

Italian Migration To Australia

Julia Church

The Italians in Australia Gianfranco Cresciani, 2003-08-27 This 2003 book brings to life the important story of the Italo-Australian community.

From Paesani to Global Italians Loretta Baldassar, Ros Pesman, 2005 A study of the migration history and experiences of migrants from the Veneto region in the north-east of Italy. As the Veneto, which includes the province of Venice, is today one of the most affluent regions in Italy, this book provides a contrast to the rather more well-known story of southern Italian migration.

Italians in Australia Francesco Ricatti, 2018-04-26 This book provides a concise and innovative history of Italian migration to Australia over the past 150 years. It focuses on crucial aspects of the migratory experience, including work and socio-economic mobility, disorientation and reorientation, gender and sexual identities, racism, sexism, family life, aged care, language, religion, politics, and ethnic media. The history of Italians in Australia is re-framed through key theoretical concepts, including transculturation, transnationalism, decoloniality, and intersectionality. This book challenges common assumptions about the Italian-Australian community, including the idea that migrants are 'stuck' in the past, and the tendency to assess migrants' worth according to their socio-economic success and their alleged contribution to the Nation. It focuses instead on the complex, intense, inventive, dynamic, and resilient strategies developed by migrants within complex transcultural and transnational contexts. In doing so, this book provides a new way of rethinking and remembering the history of Italians in Australia.

Australia's New Wave of Italian Migration Bruno Mascitelli, Riccardo Armillei, 2017

Intimacy and Italian Migration Loretta Baldassar, Donna R. Gabaccia, 2011 Loretta Baldassar is Associate Professor of Anthropology and Sociology at the University of Western Australia. --

The Columbus People Lydio F. Tomasi, Piero Gastaldo, Thomas Row, 1994

The Australian People James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today. From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century, the island continent is home to people from all over the globe. Each new wave of settlers has had a profound impact on Australian society and culture. The Australian People documents the dramatic history of Australian

settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people. It is one of the largest reference works of its kind, with approximately 250 expert contributors and almost one million words. Illustrated in colour and black and white, the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation.

No Need to be Afraid Desmond O'Connor,1996 The story of how Italians struggled to earn the right to live and work amidst an Anglo-Saxon society. It is a story of fear: the Britishers' fear that the 'swarthy' undesirables would threaten their jobs and their way of life; the fear, as WW2 erupted, that Italians might sabotage the war effort and assist the Axis powers to take over Australia.

Finding a Place Carmel Reilly,2007 Italians began migrating to Australia in the 1800s. Since then, they have found a place in their new country, and made great contributions to Australian business, culture, food and government.

Vite Italiane Susanna Iuliano,2010 Vite Italiane provides a visually and textually rich and nuanced history of Italians in Western Australia.

Voices of Challenge in Australia's Migrant and Minority Press Catherine Dewhirst,Richard Scully,2021-12-03 This book brings together long-obscured histories to discuss Australia's cultural, social, and political diversity in depth. The history of Australia's migrant and minority print media reveals extensive evidence for the nation's global connectedness, from the colonial era to today. A fascinating and complex picture of Australia's long-term transnational ties emerges from the smaller enterprises of individuals and communities in the distant and more recent past. This book explores the authentic voices of minority groups which challenged the dominant experiences, patterns, and debates that have shaped Australia.

The Transnational Voices of Australia's Migrant and Minority Press Catherine Dewhirst,Richard Scully,2020-11-13 This edited collection invites the reader to enter the diverse worlds of Australia's migrant and minority communities through the latest research on the contemporary printed press, spanning the mid-nineteenth century to our current day. With a focus on the rare, radical and foreign-language print culture of multiple and frequently concurrent minority groups' newspaper ventures, this volume has two overarching aims: firstly to demonstrate how the local experiences and narratives of such communities are always forged and negotiated within a context of globalising forces – the global within the local; and secondly to enrich an understanding of the complexity of Australian 'voices' through this medium not only as a means for appreciating how the cultural heritage of such communities were sustained, but also for exploring their contributions to the wider society.

Per L'Australia Julia Church,2005 Presents the story of Italian settlement, from as early as 1788 through to World War II and beyond. This work features the story of Italians who fled war, persecution and poverty for a better life in Australia. It contains personal anecdotes and history, private mementos and photographs that capture the joys and frustrations of their

new life.

Cancer in Italian Migrant Populations Lega italiana per la lotta contro i tumori,1993 Migration provides a sort of natural experiment which permits comparisons of disease risk in populations or similar genetic background living in different environments. Many countries worldwide have large communities of Italian origin as a result of the emigration of some 26 million people from Italy over the last 100 years. This volume reports data from each of nine host countries for which cancer incidence or mortality data are available by country of birth, and compares them with the local-born in those countries and with the population that remained in Italy. Where possible, the data are also analyzed by duration of stay in the host country and/or age at arrival, and comments are made on possible environmental causes for the changes observed.
