Secrets of Methamphetamine Manufacture Fester (Uncle.), 1996 A revised and expanded edition of one of our best-selling cookbooks. So much has changed since the Third Edition, that this is almost an entirely new book, say Uncle Fester. The result of a decade of practical experience, this is a step-by-step how-to-do-it book on the manufacture of methamphetamine and psychedelic amphetamines. This book is not meant to encourage anyone to break the law, but it does point out the ultimate futility of government prohibitions of controlled substances by showing just how easily these substances can be manufactured. Covers methamphetamine, methcathinone (cat), and much more.

Secrets of Methamphetamine Manufacture Fester (Uncle.), Fester, 2002 This title is out of print as of 03/02/2005. A new revised and updated edition: Secrets of Methamphetamine Manufacture, 7th Edition, will be available as of 03/08/2005.

Secrets of Methamphetamine Manufacture 8th Edition Uncle Fester, 2009-03-01 The best book ever written in the field of clandestine chemistry has just gotten better in a new 8th edition. I have trained the champions of the field of clandestine chemistry for over 20 years, and this book gives the new techniques required for this constantly evolving field. I have uncovered a very easily done and supplied method for cooking your own ephedrine and pseudoephedrine from health food store and hardware store materials. This completely eliminates the need to show ID and buy adulterated and expensive pills containing these materials. I have also reconfigured older recipes to make use of the weaker or polluted materials now commonly found on hardware store shelves. This 8th edition shows the futility of politically motivated attempts by pandering

politicians to regulate the private lives of individuals.

The Devil's Drug Teun Voeten, 2025-02-18 With a combination of thorough investigative journalism, daring fieldwork, and colorful atmospheric sketches, Teun Voeten draws a very detailed and disturbing picture of a drug that is on a rapid international rise. Methamphetamine, commonly referred to as crystal meth, is one of the most addictive drugs in the world. Heavy users can destroy themselves in just a few months. Originally given by the Nazis to their troops to fight the blitzkrieg, it has now conquered the whole world and is used at sex parties in Amsterdam and Antwerp, by former hippies in Prague, by the underclass in the slums of Harare, Cape Town, and Peshawar, by truck drivers in Thailand, and by workers in the sweatshops in Bangladesh. Researcher Teun Voeten traveled the globe for two years to investigate all sides of this diabolic drug, exploring the bizarre history and pharmacological effects. He talked to homeless addicts in Tijuana and Los Angeles, cartels in Mexico, international drug experts in Bangkok and Kabul, and more. Voeten also interviewed numerous authorities, judges, and social workers who are trying to stop the meth epidemic.

No Speed Limit Frank Owen, 2013-09-24 Hells Angels and fallen televangelist Ted Haggard. Cross-country truckers and suburban mothers. Trailer parks, gay sex clubs, college campuses, and military battlefields. In this fascinating book, Frank Owen traces the spread of methamphetamine—meth—from its origins as a cold and asthma remedy to the stimulant wiring every corner of American culture. Meth is the latest epidemic to attract the attention of law enforcement and the media, but like cocaine and heroin its roots are medicinal. It was first synthesized in the late nineteenth century and applied in treatment of a wide range of ailments; by the 1940s meth had become a wonder drug, used to treat depression, hyperactivity, obesity, epilepsy, and addictions to other drugs and alcohol. Allied, Nazi, and Japanese soldiers used it throughout World War II, and the returning waves of veterans drove demand for meth into the burgeoning postwar suburbs, where it became the mother's helper for a bored and lonely generation. But meth truly exploded in the 1960s and '70s, when biker gang cooks using burners, beakers, and plastic tubes brought their expertise from California to the Ozarks, the Southwest, and other remote rural areas where the drug could be manufactured in kitchen labs. Since then, meth has been the target of billions of dollars in federal, state, and local anti-drug wars. Murders, violent assaults, thefts, fires, premature births, and AIDS—rises in all of these have been blamed on the drug that crosses classes and subcultures like no other. Acclaimed journalist Frank Owen follows the users, cooks, dealers, and law enforcers to uncover a dramatic story being played out in cities, small towns, and farm communities across America. No Speed Limit is a panoramic, high-octane investigation by a journalist who knows firsthand the powerful highs and frightening lows of meth.

Gangland Jared Savage, 2020-12-01 New Zealand's underworld of organised crime and deadly gangs 'The best true-crime book of the year by a long stretch.' - Steve Braunias, Newsroom 'A series of rip-snorting yarns about gangs, drugs, fancy cars, wads of cash, violence, and guns - Aotearoa New Zealand style.' - Simon Bridges New Zealand is now one of the most lucrative illicit drug markets in the world. Organised crime is about making money. It's a business. But over the past 20 years, the dealers have graduated from motorcycle gangs to Asian crime syndicates and now the most dangerous drug lords in the world - the Mexican cartels. In *Gangland*, award-winning investigative reporter Jared Savage shines a light into New Zealand's rising underworld of organised crime and violent gangs. The brutal execution of a husband-and-wife; the undercover cop who infiltrated a casino VIP lounge; the midnight fishing trip which led to the country's biggest cocaine bust; the gangster who shot his best friend in a motorcycle shop: these stories go behind the headlines and open the door to an invisible world - a world where millions of dollars are made, life is cheap, and allegiances change like the flick of a switch.

Psychedelics Reimagined Thomas Lyttle, 1999 Cultural Writing. Introduced by Timothy Leary, this collection of essays, photographs and research seeks to establish the scientific legitimacy of psychedelic studies. Important, very informative, and an additional valuable contribution to the psychedelic movement --Dr. Albert Hoffman, inventor of LSD-25. As Hakim Bey writes in the Foreword: The 'doors of perception' --that's the first step. The second step is opening the doors of perception. Then --going through. Next --learning that there are no doors of perception. Then --going back outside and alerting everyone else to the wonders beyond the doors.

Jeff Herman's Guide to Book Publishers, Editors & Literary Agents Jeff Herman, 2003 A guide to the names and specialties of American and Canadian publishers, editors, and literary agents includes information on the acquisition process and on choosing literary agents.

How to Legalize Drugs Jefferson M. Fish, 1998-05 No wonder the war on drugs is being lost: the warriors' arrows are all pointed in the wrong directions. The black-market-driven effects of prohibition, which include crime and its spiraling

scourges as well as death and disease, are overall counterproductive. Ironically, the severe penalties intended to halt serious abuse intimidate the occasional user but not the real target, whose desperate search for consolation in drugs is more result than cause of the misery of marginalization. The rationale for reform, most commonly rooted in a cost/benefit comparison (public harm versus public health) or in the libertarian argument, comprises the first part of this persuasive plea for a paradigm shift and paves the way for the second, on approaches to legalizing drugs.
