Rags and Riches Susanna Elliott-Newth,2024-03-28 Life is an intricate tapestry of emotions: moments that tug at our hearts and instances that leave us in stitches. Every day, we navigate the quirks and peculiarities of those around us, choosing to either embrace the humour or let annoyance take the reins. Why not revel in the comedic interludes hidden within life's juxtapositions? In *Rags and Riches*, Susanna invites readers into a delightful collection filled with laughter, wit, and true tales. From whimsical articles to heartfelt poems, she captures the essence of real people and the memorable

moments that have shaped their lives. Many stories bring to life the eclectic guests that have crossed Susanna's threshold, while others shine a spotlight on the charming exchanges she shares with her vivacious granddaughter. 'One of her guests, a specialist medical doctor, laughs, "Susanna, you know I'm known as 'The Cleaner.' One weekend I was asked to be the medic in charge of a small hospital of nineteen patients. By the end of the weekend, sixteen of them had died." "What did you do? One look at you and they all decided their lives weren't worth living? Seriously?" "Yes, I'm that girl!" "Now when any hospital needs to move patients on - they know who to ask." "Yes, the cleaner!"' Articles used to be written on rags, which would be posted around the towns for people to read. They looked forward to their weekly rag. The book title includes 'Riches' because stories enrich our lives.

Dyslexia in Adolescence Peggy L. Anderson, Regine Meier-Hedde, 2017-03-27 Dyslexia in Adolescence: Global Perspectives presents international case studies on the psychosocial development and academic progress of adolescents with dyslexia to enhance understanding of adjustment factors, outcomes and support. The continuation of a qualitative longitudinal research project that focused on children between ten and twelve years of age, this volume revisits them between ages fourteen and sixteen. Through semi-structured interviews, personal narratives, and other assessments, these case studies relate the trials and tribulations associated with the development of adolescents with dyslexia from around the world and the challenges that parents face in supporting their children.

Adapting to Online and Blended Learning in Higher Education David Kember, Robert A. Ellis, Si Fan, Allison Trimble, 2023-05-19 Higher education has undergone a massive transformation in teaching and learning in a very short period of time since the onset of Covid-19. Students, teachers and universities have had to adopt online and blended learning, often with little or no experience or models of good practice to draw upon. It is clear that blended and online learning are here to stay. This book draws on research from universities that have adopted online and blended learning to facilitate the expansion and diversification of their intake; which resulted in considerable experience and expertise in online and blended teaching. The book describes a model, tested with qualitative and quantitative data, which shows how teachers can support the retention and success of online and blended learners with four high-quality pedagogical elements: bite-sized videos of interest and relevance; learning materials that are well organised and provide a clear learning roadmap; discussion forums which are set up and moderated so as to result in lively student-student and student-teacher interaction; and, online teachers being approachable and responsive to communication with individual students through email, phone and online communication platforms. This model is explained and profusely illustrated with examples from the teaching of award-winning teachers. This book introduces the concept of a spectrum from traditional to contemporary models of admission and course delivery in higher education. It explains how universities which have adopted a contemporary model, with high levels of blended and online learning, have been able to expand their intake and markedly diversify the student body. It discusses

how to support the retention and success of online and blended learners. Student support services are examined from the perspectives of service providers and online and blended learners and the case is made for support services being aligned with student needs. The book has a discussion of university management systems which utilise feedback at all levels to improve alignment between support service provision and student needs.

The Australian Government Muscling in on School Education Grant Rodwell, 2020-05-07 Despite the Australian Constitution implying school education to be a state responsibility, the Commonwealth has increasingly interfered with state school education. The Australian Government Muscling in on School Education therefore offers a historical account of this government involvement in Australian education, from federation to the present day, providing a much-needed, fully updated and relevant overview the topic. Arguing that education has become an arena for competing political forces, this book examines the powerful influence of the Commonwealth over education and the political motives behind it, exploring how politics influences aspects of the curriculum, teaching standards, assessment and reporting, funding, teacher selection and policy more broadly. Ultimately questioning whether this influence is in the interests of the members of the community who depend on education, the book holds government engagement in education to account. Taking the major epochs of federalism as an organizing framework, the book's chapters include explorations of: The efficiency dynamic and the progressive years (1919-39) Postwar imperatives and the Menzies years (1949-72) Coordinative federalism and treading softly: the Whitlam years (1972-5) and Fraser years (1975-83) Corporate federalism: the Hawke/Keating years (1983-96) Supply-side federalism and globalization: the Howard years (1996-2007) National control and the Rudd, Gillard, Abbott, Turnbull and Morrison years (2007-15) A thorough and significant examination of the historical engagement of the Australian government in education, this book is essential reading for student teachers and postgraduate students in education studies and politics.

National Testing in Schools Bob Lingard, Greg Thompson, Sam Sellar, 2015-11-06 Over the last two decades, large-scale national, or provincial, standardised testing has become prominent in the schools of many countries around the globe. National Testing in Schools: An Australian Assessment draws on research to consider the nature of national testing and its multiple effects, including: media responses and constructions such as league tables of performance pressures within school systems and on schools effects on the work and identities of principals and teachers and impacts on the experience of schooling for many young people, including those least advantaged. Using Australia as the case site for global concerns regarding national testing, this book will be an invaluable companion for education researchers, teacher educators, teacher education students and teachers globally.

Year 12 Margaret Batten,1988 The students in this study came from fourteen government schools in Victoria. They were enrolled either in a traditional Group 1 course or the STC course. Both courses led to the award of the Higher School Certificate. The study identified differences in perception of students in the two types of Year 12 course, and in the ways students' perceptions of themselves and their courses differed over time. The author found that STC Students were much more positive about the benefits of their course and its lasting influence on their development. She concluded that there were features of the STC course that would benefit all Year 12 students: student participation and cooperative learning; flexible assessment; and the STC's more comprehensive preparation for young adulthood.

Diary Poetics Anna Jackson,2010 The diary is a genre that is often thought of as virtually formless, a capacious hold-all for the writer's thoughts, and as offering unmediated access to the diarist's true self. Focusing on the diaries of Katherine Mansfield, Virginia Woolf, Antonia White, Joe Orton, John Cheever, and Sylvia Plath, this book looks at how six very different professional writers have approached the diary form with its particular demands and literary potential. As a sequence of separate entries the diary is made up of both gaps and continuities, and the different ways diarists negotiate these aspects of the diary form has radical effects on how their diaries represent both the world and the biographical self. The different published editions of the diaries by Katherine Mansfield, Virginia Woolf and Sylvia Plath show how editorial decisions can construct sometimes startlingly different biographical portraits. Yet all diaries are constructed, and all diary constructions depend on how the writer works with the diary form.
