Drunvalo Melchizedek

The Ancient Secret of the Flower of Life, Volume 2 Drunvalo Melchizedek, 2012-04-27 The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science, stories, logic, and coincidence on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation--step-by-step techniques for the re-creation of the energy field of the evolved human--which is the key to ascension and the next dimensional world. If done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others, and even of the planet. You may discover a memory or a fleeting reflection of yourself in the following topics: - The Unfolding of the Third Informational System: the circles and squares of human consciousness, Leonardo da Vinci's true understanding of the Flower of Life, and exploring the rooms of the great pyramid - Whispers From Our Ancient Heritage: the initiations of Egypt, the mysteries of resurrection, interdimensional conception, ancient mystery schools, Egyptian tantra, and sexual energy and the orgasm - Unveiling the Mer-Ka-Ba Meditation: chakras and the human energy system, energy fields around the body, the seventeen breaths of the Mer-Ka-Ba meditation, and the sacred geometry of the human lightbody.

The Ancient Secret of the Flower of Life, Volume 1 Drunvalo Melchizedek, 2012-04-28 Once, all life in the universe knew the Flower of Life as the creation pattern - the geometrical design leading us into and out of physical existence. Then from a very high state of consciousness we fell in darkness and forgot who we were. For thousands of years the secret was held in ancient artifacts and carvings around the world, and encoded in the cells of all life. Here Drunvalo Melchizedek presents in text and graphics the first half of the Flower of Life Workshop, illuminating the mysteries of how we came to be, why the world is the way it is and the subtle energies that allow our awareness to blossom into its true beauty. Sacred Geometry is the form beneath our being and points to a divine order in our reality. We can follow that order from the invisible atom to the infinite stars, finding ourselves at each step. The information here is one path, but between the lines and drawings lie the feminine gems of intuitive understanding. Explore the miracle of our existence by meandering through the wonderland of geometry, science, ancient history and new discovery, seen through the widened vision of Drunvalo and the Flower of Life. Volume 2 will explore in great detail the Mer-Ka-Ba, the 55-foot-diameter energy field of the human lightbody. This knowledge leads to ascension and the next dimensional world. About the Author Drunvalo Melchizedek's life experience reads like an encyclopedia of breakthroughs in human endeavor. He studied physics and art at the University of California at Berkeley, but he personally feels that his most important education came after college. In the last 25 years he has studied with over 70 teachers from all belief systems and religious understandings, providing him with a wide breadth of knowledge, compassion and acceptance. Not only is Drunvalo's mind exceptional, but his heart, his warm personality, his love for all life everywhere, is immediately understood and felt by anyone who meets him. For some time now he has been bringing his vast vision to the world through the Flower of Life program and the Mer-Ka-Ba meditation.

Color Medicine Charles Klotsche,1993-09-01 The secrets of color vibration healing. A practitioner's manual for restoring blocked energy to the body systems with specific color wave lengths. By the founder of The 49th Vibrational Technique. A new dimension in holistic healing, Color Medicine provides a powerful technique for treating specific imbalances and strengthening the immune system. By combining aura-attuned chromatherapy with harmonious sounds, tissue salts and hydrochromatherapy, the 49th Vibrational Technique was developed. It is safe, simple, economical and highly effective. A breakthrough, yet as old as recorded medicine, it utilizes the subtle energy vibrations similar to those found in the visible spectrum: the 49th octave. Light energy is processed through color filters and irradiated into the aura. By matching corresponding wavelengths to the organs and systems of the body, it strengthens or sedates energy in the distressed areas, creating a support system for the healing process. A textbook and how-to handbook, it encompasses an encyclopedia of vital fascinating information, charts, diagrams and tables as well as methods of treatment and technical advice. Whether you are a holistic practitioner or merely curious, this book marks a new frontier in the world of alternative healing.
