**The Secrets of Tenet and the Sator Square** François-Marie Périer,Romain Teixeira,2023-12-14 From the Early Christians to Christopher Nolan. What if the famous Magic Square Sator, engraved two millenia ago on the walls of Pompeii shortly before the eruption of Vesuvius, attributed to the Early Christians, and the inspiration for Christopher Nolan's film Tenet, released in 2020, had been announcing the troubled and decisive times we are living? Sator, Arepo, Tenet, Opera, Rotas: a 25 letters mandala of which numerous versions dot ancient, medieval or modern Europe, and a two thousand years old mystery. Like a living heart where ancient traditions and religions converge with contemporary discoveries in physics, such as the reversibility of Time and the question of Artificial Intelligence, the Magic Square takes us through the arcane of the Tarot, Gnosis, Hebrew Wisdom and their links to Egypt, Christian Mysticism and the Renaissance. It also allows us to decipher for the first time the work of Christopher Nolan, also director of The Prestige, Batman, Interstellar, Inception and Oppenheimer. In the center of the Sator Square, a cross is formed by Tenet, the name of the director of the CIA at the time of September 11, 2001. Space and Time, Eternity, the destiny of Human kind, its quest for freedom are simultaneously hidden and revealed in the Sator Square, as well as C.G.Jung's necessary reconciliation of the opposites at the crossing point between the Pisces era and the Aquarian era we are encountering. We live in a twilight World is the device of Tenet. But the Sator Square also announced us the dawn of a new one.

**The Deep State Encyclopedia** Grace Reallygraceful,2023-03-07 Our country is being attacked from within. The past several years showed us that the shadow government seeks to assert absolute control over the human cattle, but what if we could stop them? What if we could take away the cabal's power by exposing their entire playbook? Uncover the hidden web of power and influence that shapes our world with The Deep State Encyclopedia. Delve into the secrets of the shadow government, from dark occult practices to the most notorious secret societies and their unexpected famous members.

Explore the titans of industry and banking who have shaped America's early years, as well as the controversies and scandals that still haunt their legacy. From the forces behind Bill Gates and Rockefeller Medicine, to the formation of the Federal Reserve and the scandals of the families who created the institution at Jekyll Island over a century ago, to the tactics used by mainstream media in gaslighting, manipulating, and controlling the masses, to highly censored stories about Jeffrey Epstein and his madam, Ghislaine Maxwell, as well as the real contents of the leaked Podesta emails, no topic is off-limits. With the principle that nothing and no one is above questioning, this book is a guide for those who seek to understand the masked machinations of power behind the cabal. As vital information becomes increasingly censored and hidden, this encyclopedia is your guide to peeling back the layers of secrecy and discovering the truth for yourself. Grace from the YouTube channel reallygraceful provides nearly 500 pages of irrefutable, highly sourced evidence of deep state doings, the motivations and mysterious religious beliefs behind their actions, and events and individuals they've attempted to bury. Mystery religions are no longer a mystery... Secret societies are no longer a secret... What was once hidden will be revealed...

The Bible Conspiracy David Klooz, 2025-02-23 Most people are not aware that numerous cataclysmic events significantly shaped Earth's history, including advanced civilizations like Atlantis and Lemuria, which were destroyed and forgotten over time. Nor do many know that Earth was once part of a system orbiting Saturn, and that major cosmic events involving Saturn, Jupiter, and other planets influenced Earth's development and ancient mythologies and religions. Also, very few individuals realize that many biblical characters, including Jacob, Moses and King David, were based on historical Egyptian figures, and that the Bible was heavily influenced by Egyptian texts, rituals, religion, morals and artifacts. Moreover, few are aware of the influence of ancient mystery schools on the development of philosophical and religious thought, suggesting that secret societies have preserved and transmitted esoteric and occult knowledge through the ages to only the initiates of those societies. The concept of a plasma and an electric universe proposes that electrical forces play a critical role in cosmic events and planetary interactions, challenging traditional gravitational theories. Plasma is also related to the real purpose and mysteries surrounding the Great Pyramid, whose construction reflects sophisticated scientific knowledge of the Earth, Solar System and Universe. In the end, readers will understand that like most stories, this one is about the psychopathic need of the few for control and the bending of humankind's will, in this case by means of religion and money – the worst two innovations of humankind. There have never been wars between civilizations, but only Class Wars that create them. This is the story of an ancient priestly cult that, through esoteric and occult knowledge, has been able to create and control events that keep humankind in chains.

*Introducing Don DeLillo* Frank Lentricchia,1991 If you want to find out what a rock critic, a syndicated columnist, and scholars of American literature have to say about one of America's most important contemporary novelists, turn to *Introducing Don DeLillo*. Placing the author's work in a cultural context, this is the first book-length collection on DeLillo, adding considerably to the emerging critical discourse on his work. Diversity is the key to this striking assemblage of cultural criticism edited by Frank Lentricchia. Special features include an expanded version of the Rolling Stone interview with the

author (An Outsider in this Society) and the extraordinary tenth chapter of DeLillo's *Ratner's Star*. Accessibly written and entertaining, the collection will be of great interest to both students and scholars of contemporary American literature as well as to general readers interested in DeLillo's work. Contributors. Frank Lentricchia, Anthony Decurtis, Daniel Aaron, Hal Crowther, John A. McClure, Eugene Goodheart, Charles Molesworth, Dennis A. Foster, and John Frow

**Ancient Greek Colonies in the Black Sea 2** Dēmētrios V. Grammenos, Elias K.
