

Rachel Maddow Book Drift

Thomas Buchanan Read

Drift Rachel Maddow, 2012-03-27 The #1 New York Times bestseller that charts America's dangerous drift into a state of perpetual war. Written with bracing wit and intelligence, Rachel Maddow's *Drift* argues that we've drifted away from America's original ideals and become a nation weirdly at peace with perpetual war. To understand how we've arrived at such a dangerous place, Maddow takes us from the Vietnam War to today's war in Afghanistan, along the way exploring Reagan's radical presidency, the disturbing rise of executive authority, the gradual outsourcing of our war-making capabilities to private companies, the plummeting percentage of American families whose children fight our constant wars for us, and even the changing fortunes of G.I. Joe. Ultimately, she shows us just how much we stand to lose by allowing the scope of American military power to overpower our political discourse. Sensible yet provocative, dead serious yet seriously funny, *Drift* reinvigorates a loud and jangly political debate about our vast and confounding national security state.

Summary: *Drift* Businessnews Publishing, 2017-01-30

Summary of Lisa Rogak's Rachel Maddow Everest Media, 2022-03-26T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Rachel Anne Maddow was born on April Fools' Day 1973. She was a pretty lively kid, and she never talked baby talk. She was born grown-up, and she never cared about anything or anyone except causes and people that were overlooked. #2 When she was young, Rachel watched her fair share of Saturday morning cartoons, but what really caught her eye were the educational segments known as Schoolhouse Rock!, a series of three-minute animated shorts that aired on ABC. #3 When she moved to California, Rachel was shocked to find that her liberal values were in stark contrast with the conservative values of the majority of the population. She was a jock, and she knew she was destined for more than a one-dimensional life. #4 When she was sixteen, Rachel finally admitted to herself that she was a lesbian. She knew it would be difficult for her parents to accept her, but she was relieved. She wanted to leave Castro Valley.

Roger Ailes Zev Chafets, 2013-03-19 A national bestseller offering an inside look at the founder and former head of Fox News Roger Ailes is the quintessential man behind the curtain. He more or less invented modern political consulting and helped Richard Nixon, Ronald Reagan, and George H. W. Bush win their races for the White House. Then he reinvented himself as a master of cable television, first as the head of CNBC and, since 1996, as the creator and leader of Fox News, the

most influential news network in the country. To liberals, Ailes is an evil genius who helped polarize the country by breaking the mainstream media's long monopoly on what constitutes news. To conservatives, he's a champion of free speech and fair reporting whose values and view of America reflect their own. But no one doubts that Ailes has transformed journalism. Barack Obama once called him "the most powerful man in America"—and given that Fox News has changed the way millions understand the world, it may be true. Yet for all that fame and infamy, very few people know the real person behind the headlines. Journalist Zev Chafets received unprecedented access to Ailes and his family, friends, and Fox News colleagues. The result is a candid, compelling portrait of a fascinating man. We see Ailes in action at Fox News and hear him reflect on personal matters he has never before discussed publicly. And we discover the heart of his sometimes surprising political beliefs: his profane piety and his unwavering belief in the values of his small-town Ohio boyhood. Ailes loves to fight, but he is a happy warrior who has somehow managed to charm and befriend many of the people he has defeated in political campaigns and television wars. Barbara Walters, Rachel Maddow, Jesse Jackson, the Kennedy clan— all are unexpected Ailes fans. Chafets also gives us an unprecedented look at the inner workings of Fox News and explores Ailes's relationships with Bill O'Reilly, Sean Hannity, Megyn Kelly, Neil Cavuto, Chris Wallace, and the other stars he has nurtured. Ultimately, Ailes is neither villain nor hero but a man full of contradictions and surprises. As Chafets writes, "What will he do next? What stokes his competitive fires and occasional rages? How to reconcile his acts of exceptional loyalty and private generosity (even to rivals) with his impulse to present himself to the world as a ruthless leg breaker? What makes Roger run—and where, if anywhere, is the finish line? As Ailes himself might say: I report, you decide."

