What Your Body Knows About Happiness Janice Kaplan,2025-01-07 Happiness isn't just a state of mind. It's also a state of body. Standing straight can give you a shot of confidence and forcing a smile might improve your mood. But do you know why? We generally believe that the brain is the big computer telling our bodies how to respond, but new research shows that the system often works in reverse. Your body reacts first, and your brain then interprets the physical signals. As you walk by a dark alley, your heart starts pounding and only then does your brain get the message: I'm scared! The body can also send messages about positive emotions, allowing you to experience more happiness, love, and joy. Based on groundbreaking research and expert opinions, What Your Body Knows About Happiness will teach you: How to use your body to spark your creativity How to find joy through your senses How changing your environment can improve your mood The unexpected powers of diet, exercise, and sex The ways your brain can resolve bodily pain How to create optimism through your body In What Your Body Knows About Happiness, Janice Kaplan, the New York Times bestselling author of The Gratitude Diaries, explores the startling new evidence showing that our feeling bodies are often smarter than our thinking minds. Talking to experts in a wide range of fields, she brings her distinctive brand of conversation, humor, and storytelling to scientific research, drawing unexpected links that reveal the power of body-mind connections. You'll also get tips and strategies for knowing your body in a whole new way—leading to greater happiness and pleasure every day.

**Death and the Migrant** Yasmin Gunaratnam, 2013-11-21 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). *Death and the Migrant* is a sociological account of transnational dying and care in British cities. It chronicles two decades of the ageing and dying of the UK's cohort of post-war migrants, as well as more recent arrivals. Chapters of oral history and close ethnographic observation, enriched by photographs, take the reader into the submerged worlds of end-of-life care in hospices, hospitals and homes. While honouring singular lives and storytelling, *Death and the Migrant* explores the social, economic and cultural landscapes that surround the migrant deathbed in the twenty-first century. Here, everyday challenges - the struggle to belong, relieve pain, love well, and maintain dignity and faith - provide a fresh perspective on concerns and debates about the vulnerability of the body, transnationalism, care and hospitality. Blending narrative accounts from dying people and care professionals with insights from philosophy and feminist and critical race scholars, Yasmin Gunaratnam shows how the care of vulnerable strangers tests the substance of a community. From a radical new interpretation of the history of the contemporary hospice movement and its 'total pain' approach, to the charting of the global care chain and the affective and sensual demands of intercultural care, Gunaratnam offers a unique perspective on how migration endows and replenishes national cultures and care. Far from being a marginal concern, *Death and the Migrant* shows that transnational dying is very much a predicament of our time, raising questions and concerns that are relevant to all of us.
