**Lester L. Grabbe**

American Angels Peter Gardella, 2007 Explores the rich history of angels in America from Spanish colonialism and Puritan culture to modern incarnations found on TV, in movies, in comic books, and on bumper stickers. Finds that Americans have constructed the useful angel as a servant of man rather than an agent of God.

**The Book of Magic** Brian Copenhaver, 2015-11-05 ' . . . as when iron is drawn to a magnet, camphor is sucked into hot air, crystal lights up in the Sun, sulfur and a volatile liquid are kindled by flame, an empty eggshell filled with dew is raised towards the Sun . . . ' An odd feature of the Bible is that it is full of stories featuring forms of magic and possession - from Joseph battling with Pharaoh's wizards to the supernatural actions of Jesus and his disciples. As, over the following centuries, the Christian church attempted to stamp out 'deviant' practices, there was a persistent interest in magic that drew strength from this Biblical validation. A strange blend of mumbo-jumbo, fraud and deeply serious study, magic was central to the European Renaissance, fascinating many of its greatest figures. Brian Copenhaver's wonderful anthology will be welcomed by everyone from those with the most casual interest in the magical tradition to anyone drawn to the Renaissance and the tangled, arcane roots of the scientific tradition.

Byzantium and Islam Metropolitan Museum of Art (New York, N.Y.), 2012 This magnificent volume explores the epochal transformations and unexpected continuities in the Byzantine Empire from the 7th to the 9th century. At the beginning of the 7th century, the Empire's southern provinces, the vibrant, diverse areas of North Africa and the eastern Mediterranean, were at the crossroads of exchanges reaching from Spain to China. These regions experienced historic upheavals when their Christian and Jewish communities encountered the emerging Islamic world, and by the 9th century, an unprecedented cross-fertilization of cultures had taken place. This extraordinary age is brought vividly to life in insightful contributions by leading international scholars, accompanied by sumptuous illustrations of the period's most notable arts and artifacts. Resplendent images of authority, religion, and trade—embodied in precious metals, brilliant textiles, fine ivories, elaborate mosaics, manuscripts, and icons, many of them never before published—highlight the dynamic dialogue between the rich array of Byzantine styles and the newly forming Islamic aesthetic. With its masterful exploration of two centuries that would shape the emerging medieval world, this illuminating publication provides a unique interpretation of a period that still resonates today.

**A Gift of Angels** ,2010-09-20 It rises suddenly out of the Sonoran Desert landscape, towering over the tallest tree or cactus, a commanding building with a sensuous dome, elliptical vaults, and sturdy bell towers. There is nothing else like it around, nor does it seem there should be. This incongruity of setting is what strikes first-time visitors to Mission San Xavier del Bac. This great church is of another place and another time, while its beauty is universal and timeless. Mission San Xavier del Bac is a two-century-old Spanish church in southern Arizona located just a few miles from downtown Tucson, a metropolis of more than half a million people in the American Southwest. A National Historic Landmark since 1963, the mission's graceful baroque art and architecture have drawn visitors from all over the world. Now Bernard Fontana—the leading expert on San Xavier—and award-winning photographer Edward McCain team up to bring us a comprehensive view of the mission as we've never seen it before. With 200 stunning full-color photographs and incisive text illuminating the religious, historical, and motivational context of these images, *A Gift of Angels* is a must-have for tourists, scholars, and other visitors to San Xavier. From its glorious architecture all the way down to the finest details of its art, Mission San Xavier del Bac is indeed a gift of angels.

Eerdmans Commentary on the Bible: Ezekiel John Goldingay,2019-06-18 This extract from the Eerdmans Commentary on the Bible provides Goldingay's introduction to and concise commentary on Ezekiel. The Eerdmans Commentary on the Bible presents, in nontechnical language, the best of modern scholarship on each book of the Bible, including the Apocrypha. Reader-friendly commentary complements succinct summaries of each section of the text and will be valuable to scholars, students, and general readers. Rather than attempt a verse-by-verse analysis, these volumes work from larger sense units, highlighting the place of each passage within the overarching biblical story. Commentators focus on the genre of each text—parable, prophetic oracle, legal code, and so on—interpreting within the historical and literary context. The volumes also address major issues within each biblical book—including the range of possible interpretations—and refer readers to the best resources for further discussions.

**An Introduction to the New Testament for Catholics** Joseph F. Kelly,2016-03-24 The title of this book may be a bit puzzling 'a Catholic introduction to the New Testament? The New Testament belongs to all Christians, and the modern study of the New Testament has benefited from the contributions by scholars of all Christian denominations. But there are questions and issues in the New Testament that are specific to Catholics, such as the portrayal of Jesus' mother Mary, the commissioning of Peter, and the Trinity. In this volume, Joseph Kelly provides an introduction to the New Testament for students and deals with the concerns of modern Catholics reading the Bible. It's a book that Catholic teachers can use rather than a book that presents them with problems they have to explain. Kelly helps readers to understand what modern scholars, especially Catholic biblical exegetes, say about the individual books because we cannot understand what role Jesus can play

in modern life if we don't understand what he meant to the earliest Christians. The New Testament tells the story of Jesus, the most remarkable person who ever lived, and of his disciples. It includes some of the most famous narratives in the world and the most memorable words ever spoken. It introduces us to great people who moved history and of those who took the difficult step of leaving the religions of their ancestors and families to become Christians. Kelly shows that in looking at the New Testament we see real people communicating with us 'sharing their beliefs, their fears, and their hopes. Distant yet familiar, challenging yet comprehensible, the New Testament is a precious heritage, and one that Kelly recommends we must make our own. Joseph F. Kelly, PhD, is professor of religious studies at John Carroll University in Cleveland, Ohio. He is the author of *The World of the Early Christians*, *The Problem of Evil in the Western Tradition*, *Responding to Evil*, *The Origins of Christmas* and *The Collegeville Church History Time-Line* published by Liturgical Press.
