Paul Carus

The Psychology of Quality of Life M. Joseph Sirgy, 2012-06-20 The second edition will be an update and further elaboration of the literature related to subjective well-being, happiness, and life satisfaction. It will have a new substantial section that focuses on reviewing much of the literature of subjective well-being within specific life domains (social life, material life, leisure life, work life, community life, spiritual life, family life, health life, sex life, travel life, etc.) In the 1st edition the research in these various life domains was discussed only briefly. The second edition will maintain the same organizational structure of the first edition; that is, Part 1 will focus on introduction (definitions and distinctions; examples of measures of subjective well-being, happiness, and life satisfaction; and motives underlying subjective well-being). Part 2 will focus on psychological strategies that allow people to optimize subjective well-being by engaging in psychological processes related to the relationship between and among life domains (e.g., social life, family life, love life, spiritual life, community life, financial life, etc.) This part will contain four chapters related to these various “inter-domain” processes: bottom-up spillover, top-down spillover, horizontal spillover, and compensation. Part 3 of the book will focus on “intra-domain” psychological strategies designed to optimize subjective well-being. These include re-evaluation based on personal history, re-evaluation based on self-concept, re-evaluation based on social comparison, goal selection, goal implementation and attainment, and re-appraisal. Part 4 of the book will focus on balance processes—how people attempt to create balance in their lives using psychological processes within specific life domains (intra-domain strategies) and processes that relate one domain to another (inter-domain strategies).

Quality of Life for Handicapped People Roy I. Brown, 2021-06-30 First published in 1988, *Quality of Life for Handicapped People* examines developments and innovations in research and practice concerning the quality of life for those with disabilities. The book centres on the topic of rehabilitation education, with a particular focus on issues relating to quality of life, including what is meant by 'quality of life' and the measures and systems required to assess the variables involved. It highlights the significance of rehabilitation education in underlining the key issue of how individuals feel about themselves and how they perceive the services available to them for the purpose of rehabilitation. It considers the importance of environment and the improvement of environment in increasing quality of life, and examines a range of vocational and social programmes from a variety of perspectives. *Quality of Life for Handicapped People* will be of use to those with an interest in the history and development of rehabilitation education.

Queering Women's and Gender Studies Begoña Crespo, Isabel Moskowich, 2016-12-14 This volume brings together approaches to, and perspectives on, English, Spanish, and Galician language, literature, and culture from the fields of women's, gender, and queer studies. As its title reflects, the book adopts an inclusive attitude to the so-called "others" present in these fields. Since queer theory first appeared in academia, its influence has been notorious within both women's and genders. As such, it is vital to "queer" academia so that it re-conceptualises its foundations; indeed, the contributions here serve to alter the reader's consciousness of the terms "woman" and "gender". The first chapters concern the field of discourse analysis. Two discuss the written work of female scientists in the Late Modern Era and their role in society. Another deals with women's political discourse in South America. In the following section on literature, the contributors question the current heteronormative and androcentric ways of reading texts. The works on culture study contemporary genres, such as video games, video clips, and pieces of news, and take readers away from Europe. The Epilogue draws on the

book's intersubjective spirit to propose a dialogue, among multiple disciplines and the people who practise them. As such, the volume reflects the eclectic nature of queer, women's, and gender studies, and their world-wide acceptance by the scholarly community.
