C. S. Forester and the Hornblower Saga Sanford Sternlicht,1999-11-01 Sternlicht includes little-known facts about Forester's background, his days in Hollywood as a screenwriter, and the genesis of the models for the major characters in the Saga-many of whom were friends and acquaintances of Forester's. Sternlicht discusses extensively the research and writing techniques Forester used in his. depiction of naval warfare and specific campaigns and actions of the Napoleonic period with actual procedures, events, and outcomes. In addition, Sternlicht offers readings and historical background to Forester's two other great historical novels, *The African Queen* and *The General*.

The Sea in World History Stephen K. Stein,2017-04-24 This two-volume set documents the essential role of the sea and maritime activity across history, from travel and food production to commerce and conquest. In all eras, water transport has served as the cheapest and most efficient means of moving cargo and people over any significant distance. Only relatively recently have railroads and aircraft provided an alternative. Most of the world's bulk goods continue to travel primarily by ship over water. Even today, 95 percent of the cargo that enters and leaves the United States does so by ship. Similarly, people around the world rely on the sea for food, and in recent years, the sea has become an important source of oil and other resources, with the longterm effects of our continuing efforts to extract resources from the sea further highlighting environmental concerns that range from pollution to the exhaustion of fish stocks. This chronologically organized two-volume reference addresses the history of the sea, beginning with ancient civilizations (4000 to 1000 BCE) and ending with the modern era (1945 to the present day). Each of the eight chapters is further broken down into sections that focus on specific nations or regions, offering detailed descriptions of that area of the world and shorter entries on specific topics, individuals, and events. The book spans maritime history, covering major seafaring peoples and nations; famous explorers, travelers, and commanders; events, battles, and wars; key technologies, including famous ships; important processes and ongoing events, such as piracy and the slave trade; and more. Readers will benefit from dozens of primary source documents—ranging from ancient Egyptian tales of seafaring to texts by renowned travelers like Marco Polo, Zheng He, and Ibn Battuta—that provide

firsthand accounts from the age of discovery as well as accounts of battle from World War I and II and more modern accounts of the sea.

Nelson's Navy in Fiction and Film Sue Parrill, 2009-12-21 This book provides summaries and analyses of more than 250 novels and nearly 30 films and examines the extent to which they accurately reflect the history, mores and manners of the period--and the extent to which they reveal the ideas and attitudes of their authors and of the periods in which they were written. Particular emphasis is placed on the nature and importance of the war at sea for the British and on the role of famous naval officers such as Nelson, Pellew, Duncan, Smith and Cochrane in the defeat of Napoleon.

Captain Horatio Hornblower Cecil Scott Forester, 1967 This omnibus edition of the Hornblower Saga contains the first three novels C.S. Forester wrote about Horatio Hornblower ? Beat to Quarters, Ship of the Line, and Flying Colours. During the Age of Sail, mastery of the art of naval warfare was daunting ? the necessary knowledge and skill required was massive, the need for resourceful leadership essential, and the ability to face war and savagery critical. The complexity of the ships will stagger, the battles will haunt your dreams, and the men will consume your imagination. C.S. Forester brings it all to life. Beat to Quarters: (The Happy Return in the U.K.) In June 1808, Captain Hornblower is assigned command of the 36-gun frigate HMS Lydia with orders to sail to the Pacific coast of Nicaragua on a secret mission to deliver armaments and form an alliance against England's military enemy ? Spain. Hornblower quickly discovers that his contact, the revolutionary leader, Alvarado, is a deranged man who imagines himself to be the descendant of gods and who has been killing all who oppose him. However, Hornblower does exactly as ordered and delivers the arms in order to beat to quarters, or prepare for combat. In the midst of this struggle, Hornblower must also provide safe passage for an aristocratic English noblewoman, Lady Barbara Wellesley, whose political connections must not be slighted. There is another desperate single-ship action, another glimpse of the madman, Alvarado, more Spanish intrigue, and romance held back by political caution before Hornblower can manage to turn his ship for the voyage home. Ship of the Line: It's now May 1810. Hornblower's success on the HMS Lydia

earned him fame, but no fortune, and as a reward he is assigned command of his first ship-of-the-line, the seventy-four gun HMS Sutherland. Ugly and undesirable, the Sutherland is also 250 men short of a full crew. Undaunted, Hornblower uses his wits and meager financial resources to find the men he needs (i.e. kidnaps thieves and impresses a few convicts), purchase armaments, and prepare his ship to join a prolonged blockade along the Spanish coast. Shaken about a tragedy at home and conflicted about his relationship with his wife, Hornblower must stay true to his duty. He and his crew face capture and defeat as they are forced to fight a fleet of French ships with daring but crippling results. With many of his men killed or wounded and his ship in ruins, Hornblower must lower his flag and do the unthinkable ? surrender his ship to the French. Flying Colours: A disgraced and shipless Hornblower, his first lieutenant, Bush, and his coxswain, Brown, are held prisoner in a French-occupied Spanish fortress on the Mediterranean Sea. Napoleon is keen to make an example of a British subject and sends one of his personal aides to accompany Hornblower and his two crew members to Paris for trial and probable execution. During transport in a snowstorm, they succeed in overthrowing their escort and escape in a small boat down the Loire River. The three find refuge with a nobleman and remain in hiding for the rest of the winter. Hornblower has an intense but brief affair with the nobleman's widowed daughter-in-law, but when Spring arrives, he and Bush and Brown make their way to the sea and escape to England. Unlike previous Hornblower adventures, naval action is not key to this rousing and splendidly detailed story. Flying Colours departs momentarily from scenes of sea battle to engage the reader in Napoleonic era history and a deeper examination of Hornblower's imperfect but ever captivating character.
