Zygmunt Bauman

Retrotopia Zygmunt Bauman, 2017-05-23 We have long since lost our faith in the idea that human beings could achieve human happiness in some future ideal state—a state that Thomas More, writing five centuries ago, tied to a topos, a fixed place, a land, an island, a sovereign state under a wise and benevolent ruler. But while we have lost our faith in utopias of all hues, the human aspiration that made this vision so compelling has not died. Instead it is re-emerging today as a vision focused not on the future but on the past, not on a future-to-be-created but on an abandoned and undead past that we could call retrotopia. The emergence of retrotopia is interwoven with the deepening gulf between power and politics that is a defining feature of our contemporary liquid-modern world—the gulf between the ability to get things done and the capability of deciding what things need to be done, a capability once vested with the territorially sovereign state. This deepening gulf has rendered nation-states unable to deliver on their promises, giving rise to a widespread disenchantment with the idea that the future will improve the human condition and a mistrust in the ability of nation-states to make this happen. True to the utopian spirit, retrotopia derives its stimulus from the urge to rectify the failings of the present human condition—though now by resurrecting the failed and forgotten potentials of the past. Imagined aspects of the past, genuine or putative, serve as the main landmarks today in drawing the road-map to a better world. Having lost all faith in the idea of building an alternative society of the future, many turn instead to the grand ideas of the past, buried but not yet dead. Such is retrotopia, the contours of which are examined by Zygmunt Bauman in this sharp dissection of our contemporary romance with the past.

CrossFit Marcelle C. Dawson, Steven J. Jackson, 2025-09-30 This edited collection brings together the work of key scholars to explore the various dimensions, themes and controversies – the contested terrain of CrossFit – from a range of perspectives. CrossFit has emerged as a prominent fixture across the global sporting and cultural landscape. Developed initially as an exercise programme to promote functional fitness, CrossFit has undergone a rapid metamorphosis into a global, multi-dimensional, multi-million-dollar industry. Branded as ‘the sport of fitness’, it is part sport, part fitness, but also part exercise-military-regime with religious underpinnings. Perhaps best known for its unconventional approach to fitness that combines high intensity exercises with functional fitness performed in a group setting, CrossFit has surpassed the growth of well-known fitness franchises. It boasts approximately 15,000 affiliates worldwide, while, by comparison, the world’s largest gym franchise, Anytime Fitness, has around 4,500 franchises globally. Beyond its comprehensive fitness

regime and global appeal, CrossFit claims to offer a supportive community, which aims to ensure that people exercise together as a group versus rather than as isolated individuals in a group context, or what has been referred to as 'together alone'. The tight-knit – almost insular – nature of this community, as well as some of its more extreme practices, have led followers and detractors alike to characterise CrossFit as a cult. Yet, despite its exalted position within the popular physical culture imaginary, critical scholarly analysis of CrossFit has only recently emerged. This book will appeal to students of sociology, media studies, sport studies, and/ or gender studies.

The Routledge Handbook of Nostalgia Tobias Becker, Dylan Trigg, 2024-08-21 The Routledge Handbook of Nostalgia serves as a guide to the complex and often contradictory concept of nostalgia, as well as the field of “nostalgia studies” more broadly. Nostalgia is an area of intense interest across several disciplines as well as within society and culture more generally. This handbook brings together an international, interdisciplinary team of researchers to survey the current landscape and identify common trends, achievements, and gaps in existing literature. Comprising 45 chapters, the volume covers the following topics: Disciplinary perspectives of nostalgias including philosophy, history, literature, and psychology. Conceptual aspects of nostalgia including homesickness, temporality, affectivity, and memory. Historical and political dimensions such as afro-nostalgia, populism, feminism, and queer nostalgia. Spatial and material aspects of nostalgia including ruins, regionalism, and objects. Media-related nostalgia such as analogue and digital nostalgia, reboots, revivals, gaming, and graphic novels. Essential reading for students and researchers working in nostalgia studies, this book will also be beneficial to related disciplines such as philosophy, anthropology, geography, history, and literature; cultural, media, heritage, museum, and film studies courses; and more generally for readers interested in how the past is represented and used in the present.

