A Grand Slam for God: A Journey from Baseball Star to Catholic Priest Burke Masters, 2023-08-14

To Reconnoiter the Territories of Brain, Mind, and Philosophy R. Garner Brasseur M.D., 2016-09-15 The book deals with the nature and evolution of the mind of man and is an attempt to delineate its intangible existence as a function and product of the flesh and blood of tangible brain tissue. In the process, the book necessarily delves into anatomy and function of brain and into philosophy. An intention was also to arrive at some definite ideas on philosophy. Hopefully, in the end, to elucidate the two conjoined aspects of the human mind, the tangible physical body of the real world, and the intangible conceptual world of ideas.

The Marriage Game Anne Crawford Flexner, 1916

Irrevocable Jaclyn McQueeney, 2023-01-18 We have all experienced the gut-wrenching feeling of looking up from a season of great difficulty to find we don't recognize ourselves anymore. Perhaps a life-altering decision didn't go as planned. Maybe there were a series of compromises that led to an onslaught of questions ultimately leading to I don't know what happened. We are human, and mistakes are inevitable. Even so, there is hope. We don't have to stay hidden in the shadow of our regret. There is no need to cower in the corner, submitting to unworthiness. Despite the depth or severity of the mistake(s), there is One who loves you. There is One who will still keep you. There is One Who is waiting to help you to your feet, dust you off, and endure the long road to recovery, asking nothing in return. Throughout the pages of this book, there is a hope and encouragement in knowing you are not the only one. You will discover that even those who walk with God are still tempted, but they are also still covered by His sacrifice on Calvary. No matter your story, shortcoming, or hypocrisy, God still wants to use you. You have not fallen too far from grace. Your story is still redeemable, and your calling is still irrevocable.

Does God's Existence Need Proof? Richard Messer, 1993 The possibility of proving the existence of God has fascinated

thinkers and believers throughout the centuries. This book critically analyzes both sides of the contemporary debate between the two most important living philosophers of religion--Richard Swinburne and D.Z. Phillips--and constructs an alternative solution. Instead of taking sides on the issue of God's existence, Messer argues that behind each thinkers' work, and their attitudes toward proving the existence of God, lies fundamental trust. A positive discussion of relativism leads to a fresh analysis of the arguments for God's existence, particularly the ontological argument. In this way, Messer concludes that they are indeed worthwhile, although not for the traditional reasons.

Gifts from God David Jeremiah,1999 Gifts from God Encouragement and hope for today's parents Dr. David Jeremiah Caution: This is Not Another Parenting How-To Book! In an age when it's easy to become discouraged and guilt-ridden about the responsibilities and challenges of raising godly children, Dr. David Jeremiah says, Be encouraged! Through the pages of Gifts from God, he comes alongside each of us parents, puts a hand on our shoulder, and reminds us through both biblical and personal example that our homes can indeed become households of faith. Dr. David Jeremiah has been senior pastor of Shadow Mountain Community Church in San Diego for nearly twenty years and is chancellor of Christian Heritage College. His national radio program, Turning Point, is heard on more than 900 outlets across the country, and he speaks regularly at Bible conferences, seminaries, and professional sports chapels. Why Isn't God Giving Cash Prizes? Lorraine Peterson,1982 A thirteen-week program of devotional study exploring the existence and nature of God and other theological questions.

God, Prayer, and Healing Arthur A. Vogel,1995 Occasioned by the near death of his son from lymphatic cancer and the experiences of eight weeks spent in an intensive-care waiting room, this volume by Arthur A. Vogel reflects on life with God in a world in which chance, accident, and evil are able arbitrarily to contradict the goodness of life. Vogel grapples with some hard questions: Does God act in human affairs? Is it reasonable to pray with expectancy? Does prayer have any objective results? What is the relation of prayer to healing and of prayer to science? In the light of such pressing, often intensely personal questions, Vogel successfully shows the reasonableness of belief in the presence of God and in the effectiveness of prayer without denying the complexities and ambiguities of life in this world - where some of those who are prayed for live

and are healed while others die.
