Reading Russian Literature, 1980-2024 Otto Boele, Dorine Schellens, 2024-10-09 This edited collection focuses on the nexus between literary consumption, memory and collective identity formation in Russia from the 1980s until today. It challenges perceived notions about the reduced social significance and identity-building potential of contemporary Russian literature. Drawing on a diverse set of primary source materials, ranging from memoirs, diaries and essays to fan art and BookToks, the collection seeks to do justice to the diversity of an enormous reading public that is often routinely referred to as the 'Russian reader'. The case studies explore the reading habits and self-understanding of very different audiences that are dispersed along regional, gender, generational and technological divides. In doing so, this collection examines both the continuities and shifts in the multifaceted relationship between literary consumption, memory and identity during the profound and ongoing transformations in Russian society and its literary landscape.

Academic Writing Now - with Readings David Starkey, 2024-03-11 *Academic Writing Now: A Brief Guide for Busy Students* is a rhetoric designed to cover the basics of a college writing course in a concise, student-friendly format. Anything inessential to the business of college writing has been excluded. Each chapter concentrates on a crucial element of composing an academic essay and is capable of being read in a single sitting. The book is loaded with "timesaver tips," ideas for making the most of the student's time, along with occasional warnings to avoid common errors made by student writers. Each short chapter concludes with questions and suggestions designed to reinforce the chapter's key elements and facilitate small-group interactions and trigger class discussion. A compact selection of lively, topical readings provides thought-provoking examples for analysis and discussion.

An Eerdmans' Handbook Colin Chapman, 1981 This Handbook presents the reader with a comprehensive, clear and stimulating guide to the world's religions, past and present. It is divided into seven sections: The development of religion; The ancient religions : Egypt, Greece, Rome ... The primal religions, illustrated with case studies from many different parts of the world today; Living religions of the East: Hinduism, Buddhism, Jainism, Parsis, Sikhs... People of a book: Judaism, Islam;

Religion: or the fulfilment of religion? : Christianity; Rapid fact-finder. On the major Eastern and world religions, articles give information on the history, scriptures, worship, beliefs and practices of the various faiths. More than 50 specialist authors from many different countries have contributed to the Handbook. The aim has been to describe each faith clearly and objectively, 'as it is'. The evidence is presented: the response -- whether the faiths of mankind are being studied simply from academic interest or as part of a deep, personal search -- is left to the reader. This Handbook, like its best-selling predecessors, is fully illustrated throughout. It contains more than 200 photographs, 100 in full colour. Information is also presented in visual form by maps and charts. The Rapid Fact-finder section and Index make it an ideal reference book. - Jacket flap. Chapters on ancient religions, primal religions, Hinduism, Buddhism, Judaism, Islam, and Christianity. Over 200 photos and a glossary.
