Histories of Anthropology Gabriella D'Agostino,Vincenzo Matera,2025-04-09 This edited volume presents, for the first time, a history of anthropology regarding not only the well-known European and American traditions, but also lesser known traditions, extending its scope beyond the Western world. It focuses on the results of these traditions in the present. Taking into account the distinction between empire-building and nation-building anthropology, introduced by G. Stocking and taken up by U. Hannerz, the book investigates different histories of anthropology, especially in ex-colonial and marginal contexts. It highlights how the hegemonic anthropologies have been accepted and assimilated in local contexts, which approaches have been privileged by institutions and academies in different locations, how the anthropological approach has been modelled and adapted according to specific knowledge requirements related to the cultural features of different areas, and which schools emerge as the most consolidated today. Each chapter presents a “cultural history” of one of the historical-cultural and geo-political contexts that influenced and produced the specific disciplinary traditions. The chapters highlight the local contributions to the discipline, the influences that the world centres have on the peripheries, but also the ways in which the peripheries have “learned from the centres” in order to re-elaborate meaningful or otherwise recognisable disciplinary lines.

Fashioning Spain Francisco Fernández de Alba,Marcela T. Garcés,2021-05-06 Fashioning Spain is a cultural history of Spanish fashion in the 20th and 21st centuries, a period of significant social, political, and economic upheaval. As Spain moved from dictatorship to democracy and, most recently, to the digital age, fashion has experienced seismic shifts. The chapters in this collection reveal how women empowered themselves through fashion choices, detail Balenciaga's international stardom, present female photographers challenging gender roles under Franco's rule, and uncover the politicization of the mantilla. In the visual culture of Spanish fashion, tradition and modernity coexist and compete, reflecting society's changing affects. Using a range of case studies and approaches, this collection explores fashion in films, comics from la Movida, Rosalía's music videos, and both brick-and-mortar and virtual museums. It demonstrates that fashion is ripe with historical meaning, and offers unique insights into the many facets of Spanish cultural life.
