**The Teachings of Ptahhotep** Ptahhotep, 2016-02-08 2016 Reprint of 1909 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Originally published as *The Instruction of Ptah-Hotep* and also as *The Maxims of Ptahhotep*, the work is believed by some scholars to be the oldest book in the world. Authorship is attributed to Ptahhotep, a vizier under King Isesi of the Egyptian Fifth Dynasty (ca. 2414-2375 BC). It is a collection of maxims and advice in the sebayt (teaching) genre on human relations and are provided as instruction for his son. The work survives today in papyrus copies, including the Prisse Papyrus which dates from the Middle Kingdom and is on display at the Bibliotheque Nationale in Paris. There are considerable differences between the Prisse Papyrus version and the two texts at the British Museum. The 1906 translation by Battiscombe Gunn, published as part of the *Wisdom of the East* series and which is reprinted here, was made directly from the Prisse Papyrus, in Paris, rather than from copies. Some lessons include: Learning by listening to everybody and knowing that human knowledge is never perfect are a leitmotif. Avoiding open conflict wherever possible should not be considered weakness. Justice should be pursued and in the end it will be a god's command that prevails. Greed is the base of all evil and should be guarded against, while generosity towards family and friends is praiseworthy.

*The Teachings of Ptahhotep* Battiscombe George Gunn Ptahhotep, 2025-01-16 *The Teachings of Ptahhotep: The Oldest Book in the World* is an ancient Egyptian text attributed to Ptahhotep, a vizier during the Fifth Dynasty (circa 2400 BCE). This work, preserved on papyrus, is considered one of the earliest examples of wisdom literature and offers timeless advice on ethical conduct, leadership, and personal development. The English translation by Battiscombe George Gunn brings these teachings to a modern audience.

**Unbleaching the Curriculum** Greg Wiggan,Annette Teasdell,Marcia J. Watson-Vandiver,Sheikia Talley-Matthews,2023-05-15 Unbleaching the Curriculum: Enhancing Diversity, Equity, Inclusion and Beyond in Schools and Society is an innovative work that applies a new perspective to curriculum design in U.S. public schools. Introducing the framework of unbleaching, the book explores curricular omissions and falsifications for the purpose of advancing diversity, equity, and inclusion (DEI) in school processes and practices. Its content is groundbreaking as it introduces readers to often omitted contributions such as *The Teachings of PtahHotep*, the oldest book in the world, and *The Ahmes Papyrus*, the oldest mathematical document in the world, among others. The Nation's Report Card government report indicates that U.S. schools are experiencing modest performance (NAEP, 2022). Thus, unbleaching framework has the potential to improve student performance through curriculum development that is informed by multicultural practices. The eight key tenets and processes of unbleaching provide the context for how the curriculum might address notable omissions and suppressed historical contributions and promote greater DEI in U.S. public schools.

**African Ethics** Jonathan O. Chimakonam,Luis Cordeiro-Rodrigues,2022-08-25 This is the first comprehensive exploration of African ethics covering everything from normative ethics and applied ethics, to meta-ethics and methodology, as well as the history of its evolution. African Ethics provides an in-depth exploration of Ubuntu ethics which is defined as a set of values based on concepts such as reciprocity, mutual respect, and working towards the common good. Ubuntu ethics also strongly emphasize the place of human dignity. The book engages with both theory and practice and how these ethical ideas impact upon the actual lived experience of Africans. It also includes important political considerations such as the impact of imperialism, colonialism, and capitalism on African ethics as well as the negative impact of apartheid and the renaissance made possible by the 'The Truth and Reconciliation Commission' whose work was premised heavily on African ethical ideas. This book is not just a wide-ranging and incisive introduction but also a reformulation of key concepts and current debates in African ethics. Crucially, African Ethics is an inclusive text, one that speaks from an African perspective and contributes to the decolonizing of contemporary ethics.

**In Search of a Canon** Greg Wiggan, 2015-02-03 Harnessing Paulo Freire's critical analysis of education and society, *In Search of a Canon* explores Africa and Asia, and their relationship to Europe, and Europe's connection to the rest of the western world. As such, this book is situated in the tradition of critical scholars as it explores the relationship between historical processes and the development of a canon, or literature that is considered as sacred or accepted. In doing so, it intricately explores the intersection of history, religion (sacred text), race relations and education. The book uncovers the origins of the human family tree and the historical context related to the emergence of sacred literature and institutionalized systems of thought and educational processes. It presents critical dates, timelines and perspectives that are aimed at raising awareness in order to make schools and society more humane and democratic. Greg Wiggan is Associate Professor of Urban Education, Adjunct Associate Professor of Sociology, and Affiliate Faculty Member of Africana Studies at the University of North Carolina at Charlotte. His research addresses urban education and urban sociology in the context of school processes that promote high achievement among African American students and other underserved minority student populations. In doing so, his research also examines the broader connections between the history of urbanization, globalization processes and the internationalization of education in urban schools. His books include: *Global Issues in Education: Pedagogy, Policy, Practice, and the Minority Experience*; *Education in a Strange Land: Globalization, Urbanization, and Urban Schools - The Social and Educational Implications of the Geopolitical Economy*; *Curriculum Violence: America's New Civil Rights Issue*; *Education for the New Frontier: Race, Education and Triumph in Jim Crow America 1867-1945*; *Following the Northern Star: Caribbean Identities and Education in North American Schools*; and *Unshackled: Education for Freedom, Student Achievement and Personal Emancipation*.

**The Soul of Civility** Alexandra Hudson, 2023-10-10 Alexandra Hudson, daughter of the Manners Lady, was raised to respect others. But as she grew up, Hudson discovered a difference between politeness—a superficial appearance of good manners—and true civility. In this timely book, Hudson sheds light on how civility can help bridge our political divide. From classical philosophers like Epictetus, to great twentieth-century thinkers like Martin Luther King Jr., to her own experience working in the federal government during one of the most politically fraught eras in our nation's history, Hudson examines how civility—a respect for the personhood and dignity of others—transcends political disagreements. Respecting someone means valuing them enough to tell them when you think they are wrong. It's easy to look at the divided state of the world and blame our leaders, the media, or our education system. Instead, we should focus on what we can control: ourselves. *The Soul of Civility* empowers readers to live tolerantly with others despite deep differences, and to rigorously protest wrongs and debate issues rather than silencing disagreements. A robust public discourse is essential to a truly civil society, and

respecting others means telling hard truths. If enough of us decide to change ourselves, we might be able to change the world we live in, too. Provocative, personal, and acutely relevant, *The Soul of Civility* is an essential book for our era.
