Self Love and the Healing of Our Animal Friends Betsy Adams, 2012-02-15 If you feel you really love animals, this book is for you. If you feel how much your animals love you, this book is for you. Our feelings profoundly affect the health of our animals as well as our own health - physically, emotionally, mentally and Spiritually. When we Heal these feelings by Feeling the Love We Already Are, tremendous, life-changing events occur. Our animals health is dramatically improved, as is our own. We are tremendously powerful creators of our own reality, and by turning to Feeling the Love We Already Are, we can help create Health for our animals, for ourselves, for Earth and this Universe we all live in together. Ultimately, surrendering to the Love We Are is the most Healing of all, and the most Healing for all. Through stories, examples, metaphysical and Spiritual messages and exercises, this book explores how to help Heal our animals and ourselves. As free will beings, we are able, with the help of God, to Heal. This is true for our animals as well as for each of us. In this time of Earth Changes and Natures Healing, the animals are Healing too. As are we all, if we so choose.

Urban Animals Tora Holmberg, 2015-03-27 The city includes opportunities as well as constraints for humans and other animals alike. Urban animals are often subjected to complaints; they transgress geographical, legal as and cultural ordering systems, while roaming the city in what is often perceived as uncontrolled ways. But they are also objects of care,

conservation practices and bio-political interventions. What then, are the more-than-human experiences of living in a city? What does it mean to consider spatial formations and urban politics from the perspective of human/animal relations? This book draws on a number of case studies to explore urban controversies around human/animal relations, in particular companion animals: free ranging dogs, homeless and feral cats, urban animal hoarding and crazy cat ladies. The book explores 'zoocities', the theoretical framework in which animal studies meet urban studies, resulting in a reframing of urban relations and space. Through the expansion of urban theories beyond the human, and the resuscitation of sociological theories through animal studies literature, the book seeks to uncover the phenomenon of 'humanimal crowding', both as threats to be policed, and as potentially subversive. In this book, a number of urban controversies and crowding technologies are analysed, finally pointing at alternative modes of trans-species urban politics through the promises of humanimal crowding - of proximity and collective agency. The exclusion of animals may be an urban ideology, aiming at social order, but close attention to the level of practice reveals a much more diverse, disordered, and perhaps disturbing experience.

How Our Love of Dogs Creates Social Conflict James K. Beggan, 2022-09-07 For the last twenty-thousand years, dogs and people have shared a unique bond in the animal kingdom. In *How Our Love of Dogs Creates Social Conflict*, James K. Beggan uses symbolic interaction to examine the meaning that dogs have for people as friends and family members. Although many animal rights advocates express dismay over the subordinate status ownership implies, the author argues that ownership creates a powerful psychological connection that makes it easier for people to imbue dogs with humanlike characteristics. Beggan outlines how dogs' sensitivity to inequity, in combination with a high degree of cognitive capacity, makes it possible for dogs to be active agents in creating conflict between people. The author's analysis of social conflict between people over their dogs connects to profound philosophical concepts about the nature of mind, the relationship between humans and animals, and the moral responsibility human beings have to dogs and other animals.

The Literary Animal Jonathan Gottschall, David Sloan Wilson, 2005-12-26 The goal of this book is to overcome some of the widespread misunderstandings about the meaning of a Darwinian approach to the human mind generally, and literature specifically.

Dogs Never Lie About Love Jeffrey Moussaieff Masson, 1998-09-08 Dogs fill our hearts with love and our minds with wonder, but their emotional lives have remained unexplored since Darwin 125 years ago. Now in *Dogs Never Lie About Love*, controversial psychoanalyst Jeffrey Masson brilliantly navigates the rich inner landscape of our best friends. As he guides readers through the surprising depth of canine emotional complexity, Jeffrey Masson draws from myth and literature, from scientific studies, and from the stories and observations of dog trainers and dog lovers around the world. But the stars of the

book are the author's own three dogs whose delightful and mysterious behavior provides the way to exploring a wide range of subjects--from emotions like gratitude, compassion, loneliness, and disappointment to speculating what dogs dream of and how their powerful sense of smell shapes their perception of reality. As he sweeps aside old prejudices on animal behavior, Masson reaches into a rich universe of dog feeling to its essential core, their master emotion: love. Like the dogs he loves, Masson's writing will capture the reader with its playful, mysterious, and serious sides. Its surprising insights provide a new dimension of understanding for dog owners everywhere.

Love Magic and Control in Premodern Iberian Literature Veronica Menaldi,2021-07-29 This book explores the complexity of Iberian identity and multicultural/multi-religious interactions in the Peninsula through the lens of spells, talismans, and imaginative fiction in medieval and early modern Iberia. Focusing particularly on love magic—which manipulates objects, celestial spheres, and demonic conjurings to facilitate sexual encounters—Menaldi examines how practitioners and victims of such magic as represented in major works produced in Castile. Magic, and love magic in particular, is an exchange of knowledge, a claim to power and a deviation from or subversion of the licit practices permitted by authoritative decrees. As such, magic serves as a metaphorical tool for understanding the complex relationships of the Christian with the non-Christian. In seeking to understand and incorporate hidden secrets that presumably reveal how one can manipulate their environment, occult knowledge became one of the funnels through which cultures and practices mixed and adapted throughout the centuries.

Animal Lessons Kelly Oliver,2009 Philosophy reads humanity against animality, arguing that man is man because he is separate from beast. Deftly challenging this position, Kelly Oliver proves that, in fact, it is the animal that teaches us to be human. Through their sex, their habits, and our perception of their purpose, animals show us how not to be them. This

kinship plays out in a number of ways. We sacrifice animals to establish human kinship, but without the animal, the bonds of brotherhood fall apart. Either kinship with animals is possible or kinship with humans is impossible. Philosophy holds that humans and animals are distinct, but in defending this position, the discipline depends on a discourse that relies on the animal for its very definition of the human. Through these and other examples, Oliver does more than just establish an animal ethics. She transforms ethics by showing how its very origin is dependent upon the animal. Examining for the first time the treatment of the animal in the work of Heidegger, Merleau-Ponty, Derrida, Agamben, Freud, Lacan, and Kristeva, among others, *Animal Lessons* argues that the animal bites back, thereby reopening the question of the animal for philosophy.
