Anita Mackay

A Children's Rights Assessment of Juvenile Detention in Australia Anita Mackay, 2024-09-16 Canvassing the socio-legal context for youth detention in Australia with a focus on international human rights law and legal frameworks within Australian states and territories, this book examines the recurring children's rights-violations of recent years, and puts forward strategies for reform. Providing a comprehensive national picture of juvenile detention legislation, policy and practices using a children's rights framework, this book is a detailed synthesis of investigatory reports, judicial decisions and inquiries by both Royal Commissions and parliamentary committee inquiries that together establish an evidence base for assessing the compliance of youth detention with Australia's international and domestic human rights obligations. It also proposes nine pillars for reform to help Australia move towards children's rights compliance. A Children's Rights Assessment of Juvenile Detention in Australia provides an invaluable resource for policy-makers, lawyers and criminologists, as well as for students of law and criminology.

The Age of Criminal Responsibility Australian Institute of Criminology, 2005 Since the year 2000, some jurisdictions have revised their legislation, confirming a trend over the last 20 years to uniformity in age limits for criminal responsibility. This bulletin includes a table which sets out, for each Australian jurisdiction, the age up to which a child cannot be charged with a criminal offence; the age range within which children are considered 'doli incapax', or incapable of committing crime; and the maximum age for appearance in a children's, juvenile or youth court. In the Australian Capital Territory, the Criminal Code 2002 Div 2.3.1 now deals with the criminal responsibility of children. From 1 July 2005 in Victoria, the age jurisdiction of the criminal division of the Children's Court has increased from 17 to 18 years. In Queensland, for the purposes of the Juvenile Justice Act 1992 a child is a person who has not turned 17 years. Recent Australian reviews have discussed amending the doli incapax presumption, including reversing the onus of proof and changing its application to ages twelve and under.

Incarcerated Young People, Education and Social Justice Kitty te Riele, Tim Corcoran, Fiona MacDonald, Alison Baker, Julie White, 2023-03-31 This book foregrounds the provision of education for young people who have been remanded or sentenced into custody. Both international conventions and national legislation and guidelines in many countries point to the right of children and young people to access education while they are incarcerated. Moreover, education is often seen as an

important protective and 'rehabilitative' factor. However, the conditions associated with incarceration generate particular challenges for enabling participation in education. Bridging the fields of education and youth justice, this book offers a social justice analysis through the lens of 'participatory parity', the book brings together rare interviews with staff and young people in youth justice settings in Australia, secondary data from these sites, a suite of pertinent and frank reports, and international scholarship. Drawing on this rich set of material, the book demonstrates not only the challenges but also the possibilities for education as a conduit for social justice in custodial youth justice. The book will be of immediate relevance to governments and youth justice staff for meaningfully meeting their obligation of enabling children and young people in custody to benefit from education; and of interest to scholars and researchers in education, youth work and criminology.

Research Handbook on Youth Criminology Greg Martin, Estrella Pearce, 2025-07-15 This timely Handbook provides historical, contemporary, theoretical and methodological perspectives on youth criminology. Impact of Gun Violence in School Systems Herron, Jeffrey, Sartin, Sharon R., 2024-04-29 The United States is a nation that has been facing a crisis of violence within its school system for decades. This disruptive and traumatic phenomenon has had lasting impacts on the systems in which educations must exist, but the ripple effects of this require an extensive analysis. To advance society, quality education is necessary, and ensuring that quality demands that experts take a step back and look at the bigger picture. In the wake of rising concerns over safety in educational environments, *Impact of Gun Violence in School Systems* delves into the urgent issue of gun violence within the United States' school systems. As educators, administrators, counselors, social workers, and policy makers grapple with the complex challenges presented by violence, this book serves as a comprehensive guide to understanding the multifaceted dimensions of the issue. Examining topics such as gun violence, mental health, school suspension, student success, bullying, violence reduction programs, alternative schools, inner-city youth programs, and zero-tolerance policies, the manuscript synthesizes current research, real-world examples, and innovative solutions. *Impact of Gun Violence in School Systems* not only sheds light on the root causes of violence within educational settings but also provides actionable insights and recommendations, making it an indispensable resource for those committed to creating safer and more conducive learning environments for our youth.
