**The Nazarbayev Generation** Marlene Laruelle, 2019-08-30 This social and cultural analysis provides a new understanding of Kazakhstan's younger generations that emerged during the rule of Nursultan Nazarbayev, who has been presiding over Kazakhstan for the thirty years since the collapse of the Soviet Union. Half of Kazakhstan's population was born after he took power and have no direct memory of the Soviet regime. Since the early 2000s, they have lived in a world of political stability and relative material affluence, and have developed a strong consumerist culture. Even with growing government restrictions on media, religion, and formal public expression, they have been raised in a comparatively free country. This book offers the first collective study of the "Nazarbayev Generation," illuminating the diversity of the country's younger generations and the transformations of social and cultural norms that have taken place over the course of three decades. The contributors to this collection move away from state-centric, top-down perspectives in favor of grassroots realities and bottom-up dynamics in order to better integrate sociological data.

International Aspects of Recent Phenomena in Media and Culture Martin A. M. Gansinger, Ayman Kole, 2021-12-21 The volume provides an updated perspective on international aspects of various developments in media and culture. It includes discussions on how the digital environment contributes to the transformation and re-interpretation of existing phenomena, such as violence-on-demand in online movies, the internet appeal of virtual gangsta rappers, or the revived battle rap tradition, which operates outside the commercial limitations of the music industry and generates more views on social media than most recording artists. The book offers a new consideration of long-term trends and developments, and demonstrates in various examples how formerly marginal practices like gaming or the previously shunned Turkish movie industry have turned into influential tools of social change. In addition, the reciprocity of media content and political settings is underlined in a focus on the Arab world and the reconstruction of impulses from transnational media outlets to recent forms of citizen journalism, as well as in the case of governments' approaches to media policy in response to the COVID-19 pandemic. The book places the spotlight on pressing issues, such as the ongoing enforcement of information control in the name of public health or the local politics and practices that hinder the process of democratization in authoritarian systems.

**Sex, Love, and Migration** Alexia Bloch, 2017-12-15 Sex, Love, and Migration goes beyond a common narrative of women's exploitation as a feature of migration in the early twenty-first century, a story that features young women from poor

countries who cross borders to work in low paid and often intimate labor. Alexia Bloch argues that the mobility of women is marked not only by risks but also by personal and social transformation as migration fundamentally reshapes women's emotional worlds and aspirations. Bloch documents how, as women have crossed borders between the former Soviet Union and Turkey since the early 1990s, they have forged new forms of intimacy in their households in Moldova, Ukraine, Belarus, and Russia, but also in Istanbul, where they often work for years on end. *Sex, Love, and Migration* takes as its subject the lives of post-Soviet migrant women employed in three distinct spheres—sex work, the garment trade, and domestic work. Bloch challenges us to decouple images of women on the move from simple assumptions about danger, victimization, and trafficking. She redirects our attention to the aspirations and lives of women who, despite myriad impediments, move between global capitalist centers and their home communities.

**The Passenger: Turkey** The Passenger, 2021-03-23 Turkish culture and history is explored in the wide-ranging series that is like a literary vacation ( Publishers Weekly). The birth of the New Turkey, as the country's President Recep Tayyip Erdogan has called his own creation, is an exemplary story of the rise of illiberal democracies through the erosion of civil liberties, press freedom, and the independence of the judicial system. Turkey was a complex country long before the rise of its new sultan: Born out of the ashes of a vast multi-ethnic and multi-religious empire, Turkey has grappled through its relatively short history with the definition of its own identity. Poised between competing ideologies, secularism and piousness, a militaristic nationalism and exceptional openness to foreigners, Turkey defies easy labels and categories. Through the voices of some of its best writers and journalists—many of them in self-imposed exile— *The Passenger: Turkey* tries to make sense of this fascinating, maddening country, analyzing how it got to where it is now, and finding the bright spots of hope that allow its always resourceful, often frustrated population to continue living, and thriving. In this volume: *The Big Dig* by Elif Batuman *A Story of Dust and Light* by Burhan Sönmez *An Author Recommends* by Elif Shafak Plus: the thirty-year coup and the dam that is washing away 12,000 years of history, and more.

*Neo-Ottoman Imaginaries in Contemporary Turkey* Catharina Raudvere, Petek Onur, 2022-12-13 This book presents gendered readings of cultural manifestations that relate to the Ottoman era as a preferred past and a model for the future. By means of claims of authenticity and the distribution of imaginaries of a homogenous desirable alternative to everyday concerns, as well as invoking an imperial past at the national level. In this mode of thinking, shaped around a polarised worldview, Republican ideals serve as a counter-image to the promoted splendour and harmony of the Ottomans. Yet, the stereotypical gender roles inextricably linked with this neo-Ottoman imaginary remain largely unacknowledged, dissimulated in the construction of the desire of an idealised past. Our adaption of a cultural studies perspective in this volume puts special emphasis on agency, gender, and authority. It provides a shared ground for the interrogation, through the contributions comprising this project of knowledge production about the past in light of what constitutes acceptable

legitimacy in interpreting not only the canonical literature, but history at large.

**Türkiye's Soft Power: Re-imagined On Its Centennial** Cagatay Ozdemir, 2024-11-04 Soft power encompasses the ability to wield influence over others through skillful consensus-building, employing persuasive techniques, and cultivating a favorable image. In today's technologically advanced era, nations are adopting innovative diplomatic approaches; instead of solely relying on conventional state-to-state interactions, countries now prioritize engaging with societies through a variety of channels. Thus, in the evolving global landscape, where effective communication holds ever greater significance, public diplomacy takes center stage. Drawing from its robust historical legacy of strong statecraft, Türkiye strategically employs soft power to navigate diplomatic challenges, establish global connections, promote mutual understanding, dispel stereotypes, and encourage cross-cultural interactions. Through harnessing its cultural appeal and influence, Türkiye adeptly bridges gaps and facilitates meaningful exchanges among diverse communities. Within this framework, this book delves into the theoretical dimensions of soft power and its intersections with other principles and actions. Additionally, it conducts a historical analysis of Türkiye's soft power strategies, spanning from the time of the Ottoman Empire to the founding of the Republic and extending into contemporary times.
