Omnibus III Douglas Wilson, Douglas Wilson and G. Tyler Fischer, 2006-12

F. Scott Fitzgerald's The Great Gatsby Harold Bloom, 2009 Presents a series of critical essays discussing the structure, themes, and subject matter of Fitzgerald's story of the love between wealthy Jay Gatsby and the beautiful Daisy Buchanan.

The Great Gatsby Francis Scott Fitzgerald, 1993 A young man newly rich tries to recapture the past and win back his former love, despite the fact that she has married

American Guy Saul Levmore, Martha C. Nussbaum, 2014-08-04 *American Guy* examines American norms of masculinity and their role in the law, bringing a range of methodological and disciplinary perspectives to the intersection of American gender, legal, and literary issues. The collection opens with a set of papers investigating American Guys -- the heroic nonconformists and rugged individualists that populate much of American fiction. Diverse essays examine the manly men of Hemingway, Dreiser, and others, in their relation to the law, while also highlighting the underlying tensions that complicate this version of masculinity. A second set of papers examines Outsiders -- men on the periphery of the American Guys who proclaim a different way of being male. These essays take up counter-traditions of masculinity ranging from gay male culture to Philip Roth's portrait of the Jewish lawyer. *American Guy*, a follow-up to *Subversion and Sympathy*, edited by Alison L. LaCroix and Martha Nussbaum, aims at reinvigorating the law-and-literature movement through original, cross-disciplinary insights. It embraces a variety of voices from both within and outside the academy, including several contributions from prominent judges. These contributions are particularly significant, not only as features unique to the field, but also for the light they throw on the federal bench. In the face of a large body of work studying judicial conduct as a function of rigid commitment to ideology, *American Guy* shows a side of the judiciary that is imaginatively engaged, aware of cultural trends, and reflective about the wider world and the role of the law in it.

The Politics of Language David Beaver, Jason Stanley, 2025-10-28 In much of the theory of meaning, philosophers and linguists have focused on the use of language in conveying information in cooperative informational exchanges. As a result, political uses of speech, of the sort that political propaganda exemplifies, have not been taken to be a central case of language use. In this book, Jason Stanley and David Beaver focus on the political use of speech as a central case, which leads to a foundational rethinking of the theory of meaning. By focusing on the political uses of speech, one arrives at better (and

more general) tools to describe speech, as well as a more accurate view of its central functions. More dramatically, it enables us to see the ways in which virtually all speech is political-a fact that is masked by much of the theory of meaning. Stanley and Beaver's topic is speech generally-its function and how best to represent that function. Political propaganda serves as a window into that topic, since its function is not obviously to share information, or even misinformation. They emphasize the importance of understanding how political propaganda works via the topic of the justification of free speech and argue that political propaganda poses a problem for a broad range of justifications of free speech. Stanley and Beaver argue that it is not possible to compartmentalize the political aspects of speech from the non-political aspects of speech, nor is it possible to carve out a neutral deliberative space of evaluating reasons qua reasons. Speech is invariably political--

Encyclopedia of Apocalyptic Literature Valerie P. Zimbaro,1996 This text, which is by no means inclusive of all of the world's apocalyptic writings, is intended both as an introduction to this timely literary genre as well as a tribute to the world's major authors whose prose and poetry reflect their respective hopes, dreams and fears for the world's last days. Although the book is intended to address apocalyptic literature across cultures, there is a significant dearth of material related to works by writers from Eastern cultures. This omission is an obvious one, inasmuch as the concept of an apocalypse, or a singular cataclysmic ending, is essentially antithetical to most cyclical Eastern philosophies. In an attempt to analyze such apocalyptic themes of either non-Western, primitive or pre-literate cultures, a list of entries pertaining to significant apocalyptic myths, legends and scriptures has been provided in appendix D.

The Great Gatsby Francis Scott Fitzgerald,1925 Follows the adventures of Jay Gatsby as he tries to win back the woman he loved and lost.
