Progress on the level of water stress Food and Agriculture Organization of the United Nations,UN Water,2021-08-23 The global indicator on water stress tracks the level of pressure that human activities exert over natural freshwater resources, indicating the environmental sustainability of the use of water resources. A high level of water stress has negative effects on social and economic development, increasing competition and potential conflict among users. This calls for effective supply and demand management policies. Securing environmental flow requirements is essential to maintaining ecosystem health, resilient, and available for future generations. This indicator addresses the environmental component of target 6.4. In this report, you can learn more about the progress on the level of water stress globally, by country, and by major basin. More

information and the methodological guidance can be found at: www.fao.org/sustainable-development-goals/indicators/642
This report is part of a series that tracks progress towards the various targets set out in SDG 6 using the SDG global indicators. Medication Therapy Management, Second Edition Karen Lynn Whalen,2018-04-05 Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. Discover the medication therapy management solution—with this definitive, up-to-date sourcebook The need to improve the use of medications has major implications for the nation's healthcare system. Burdened by high costs and an ineffective process of providing medication therapy, the current prescription drug environment poses considerable risks to patient safety. Medication therapy management (MTM) is designed to address these deficiencies—and this essential text gives pharmacists all the right MTM tools to identify and eliminate drug-related problems that can cause potentially severe adverse events. Medication Therapy Management delivers the most relevant insights into MTM—a vital service that is gaining momentum due to the rapid growth of patient-centered care, healthcare information technology, new practice models (e.g., Patient Centered Medical Home), and new payment methods. Cohesively organized, this expert-authored guide begins with an introduction to data sets for MTM, covering essential topics such as establishing quality and performance improvement, the payer perspective, conducting the comprehensive medication review, and reimbursement. The second part of Medication Therapy Management reviews MTM data sets for a wide spectrum of disorders, from asthma and atrial fibrillation to HIV and heart disease. Enhanced by the latest perspectives on therapeutics, including completely up-to-date tables throughout, Medication Therapy Management is a practical, skill-building roadmap for optimizing drug therapy and enhancing patient outcomes. Features • Everything you need to provide successful MTM services and empower patients to take an active role in their medication and overall healthcare • Turnkey disease-based data sets help you apply proven MTM principles to common disorders • Helpful appendices cover therapy management characteristics and answers to key questions; the MTM practice model and training survey; and the Medicare Part D MTM program standardized format

Promoting Pedestrian and Bicyclist Safety to Hispanic Audiences Eloisa Raynault,2010-08 Report of a project which had the following objectives: (1) the development of a plan for marketing pedestrian and bicycle safety issues/concerns

to different Hispanic populations in the United States; and (2) the development of materials in different formats that will be used to promote pedestrian and bicycle safety issues in the Hispanic community. This marketing plan presents the recommendations about the audience, the safety issues to be addressed, the types and format of messages, the media, and the potential methods of dissemination of the outreach materials. Also included in this marketing plan are the results of the background research conducted in the development of the marketing plan. Illustrations.
