Mindful Listening Instruction in the Elementary Classroom: Authentic Strategies Using Picturebooks Fortune, Donna Jessie, Barksdale, Mary Alice, 2023-09-18 In today's academic environment, one essential skill that is often overlooked is active listening. While educators dedicate substantial time to teaching reading, writing, and speaking, listening skills remain a marginalized aspect of education. This negligence leaves students ill-prepared for the demands of the modern world and results in billions of dollars being spent by companies to train their employees in effective listening. The gap between the need for proficient listeners and the scarcity of resources to nurture this skill is harming or at least significantly delaying the potential of these students. *Mindful Listening Instruction in the Elementary Classroom: Authentic Strategies Using Picturebooks* is the solution we've all been waiting for. Academic scholars are deeply committed to improving education, and they have recognized the urgency of addressing this pervasive issue. This book offers a transformative solution by advocating for the integration of listening skill instruction into elementary classrooms, using the engaging medium of picture books. This book is a roadmap to a brighter future for our students and society. By addressing the problem of neglected listening skills and offering a compelling solution, this book equips educators, academics, and anyone invested in education with the tools to bridge the gap between the demand for proficient listeners and the current educational landscape's shortcomings.

Developing Children's Critical Thinking through Picturebooks Mary Roche, 2014-07-25 This accessible text will show students and class teachers how they can enable their pupils to become critical thinkers through the medium of picturebooks. By introducing children to the notion of making-meaning together through thinking and discussion, Roche focuses on carefully chosen picturebooks as a stimulus for discussion, and shows how they can constitute an accessible, multimodal resource for adding to literacy skills, while at the same time developing in pupils a far wider range of literary understanding. By allowing time for thinking about and digesting the pictures as well as the text, and then engaging pupils in classroom discussion, this book highlights a powerful means of developing children's oral language ability, critical thinking, and visual literacy, while also acting as a rich resource for developing children's literary understanding. Throughout, Roche provides rich data and examples from real classroom practice. This book also provides an overview of recent international research on doing 'interactive read alouds', on what critical literacy means, on what critical thinking means and on picturebooks themselves. Lecturers on teacher education courses for early years or primary levels, classroom teachers, pre-service education students, and all those interested in promoting critical engagement and dialogue about literature will find this an engaging and very insightful text.

Children's Literature Diana Mitchell, Pamela Waterbury, Rose Casement, 2003 Children's Literature: An Invitation to the World is written and organized in a manner that engages the readers and that will instill confidence in teachers when selecting and using literature in their teaching. Readers are asked to take a world view of literature-what it is; how to recognize one's own; how to recognize an author's-and encouraged to see children's literature through a lens that includes people not like themselves. The book tackles tough issues such as gender and racial bias and how they can be insidiously promoted in literature. No other book on the market engages readers more than this one. Rather than just presenting topics, the book asks What can we learn from them? In addition, the first-person narrative involves readers in the discussion, rather than simply presenting content to them.
