Music After the Fall Tim Rutherford-Johnson, 2017-02 *Music after the Fall* is the first book to survey contemporary Western art music within the transformed political, cultural, and technological environment of the post-Cold War era. In this book, Tim Rutherford-Johnson considers musical composition against this changed backdrop, placing it in the context of globalization, digitization, and new media. Drawing connections with the other arts, in particular visual art and architecture, he expands the definition of Western art music to include forms of composition, experimental music, sound art, and crossover work from across the spectrum, inside and beyond the concert hall. Each chapter is a critical consideration of a wide range of composers, performers, works, and institutions, and develops a broad and rich picture of the new music ecosystem, from North American string quartets to Lebanese improvisers, from electroacoustic music studios in South America to ruined pianos in the Australian outback. Rutherford-Johnson puts forth a new approach to the study of contemporary music that relies less on taxonomies of style and technique than on the comparison of different responses to common themes of permission, fluidity, excess, and loss.

Posttraumatic Culture in Spanish and Latin American Theater Henry James Morello, 2025-01-18 In the twentieth century, Argentina, Chile, and Spain suffered dictatorships marked by disappearances, torture, and murder, which left wounds that, in some cases, have yet to heal. Moving these public wounds into the realm of performance, many playwrights sought to address these national traumas by creating what I call “posttraumatic theater.” This book argues that these plays attempt to represent national crises by taking on stylistic features that mimic the symptoms of posttraumatic stress disorder. Drawing on trauma studies, clinical psychology, and neuroscience, *Masking the Past* examines the commonalities in posttraumatic theater to create a coherent theoretical foundation by which we can explore other cultural products that arise in response to traumatic events.

Music Education for the Deaf Eleanor M. Edwards, 1974

Musical Opinion and Music Trade Review, 1889

Writings through John Cage's Music, Poetry, and Art David W. Bernstein, Christopher Hatch, 2010-06-15 This volume looks at the creative work of the great avant-gardist John Cage from an exciting interdisciplinary perspective, exploring his activities as a composer, performer, thinker, and artist. The essays in this collection grew out of a pivotal gathering during

which a spectrum of participants including composers, music scholars, and visual artists, literary critics, poets, and filmmakers convened to examine Cage's extraordinary artistic legacy. Beginning with David Bernstein's introductory essay on the reception of Cage's music, the volume addresses topics ranging from Cage's reluctance to discuss his homosexuality, to his work as a performer and musician, and his forward-looking, provocative experimentation with electronic and other media. Several of the essays draw upon previously unseen sketches and other source materials. Also included are transcripts of lively panel discussions among some of Cage's former colleagues. Taken together, this collection is a much-needed contribution to the study of one of the most significant American artists of the twentieth century.

The Handbook of Neurologic Music Therapy is a comprehensive landmark text presenting a new and revolutionary model of music in rehabilitation, therapy and medicine that is scientifically validated and clinically tested. In this second edition, the book is fully updated and revised with new research updates in the field and extends the original clinical chapter content.

Bronze by Gold Sebastian D.G. Knowles, 2014-01-21 The contributors to this volume investigate several themes about music's relationship to the literary compositions of James Joyce: music as a condition to which Joyce aspired; music theory as a useful way of reading his works; and musical compositions inspired by or connected with him.

The New Grove Dictionary of Music and Musicians: Borowski to Canobbio Stanley Sadie, John Tyrrell, 2001 This reference classic has approximately doubled in size since its last publication 20 years ago, and the expansion involves more than the thorough revision and addition of articles about music of the past. More articles about 20th-century composers and composer-performers have been added, as well as topical articles about the gender-related, multicultural, and interdisciplinary ways that music is now being studied. Add to these changes that New Grove is also available online, making it a source that would have made its many-faceted creator Sir George Grove proud--Outstanding reference sources, American Libraries, May 2002.
