Framed Ink 2 Marcos Mateu-Mestre, 2020-12-18 The highly anticipated follow-up to *Framed Ink* from Marcos Mateu-Mestre, *Framed Ink 2* provides insight into another compositional tool that Marcos uses every day to create his amazing artwork--the energy within the working frame. In each piece of art, regardless of its format, one must consider essential factors such as the push-pull, tension-relaxation, pressure-release, balance and imbalance that happen inside the working area to support our storytelling. All of these factors apply in any aspect ratio, whether it be horizontal, vertical or square, each a format to consider when working in the movie, gaming, animation and graphic novel industries, which in our day and age can be presented through a variety of outlets such as a movie theater, home theater, social media and a number of personal devices. Marcos encourages and educates us on how not to be limited by the format but to embrace and rise to the challenge of designing for each format. A perfect accompaniment to his prior releases *Framed Ink*, *Framed Perspective Vol. 1* and *Vol. 2* and *Framed Drawing Techniques*, this book will take a reader's knowledge base to the next level and allow them to build on their expertise as an effective visual storyteller.

Framed Perspective Vol. 1 Marcos Mateu-Mestre, 2016 Perspective is a discipline often set aside when it comes to general art study, though it is essential to master in order to produce any piece of art that is and feels realistic. Design Studio Vol. 3: Designs on History Jonathan Hill, 2021-12-24 Each architectural design is a new history. To identify

what is novel or innovative, we need to consider the present, past and future. We expect historical narratives to be written in words, but they can also be delineated in drawing, cast in concrete or seeded in soil. The aim of this volume is to understand each design as a visible and physical history. Historical understanding is investigated as a stimulus to the creative process, highlighting how architects learn from each other and other disciplines. This encourages us to consider the stories about history that architects fabricate. An eminent set of international contributors reflect on the relevance of historical insight for contemporary design, drawing on the rich visual output of innovative studios worldwide in practice and education. Wide ranging and thought-provoking articles encompass fact, fiction, memory, time, etymology, civilisation, racial segregation and more. Features: Elizabeth Dow, Pezo von Ellrichshausen, Terunobu Fujimori, Perry Kulper, Lesley Lokko, Yeoryia Manolopoulou, Niall McLaughlin, Aisling O'Carroll, Arinjoy Sen, Amin Taha and Sumayya Vally.

The Persistence of Dance Erin Brannigan, 2023-11-28 There is a category of choreographic practice with a lineage stretching back to mid-20th century North America that has re-emerged since the early 1990s: dance as a contemporary art medium. Such work belongs as much to the gallery as does video art or sculpture and is distinct from both performance art and its history as well as from theater-based dance. *The Persistence of Dance: Choreography as Concept and Material in Contemporary Art* clarifies the continuities and differences between the second-wave dance avant-garde in the 1950s–1970s and the third-wave starting in the 1990s. Through close readings of key artists such as Maria Hassabi, Sarah Michelson, Boris Charmatz, Meg Stuart, Philipp Gehmacher, Adam Linder, Agatha Gothe-Snape, Shelley Lasica and Latai Taumoepeau, *The Persistence of Dance* traces the relationship between the third-wave and gallery-based work. Looking at these artists highlights how the discussions and practices associated with “conceptual dance” resonate with the categories of conceptual and post-conceptual art as well as with the critical work on the function of visual art categories. Brannigan concludes that within the current post-disciplinary context, there is a persistence of dance and that a model of post-dance exists that encompasses dance as a contemporary art medium.

Framed Ink Marcos Mateu-Mestre, 2010 Describes how to use different drawing techniques to compose storyboards that express a storyline using illustrative examples and explanations.

Visual Culture and the Forensic David Houston Jones, 2022-03-10 David Houston Jones builds a bridge between practices conventionally understood as forensic, such as crime scene investigation, and the broader field of activity which the forensic now designates, for example in performance and installation art as well as photography. Contemporary work in these areas responds both to forensic evidence, including crime scene photography, and to some of the assumptions underpinning its consumption. It asks how we look, and in whose name, foregrounding and scrutinising the enduring presence of voyeurism in visual media and instituting new forms of ethical engagement. Such work responds to the object-oriented culture associated with the forensic and offers a reassessment of the relationship of human voice and material evidence. It displays an enduring

debt to the discursive model of testimony which has so far been insufficiently recognised, and which forms the basis for a new ethical understanding of the forensic. Jones's analysis brings this methodology to bear upon a strand of contemporary visual activity that has the power to significantly redefine our understandings of the production, analysis and deployment of evidence. Artists examined include Forensic Architecture, Simon Norfolk, Melanie Pullen, Angela Strassheim, John Gerrard, Julian Charrière, Trevor Paglen, Laura Poitras and Sophie Ristelhueber. The book will be of interest to scholars working in art history, visual culture, literary studies, modern languages, photography and critical theory.

Cycling & Walking for Regional Development Paolo Pileri, Rossella Moscarelli, 2020-08-28 This book investigates why and how cycle and walking paths can help to promote the regeneration of marginalized areas facing depopulation and economic decline. In addition, it offers a broad overview of recent scientific research into slow tourism and marginality/spatial inequality and explores the linkages between these topics. Key issues are addressed by experts from various disciplinary backgrounds, and potential measures are proposed for the integration of slow tourism into strategies for regional development. Particular attention is devoted to the VENTO project, which involves the creation of a 700-km-long cycle route from Venice to Turin that passes through various rural and marginalized areas of northern Italy. The goal, research process, design, and early lessons from this important project are all discussed in detail. Moreover, the book describes policies and strategies that have successfully been used to enhance the slow tourism infrastructure in other European countries. Given its scope, the book will appeal to researchers, professionals, and students interested in e.g. policymaking, tourism planning, regional development, and landscape and urban planning.

Promoting Social Inclusion Kate Scorgie, Chris Forlin, 2019-06-04 This volume explores innovative perspectives and practices regarding social inclusion of potentially marginalized individuals from multiple perspectives.
