Blockchain Babel Igor Pejic, 2019-03-03 WINNER: Independent Press Award 2020 - Technology Category Blockchain is the technology behind bitcoin and other crypto-currencies. According to Santander, it could save financial institutions \$15-20bn a year from 2022 onward. Most experts see an unprecedented potential, but many banks, payment processors and credit card companies fret that bitcoin entrepreneurs could cast a pall over their core business. Whatever the position of blockchain, many voices are shouting from different angles, creating a cacophony of confusion including tech-evangelists, anarcho-libertarians and industry experts. But while everybody in IT and banking seems to have an opinion on the blockchain, there is little systematic research, no strategic analysis. Blockchain Babel is the ultimate guide to the most disruptive technology to have entered the finance industry in recent years. Blockchain Babel looks at blockchain alongside innovation diffusion, competitive dynamics and management strategy. Shortlisted as one of the three best business book proposals by McKinsey and the Financial Times for the Bracken Bower Prize in 2016, this is a must-read for business leaders and aspiring leaders wanting to grasp blockchain and put it into context and understand the practical implications it may have.

Women in the New Asia Yayori Matsui,1999-03 This remarkable book charts the effects of the economic boom on women across Asia. Yori Matsui, one of Japan's leading journalists, demonstrates how Asian women are confronting rapid economic development which is accompanied by widespread infringement of human rights. Analysing the lives of women in Japan, Thailand, the Philippines, Taiwan, China, Nepal, and Korea, the author explores * the impact of globalization - including the feminization of migration and an increase in the trafficking of women * sexual violence - from the 'comfort women' to child prostitution * development projects - the cause of mass deforestation and displacement of communities. However she also describes women's credit co-ops, democratization movements and unionization of women workers. She meets women who have organised anti-logging blockades, literacy classes and campaigns against trafficking. She finds

women across Asia resisiting the dictatorship od development, the feminization of poverty and patriarchal values. Throughout the continent she finds the seeds of hope for a new Asia.