Post-Communist Transformations in Baltic Countries Zenonas Norkus, 2023-11-21 This Open access book provides a survey of the economic, health, and somatic progress of Baltic countries during the period 1918–2018, framed by the outline of the historical-sociological theory of modern social restorations, as originally conceived by the Austrian-American comparative historian Robert A. Kann. The author reworks Kann's theory to analyse post-communist transformations in the Baltic region. The book argues that the purpose of modern social restorations is to make restoration societies safe against a recurrence of revolution. There were two waves of modern social restorations: post-Napoleonic and post-communist. Most post-Napoleonic restorations were brief, because they failed to economically and socially outperform the pre-revolutionary and post-revolutionary systems. It considers Baltic restorations as laboratory cases of second-wave modern social restorations, because they encompass a triple restoration of the nation-state, capitalism, and democracy. The book assesses the performance success of Baltic restorations by comparing economic and social progress of Baltic countries during the periods of original independence (1918–1940), foreign-imposed state socialism (1940–1990), and restored independence

(since 1990). It then elaborates the criteria to assess the ultimate performance success of these restorations by 2040, when restored Baltic states may endure longer than their ancestors in 1918–1940 and the complete foreign occupations era (1940–1990). The author, an expert in historical sociology, uses extensive historical-statistical data in cross-time comparisons to develop his analysis and create future projections. This book is of wide interest to sociologists, social demographers, political scientists, and economists studying the Baltic region. This is an open access book.

Senses of the Future Gerard Delanty, 2024-03-04 The future has become a problem for the present. Almost every critical issue is now understood and experienced through the prism of the future since this is the primary focus for the playing out of crises. *Senses of the Future* offers a wide-ranging discussion of theories of the future. It covers the main ideas of the future in modern thought and explores how we should view the future today in light of a plurality of very different and conflicting visions. The key contribution of this book is to bring together the different approaches with an account that is grounded in sociological and philosophical analysis as opposed to visions of the future that are inspired by extreme visions of catastrophe or approaches that see the future as only the continuation of the present. Given a revival of apocalyptic visions of the 'end times' and dystopian views of the future of human societies, there is urgent need for a new approach on how we should imagine the future. The author explores the future as a field of tensions that is revealed in narratives, utopian desires, hope, imaginaries, and social struggles concerning the potential possibilities of the present: the future does not just arrive; it has to be fought for. This book is an important contribution to a critical sociology of the future. It is both a work of reconstruction and critique grounded in a historical and philosophical hermeneutics of the future.

Europe: Continent of Conspiracies Andreas Önnarfors, André Krouwel, 2021-04-29 This edited volume investigates for the first time the impact of conspiracy theories upon the understanding of Europe as a geopolitical entity as well as an imagined political and cultural space. Focusing on recent developments, the individual chapters explore a range of conspiratorial positions related to Europe. In the current climate of fear and threat, new and old imaginaries of conspiracies such as Islamophobia and anti-Semitism have been mobilised. A dystopian or even apocalyptic image of Europe in terminal decline is evoked in Eastern European and particularly by Russian pro-Kremlin media, while the EU emerges as a screen upon which several narratives of conspiracy are projected trans-nationally, ranging from the Greek debt crisis to migration, Brexit and the COVID-19 pandemic. The methodological perspectives applied in this volume range from qualitative discourse and media analysis to quantitative social-psychological approaches, and there are a number of national and transnational case studies. This book will be of great interest to students and researchers of extremism, conspiracy theories and European politics.

Zukunftsbilder und Zukunftsforschung Reinhold Popp, In diesem Buch geht es um Zukunftsbilder, also um Vorstellungen vom Leben in der Welt von morgen und übermorgen. In fünf Beiträgen werden forschungsbasierte Antworten auf vier wichtige Zukunftsfragen gegeben: Wie lassen sich Zukunftsbilder wissenschaftlich fundiert erheben und

interpretieren? Gibt es einen Zusammenhang zwischen utopischen Zukunftsbildern und retrotopischen Nostalgiebildern? Welchen Beitrag leistet die Zukunftsbildung zur Entwicklung von praktikablen Zukunftsbildern und Zukunftskompetenzen? Wie beeinflusst die Visualisierung komplexer Zukunftsbilder die öffentlichen Zukunftsdiskurse?

