborg and posthumanist theory, masculinity, critical race studies, Indigenous futurisms, Black girlhood, and gaming. This is an essential resource for students and scholars studying gender, sexuality, and/or science fiction.

Record of a Spaceborn Few Becky Chambers, 2018-07-24 'Chambers is simply an exceptional talent ' Tor.com From the ground, we stand. From our ship, we live. By the stars, we hope. The incredible new novel by Becky Chambers, author of the beloved The Long Way to a Small, Angry Planet. #SpacebornFew Centuries after the last humans left Earth, the Exodus Fleet is a living relic, a place many are from but few outsiders have seen. Humanity has finally been accepted into the galactic community, but while this has opened doors for many, those who have not yet left for alien cities fear that their carefully cultivated way of life is under threat. Tessa chose to stay home when her brother Ashby left for the stars, but has to question that decision when her position in the Fleet is threatened. Kip, a reluctant young apprentice, itches for change but doesn't

know where to find it. Sawyer, a lost and lonely newcomer, is just looking for a place to belong. When a disaster rocks this already fragile community, these Exodans who still call the Fleet their home can no longer avoid the inescapable question: What is the purpose of a ship that has reached its destination? Do You Dream of Terra-Two? Temi Oh,2020-02-20 'A major new voice. Read Temi Oh today. Everybody will be reading her tomorrow' Stephen Baxter. author of *World Engines* 'A brilliant, beautiful debut. Reading it will change your heart' Christian Kiefer, author of *Phantoms* *The Long Way to a Small, Angry Planet* meets *The 100* in this unforgettable debut by a

brilliant new voice. A century ago, scientists theorised that a habitable planet existed in a nearby solar system. Today, ten astronauts will leave a dying Earth to find it. Four are decorated veterans of the 20th century's space-race. And six are teenagers, graduates of the exclusive Dalton Academy, who've been in training for this mission for most of their lives. It will take the team twenty-three years to reach Terra-Two. Twenty-three years spent in close quarters. Twenty-three years with no one to rely on but each other. Twenty-three years with no rescue possible, should something go wrong. And something always goes wrong. Don't miss one of Cosmopolitans books by people of colour to get excited about in 2019, called 'a tightly wound epic' that 'will change your heart' by Christian Kiefer, author of *Phantoms*. WHY READERS DREAM OF TERRA-TWO . . . 'An ambitious 500-page coming-of-age blockbuster . . . Oh is excellent at portraying the aching sense of loss on a one-way trip to the stars' Guardian 'A tightly wound, emotional epic that asks important questions about humanity, goodness, belief, technology, love, friendship, and duty. At what point is grabbing hold of one's destiny ultimately an attempt to escape some other? Like all great writers, Temi Oh refuses the easy answer, instead ruminating upon the question itself. This novel is a brilliant, beautiful debut. Reading it will change your heart.' Christian Kiefer, author of *Phantoms* 'One of the most absorbing books I have ever read' 'This book seemed to take over my life whilst I was reading it - if I wasn't actually reading, I was thinking about it' 'I'm in love with this book . . . It's inspirational to read' 'I would love to be able to write like Temi Oh. I should start taking notes . . . Highly recommended!'
