**Computer Simulations of Space Societies** William Sims Bainbridge, 2018-06-09 At the intersection of astronautics, computer science, and social science, this book introduces the challenges and insights associated with computer simulation of human society in outer space, and of the dynamics of terrestrial enthusiasm for space exploration. Never before have so many dynamic representations of space-related social systems existed, some deeply analyzing the logical implications of social-scientific theories, and others open for experience by the general public as computer-generated virtual worlds. Fascinating software ranges from multi-agent artificial intelligence models of civilization, to space-oriented massively multiplayer online games, to educational programs suitable for schools or even for the world's space exploration agencies. *Star Trek: Signature Edition: Pantheon* Michael Jan Friedman,2003-09-01 The Star Trek: Signature Edition series continues with this thrilling adventure featuring Commander Spock, Captain Kirk, and the U.S.S. Enterprise. From Earth to the edge of our galaxy and beyond, from the early days of warp flight to the latter half of the twenty-fourth century, humankind and its alien partners in the Federation have looked to their heroes to expand the limits of their knowledge. And as each generation's pantheon of heroes has passed on into legend, a new generation has risen to take its place. So it was with the crew of the S.S. Valiant, the first Earth vessel to cross the galactic barrier. So it was with the crew of the Starship Stargazer and her fledgling commander, Captain Jean-Luc Picard. And so it was with the U.S.S. Enterprise NCC-1701-D, the flagship of Starfleet, which Picard commanded with wisdom and temperate maturity. Over the years, Fate has woven the voyages of these three vessels into a vivid skein of treachery and sacrifice, hardship and determination, tragedy and courage—each step of the way demonstrating the immeasurable worth of the flawed but farseeing heroes who commanded them.

Star Trek: Voyager: String Theory #2: Fusion Kirsten Beyer,2005-11-01 As the Cosmos Unravels The disruption in the

space-time continuum caused by the creation of the Blue Eye singularity continues: Thread by thread, the fabric slowly frays and peels away, breaking down barriers between dimensions. As the lines between realities blur, the consequences cascade. A Sleeping City Awakes Voyager pursues Tuvok to a long-dormant space station, a place of astonishing grandeur and wonder. Ancient almost beyond imagining, the city seduces the crew with the promise that their greatest aspirations might be realized. Such promise requires sacrifice, however, and the price of fulfilling them will be high for Voyager. A Mysterious Power Stirs Unseen sentries, alarmed by Voyager's meddling in the Monoharan system, send emissaries to ascertain Janeway's intentions. Unbeknownst to the captain, she is being tested and must persuade her evaluators that their contention -- that Voyager poses a threat to the delicate web of cosmic ecology -- is baseless. And failure to vindicate her choices will bring certain retribution to her crew.