Retrotopia Zygmunt Bauman, 2017-09-07T00:00:00+02:00 Abbiamo invertito la rotta e navighiamo a ritroso. Abbiamo invertito la rotta e navighiamo a ritroso. Il futuro è finito alla gogna e il passato è stato spostato tra i crediti, rivalutato, a torto o a ragione, come spazio in cui le speranze non sono ancora screditate. Sono gli anni della retrotopia. La direzione del pendolo della mentalità e degli atteggiamenti pubblici è cambiata: le speranze di miglioramento, che erano state riposte in un futuro incerto e palesemente inaffidabile, sono state nuovamente reimpiegate nel vago ricordo di un passato apprezzato per la sua presunta stabilità e affidabilità. Con un simile dietrofront il futuro, da habitat naturale di speranze e aspettative legittime, si trasforma in sede di incubi: dal terrore di perdere il lavoro e lo status sociale a quello di vedersi riprendere le cose di una vita, di rimanere impotenti a guardare mentre i propri figli scivolano giù per il pendio del binomio benessere-prestigio, di ritrovarsi con abilità che, sebbene faticosamente apprese e assimilate, hanno perso qualsiasi valore di mercato. La via del futuro somiglia stranamente a un percorso di corruzione e degenerazione. Il cammino a ritroso, verso il passato, potrebbe trasformarsi in un itinerario di purificazione dai danni che il futuro ha prodotto ogni qual volta si è fatto presente.

La dieta mediterranea Carmelo Guarino, 2024-02-28 Sono passati 14 anni da quando l'UNESCO ha iscritto la Dieta mediterranea nella Representative list of the intangible cultural heritage of humanity. Una decisione adottata nella consapevolezza della centralità del ruolo svolto dai patrimoni culturali nei confronti delle popolazioni e delle comunità rispetto alle minacce e ai rischi della contemporaneità. Non appare casuale che nella premessa della Convention for the safeguarding of the intangible cultural heritage, l'UNESCO abbia fatto riferimento al panorama normativo internazionale in tema di diritti umani. In questo modo l'UNESCO ha posto le premesse per un'idea di patrimonio culturale immateriale che sia origine e testimonianza di diversità culturale e allo stesso tempo garanzia di sviluppo sostenibile. Alla fine di dicembre 2023 gli elementi ricompresi nella Lista della Convenzione del 2003 sono 730 diffusi in 145 Paesi. Alla stessa data, 19 sono gli elementi italiani della Lista, ma solo la Dieta mediterranea si rivela come una realtà multidimensionale a elevata complessità. Il presente volume nasce dall'esigenza di ricomporre in una visione d'insieme la realtà della Dieta mediterranea che, configurandosi come fenomeno sociologicamente rilevante, permea visioni e rappresentazioni, dinamiche relazionali e stili di vita di milioni di persone.

44 Letters From the Liquid Modern World Zygmunt Bauman, 2010-06-21 This liquid modern world of ours, like all liquids, cannot stand still and keep its shape for long. Everything keeps changing - the fashions we follow, the events that intermittently catch our attention, the things we dream of and things we fear. And we, the inhabitants of this world in flux, feel the need to adjust to its tempo by being 'flexible' and constantly ready to change. We want to know what is going on and

what is likely to happen, but what we get is an avalanche of information that threatens to overwhelm us. How are we to sift the information that really matters from the heaps of useless and irrelevant rubbish? How are we to derive meaningful messages from senseless noise? We face the daunting task of trying to distinguish the important from the insubstantial, distill the things that matter from false alarms and flashes in the pan. Nothing escapes scrutiny so stubbornly as the ordinary things of everyday life, hiding in the light of deceptive and misleading familiarity. To turn them into objects of attention and scrutiny, they must first be torn out from that daily routine: the apparently familiar must be made strange. This is precisely what Zygmunt Bauman seeks to do in these 44 letters: each tells a story drawn from ordinary lives, but tells it in order to reveal an extraordinariness that we might otherwise overlook. Arresting, revealing, disconcerting, these snapshots of life by the most brilliant analyst of our liquid modern world will appeal to a wide readership.