Women in the American Political System Dianne G. Bystrom, Barbara Burrell, 2018-12-01 This book examines how women candidates, voters, and office holders shape U.S. political processes and institutions, lending their perspectives to gradually evolve American life and values. This book provides an encyclopedic sourcebook on the evolution of women's involvement in American politics from the colonial era to the present, covering all of the individuals, organizations, cultural forces, political issues, and legal decisions that have collectively served to elevate the role of women at the ballot box, on the campaign trail, in Washington, and in state- and city-level political offices across the country. The in-depth essays document and examine the rising prominence of women as voters, candidates, public officials, and lawmakers, enabling readers to understand how U.S. political processes and institutions have been—and will continue to be—shaped by women and their perspectives on American life and values. The entries cover a range of women politicians and officials; female activists and media figures; relevant organizations and interest groups, such as Emily's List, League of Women Voters, and National Right to Life; key laws, court cases, and events, such as the Nineteenth Amendment, the Equal Rights Amendment, the Seneca Falls Convention, the passage of Title IX, and Roe v. Wade; and other topics, like media coverage of appearance, women's roles as campaign strategists/fundraisers, gender differences in policy priorities, and the gender gap in political ambitions. The text is

supplemented by sidebars that highlight selected landmarks in women's political history in the United States, such as the 2012 election of Tammy Baldwin, the first openly gay U.S. senator.

Popular Culture: Global Intercultural Perspectives Ann Brooks, 2014-07-15 Through popular culture, we can define, explore and experiment with our identities. This vibrant text provides an understanding of popular culture in a globalized world through the intersection of sociology and cultural studies, combining cultural theory with a wide range of examples from everyday life, including fashion, social networking and music, drawn from the United States, the UK and the Asia-Pacific.

Professional Journal of the United States Army, 2012

Military Review, 2012

Drift Rachel Maddow, 2013-03-05 The #1 New York Times bestseller that charts America's dangerous drift into a state of perpetual war. Maddow argues that the U.S. has drifted away from America's original ideals and become a nation weirdly at peace with war and all the costs it entails.

Parameters, 2013

Brzezinski and Maddow on American Power Christopher King, 2013-10-07 Literature Review from the year 2012 in the subject Politics - Region: USA, grade: 1,0, Indiana University (Department of Political Science), course: United States Foreign Policy, language: English, abstract: The future of America's position in the world is a hotly debated topic and this paper will review two books on American power and military capability. Zbigniew Brzezinski observes in "Strategic Vision" that a shift in world power occurs and so has to change the strategy of the USA. He assesses different liabilities and assets that need to be considered in dealing with these changes. Rachel Maddow however has a different emphasis in "Drift" and is concerned about the development of perpetual American war and the responsible but unchecked executive branch. In the following will be argued that while other nations may rise, the USA can still sustain its position of power, if it considers the research of Brzezinski and Maddow to be of relevance. Reforms at home and readiness to transition into a world shared with nations that rise or come back to their old greatness will be needed to use America's power and resources in the future more wisely. America will continue to be a world power if it avoids mistakes it makes right now at home and embraces the new realities of the world.

Proceedings of the United States Naval Institute United States Naval Institute, 2013

Blowout Rachel Maddow, 2019-10-01 #1 NEW YORK TIMES BESTSELLER • Big Oil and Gas Versus Democracy—Winner Take All "A rollickingly well-written book, filled with fascinating, exciting, and alarming stories about the impact of the oil and gas industry on the world today."—The New York Times Book Review In 2010, the words "earthquake swarm" entered the lexicon in Oklahoma. That same year, a trove of Michael Jackson memorabilia—including his iconic crystal-encrusted

