Don Quixote Miguel de Cervantes, Miguel de Cervantes Saavedra, 2006-11 *Don Quixote*, by Miguel Cervantes, is the first European novel. It is Cervantes's best work. It is the classic adventure of an eccentric like the renowned Don Quixote de la Mancha. He attacks windmills, believes a peasant girl to be a lady, and fancies that he is a knight-errant, dedicated to righting wrongs and rescuing damsels in distress. Entertaining!

Don Quixote - Miguel de Cervantes Miguel de Cervantes, 2021-06-04 The Ingenious Gentleman Don Quixote of La Mancha (Modern Spanish: El ingenioso hidalgo (in Part 2, caballero) don Quijote de la Mancha, or just Don Quixote), is a Spanish novel by Miguel de Cervantes. It was originally published in two parts, in 1605 and 1615. Considered a founding work of Western literature, it is often labeled the first modern European novel and many authors consider it to be the one of the greatest novels ever written. Don Quixote also holds the distinction of being the second most-translated book in the world, after the Bible. The plot revolves around the adventures of a noble (hidalgo) from La Mancha named Alonso Quixano, who reads so many chivalric romances that he loses his mind and decides to become a knight-errant (caballero andante) to revive chivalry and serve his nation, under the name Don Quixote de la Mancha. He recruits a simple farmer, Sancho Panza, as his squire, who often employs a unique, earthy wit in dealing with Don Quixote's rhetorical monologues on knighthood, already considered old-fashioned at the time. Don Quixote, in the first part of the book, does not see the world for what it is and prefers to imagine that he is living out a knightly story.

Don Quixote Miguel de Cervantes, Edith Grossman, 2003-10-21 Edith Grossman's definitive English translation of the Spanish masterpiece. Widely regarded as the world's first modern novel, and one of the funniest and most tragic books ever written, *Don Quixote* chronicles the famous picaresque adventures of the noble knight-errant Don Quixote of La Mancha and his faithful squire, Sancho Panza, as they travel through sixteenth-century Spain. Unless you read Spanish, you've never read *Don Quixote*. Though there have been many valuable English translations of *Don Quixote*, I would commend Edith Grossman's version for the extraordinarily high quality of her prose. The Knight and Sancho are so eloquently rendered by Grossman that the vitality of their characterization is more clearly conveyed than ever before. There is also an astonishing contextualization of Don Quixote and Sancho in Grossman's translation that I believe has not been achieved before. The spiritual atmosphere of a Spain already in steep decline can be felt throughout, thanks to her heightened quality of diction.

Grossman might be called the Glenn Gould of translators, because she, too, articulates every note. Reading her amazing mode of finding equivalents in English for Cervantes's darkening vision is an entrance into a further understanding of why this great book contains within itself all the novels that have followed in its sublime wake. From the Introduction by Harold Bloom Miguel de Cervantes was born on September 29, 1547, in Alcalá de Henares, Spain. At twenty-three he enlisted in the Spanish militia and in 1571 fought against the Turks in the battle of Lepanto, where a gunshot wound permanently crippled his left hand. He spent four more years at sea and then another five as a slave after being captured by Barbary pirates. Ransomed by his family, he returned to Madrid but his disability hampered him; it was in debtor's prison that he began to write *Don Quixote*. Cervantes wrote many other works, including poems and plays, but he remains best known as the author of *Don Quixote*. He died on April 23, 1616.

Don Quixote Miguel De Cervantes, John Ormsby, 2024-01-25 The history of our English translations of *Don Quixote* is instructive. Shelton's, the first in any language, was made, apparently, about 1608, but not published till 1612. This of course was only the First Part. It has been asserted that the Second, published in 1620, is not the work of Shelton, but there is nothing to support the assertion save the fact that it has less spirit, less of what we generally understand by go, about it than the first, which would be only natural if the first were the work of a young man writing *currente calamo*, and the second that of a middle-aged man writing for a bookseller. On the other hand, it is closer and more literal, the style is the same, the very same translations, or mistranslations, occur in it, and it is extremely unlikely that a new translator would, by suppressing his name, have allowed Shelton to carry off the credit. In 1687 John Phillips, Milton's nephew, produced a *Don Quixote* made English, he says, according to the humour of our modern language. His *Quixote* is not so much a translation as a travesty,

and a travesty that for coarseness, vulgarity, and buffoonery is almost unexampled even in the literature of that day. But it is, after all, the humour of Don Quixote that distinguishes it from all other books of the romance kind. It is this that makes it, as one of the most judicial-minded of modern critics calls it, the best novel in the world beyond all comparison. It is its varied humour, ranging from broad farce to comedy as subtle as Shakespeare's or Moliere's that has naturalised it in every country where there are readers, and made it a classic in every language that has a literature.
