Franklyn Richard Cliff,2015-12-17 Franklyn was born into a gritty north of England town. His expected path through life would have him live out his years in the manner of that town's baseline existence. But it wasn't to be. Perhaps he was pre-selected to break rank so that bigger dreams could be fulfilled. Whatever the prime force may have been, he was to know a different life. Perhaps, too, the corridors of our own reality are flimsier than we believe! On the other side of the wall may lie another path. As Franklyn himself discovers, a perceived reality can be as real as reality itself.

History as Fantasy in Music, Sound, Image, and Media James Cook,Alexander Kolassa,Alexander Robinson,Adam Whittaker,2024-04-11 Exploring how music is used to portray the past in a variety of media, this book probes the relationship between history and fantasy in the imagination of the musical past. The volume brings together essays from multidisciplinary perspectives, addressing the use of music to convey a sense of the past in a wide range of multimedia contexts, including television, documentaries, opera, musical theatre, contemporary and historical film, videogames, and virtual reality. With a focus on early music and medievalism, the contributors theorise the role of music and sound in constructing ideas of the past.

In three interrelated sections, the chapters problematise notions of historical authenticity on the stage and screen; theorise the future of musical histories in immersive and virtual media; and explore sound's role in more fantastical appropriations of history in television and videogames. Together, they pose provocative questions regarding our perceptions of 'early' music and the sensory experience of distant history. Offering new ways to understand the past at the crossroads of musical and visual culture, this collection is relevant to researchers across music, media, and historical and cultural studies.