Liquid Modernity Zygmunt Bauman, 2013-07-10 In this new book, Bauman examines how we have moved away from a 'heavy' and 'solid', hardware-focused modernity to a 'light' and 'liquid', software-based modernity. This passage, he argues, has brought profound change to all aspects of the human condition. The new remoteness and un-reachability of global systemic structure coupled with the unstructured and under-defined, fluid state of the immediate setting of life-politics and human togetherness, call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history. This book is dedicated to this task. Bauman selects five of the basic concepts which have served to make sense of shared human life - emancipation, individuality, time/space, work and community - and traces their successive incarnations and changes of meaning. *Liquid Modernity* concludes the analysis undertaken in Bauman's two previous books *Globalization: The Human Consequences* and *In Search of Politics*. Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today.

Retrotopia Zygmunt Bauman, 2019

Liquid Life Zygmunt Bauman, 2013-04-18 'Liquid life' is the kind of life commonly lived in our contemporary, liquid-modern society. Liquid life cannot stay on course, as liquid-modern society cannot keep its shape for long. Liquid life is a precarious life, lived under conditions of constant uncertainty. The most acute and stubborn worries that haunt this liquid life are the fears of being caught napping, of failing to catch up with fast moving events, of overlooking the 'use by' dates and being saddled with worthless possessions, of missing the moment calling for a change of tack and being left behind. Liquid life is also shot through by a contradiction: it ought to be a (possibly unending) series of new beginnings, yet precisely for that reason it is full of worries about swift and painless endings, without which new beginnings would be unthinkable. Among the arts of liquid-modern living and the skills needed to practice them, getting rid of things takes precedence over their acquisition. This and other challenges of life in a liquid-modern society are traced and unravelled in the successive chapters of this new book by one of the most brilliant and original social thinkers of our time.

Wasted Lives Zygmunt Bauman, 2013-04-26 The production of 'human waste' – or more precisely, wasted lives, the 'superfluous' populations of migrants, refugees and other outcasts – is an inevitable outcome of modernization. It is an unavoidable side-effect of economic progress and the quest for order which is characteristic of modernity. As long as large parts of the world remained wholly or partly unaffected by modernization, they were treated by modernizing societies as lands that were able to absorb the excess of population in the 'developed countries'. Global solutions were sought, and temporarily found, to locally produced overpopulation problems. But as modernization has reached the furthest lands of the planet, 'redundant population' is produced everywhere and all localities have to bear the consequences of modernity's global triumph. They are now confronted with the need to seek – in vain, it seems – local solutions to globally produced problems. The global spread of the modernity has given rise to growing quantities of human beings who are deprived of adequate means of survival, but the planet is fast running out of places to put them. Hence the new anxieties about 'immigrants' and 'asylum seekers' and the growing role played by diffuse 'security fears' on the contemporary political agenda. With characteristic brilliance, this new book by Zygmunt Bauman unravels the impact of this transformation on our contemporary culture and politics and shows that the problem of coping with 'human waste' provides a key for understanding some otherwise baffling features of our shared life, from the strategies of global domination to the most intimate aspects of human relationships.

Life in Fragments Zygmunt Bauman, 1995-06-12 Life in Fragments is a continuation of the themes and motifs explored in Zygmunt Bauman's acclaimed study, Postmodern Ethics (Blackwell, 1993). Described by Richard Sennett as a major event in social theory, Postmodern Ethics subverted the pieties of subversion which rule the postmodern imagination, arguing for an ethic of being with the Other, beyond the fashionable imperative of anything goes or the deconstruction of identity through difference.
