Carrots, Sticks and Sermons John McCormick, 2017-07-28 The literature on policy strategies, instruments, and styles is impressive. Still, a complex variety of theoretical and conceptual approaches and analytical tools hamper a good overview. Carrots, Sticks, and Sermons proposes such a framework for the field and clearly shows how public policy instruments are classified, packaged, and chosen, while highlighting the role evaluation plays in the instruments-choice process. Carrots, Sticks, and Sermons offers a comprehensive analysis of categories and typologies of policy instruments. It classifies sticks, carrots, and sermons - or, more specifically, regulation, economic means, and information. Readers are offered a comparative perspective of evaluation practice in foreign contexts. Special attention is paid to the examples of Sweden, the Netherlands, Belgium, England, Canada, the United States, and the Republic of Korea. As such, this volume crosses language barriers that stand in the way of dispersing research results among the international community of theoreticians and practitioners. As nations become increasingly interdependent, problems of implementation and evaluation of policy choices will become issues of increasing gravity. Carrots, Sticks, and Sermons provides insights into the traditional and current practice of policy and program evaluation in various contexts. The book's theory of comparative public policy will produce understanding and guidance in designing better policies. It will be of wide interest to those in the fields of public policy, particularly policy design, policy implementation, policy evaluation, comparative politics, and economics.

A Re-definition of Belonging? Ricky Van Oers, Eva Ersbøll, Theodora Kostakopoulou, The introduction of language and integration tests as a condition for naturalisation and other types of legal residence permits reflects an important recent change in citizenship policies in European countries. In this book, experts from nine countries reflect on the redefinition of political belonging by examining the policies concerning immigrant integration.

"Income Tax Refunds" Janet Johns, 2011-10-03 Life is a journey full of mysterious detours and partnerships that I could never have imagined even in my wildest dreams. This book is the true story of a natural horsemanship journey and the horse

- human partnership resulting from one of those unplanned detours. Rocky was a very angry horse when we bought him in 2003. I didn't understand what Rocky was trying to tell me with his expressions; but, I did understand that he could be very aggressive toward humans when he was angry. Rocky was screaming for help and no one was listening. This book is a training manual documenting the natural horsemanship methods that I used to understand Rocky and his innate left brained introverted personality so that we could bond with a powerful horse - human partnership. This book is dedicated to the natural partnership between animals and humans. Understanding the reality of developing a partnership with a difficult horse is essential to providing forever homes for horses that deserve another chance.