white glove—was sold at auction for over \$1 million to a guy who was, officially, just the lowly forestry minister of the tiny nation of Equatorial Guinea. And in 2014, revolutionaries in Ukraine raided the palace of their ousted president and found a zoo of peacocks, gilded toilets, and a floating restaurant modeled after a Spanish galleon. Unlikely as it might seem, there is a thread connecting these events, and Rachel Maddow follows it to its crooked source: the unimaginably lucrative and equally corrupting oil and gas industry. With her trademark black humor, Maddow takes us on a switchback journey around the globe, revealing the greed and incompetence of Big Oil and Gas along the way, and drawing a surprising conclusion about why the Russian government hacked the 2016 U.S. election. She deftly shows how Russia's rich reserves of crude have, paradoxically, stunted its growth, forcing Vladimir Putin to maintain his power by spreading Russia's rot into its rivals, its neighbors, the West's most important alliances, and the United States. Chevron, BP, and a host of other industry players get their star turn, most notably ExxonMobil and the deceptively well-behaved Rex Tillerson. The oil and gas industry has weakened democracies in developed and developing countries, fouled oceans and rivers, and propped up authoritarian thieves and killers. But being outraged at it is, according to Maddow, "like being indignant when a lion takes down and eats a gazelle. You can't really blame the lion. It's in her nature." *Blowout* is a call to contain the lion: to stop subsidizing the wealthiest businesses on earth, to fight for transparency, and to check the influence of the world's most destructive industry and its enablers. The stakes have never been higher. As Maddow writes, "Democracy either wins this one or disappears."

Naval War College Review, 2015

Talking Book Topics, 2014-05

Prequel Rachel Maddow, 2023-11-14 #1 NEW YORK TIMES BESTSELLER • Rachel Maddow traces the fight to preserve American democracy back to World War II, when a handful of committed public servants and brave private citizens thwarted far-right plotters trying to steer our nation toward an alliance with the Nazis. "A ripping read—well rendered, fast-paced and delivered with the same punch and assurance that she brings to a broadcast. . . . The parallels to the present day are strong, even startling."—The New York Times (Editors' Choice) Inspired by her research for the hit podcast *Ultra*, Rachel Maddow charts the rise of a wild American strain of authoritarianism that has been alive on the far-right edge of our politics for the better part of a century. Before and even after our troops had begun fighting abroad in World War II, a clandestine network flooded the country with disinformation aimed at sapping the strength of the U.S. war effort and persuading Americans that our natural alliance was with the Axis, not against it. It was a sophisticated and shockingly well-funded campaign to undermine democratic institutions, promote antisemitism, and destroy citizens' confidence in their elected leaders, with the ultimate goal of overthrowing the U.S. government and installing authoritarian rule. That effort worked—tongue and groove—alongside an ultra-right paramilitary movement that stockpiled bombs and weapons and trained for mass murder and violent insurrection. At the same time, a handful of extraordinary activists and journalists were tracking the scheme,

exposing it even as it was unfolding. In 1941 the U.S. Department of Justice finally made a frontal attack, identifying the key plotters, finding their backers, and prosecuting dozens in federal court. None of it went as planned. While the scheme has been remembered in history—if at all—as the work of fringe players, in reality it involved a large number of some of the country's most influential elected officials. Their interference in law enforcement efforts against the plot is a dark story of the rule of law bending and then breaking under the weight of political intimidation. That failure of the legal system had consequences. The tentacles of that unslain beast have reached forward into our history for decades. But the heroic efforts of the activists, journalists, prosecutors, and regular citizens who sought to expose the insurrectionists also make for a deeply resonant, deeply relevant tale in our own disquieting times.

Drift Rachel Diener, 2013-07 Cassie Greenen, a sarcastic speaking, lazy working pothead who has an unexpected death in the family when her father passes away. Wanting to get away from the town, her and her mother head over to Crescent Falls, a little town where a mansion was left for them in a long-lost family member's will. New experiences and friends are followed through, along with a mysterious man who won't stop popping up in her dreams.
