

The 100 Novel Series

Clifford Smyth

The 100 Kass Morgan, 2013-09-03 The first book in the New York Times bestselling series that inspired the hit CW television show. No one has set foot on Earth in centuries – until now. Ever since a devastating nuclear war, humanity has lived on spaceships far above Earth's radioactive surface. Now, one hundred juvenile delinquents -- considered expendable by society -- are being sent on a dangerous mission: to recolonize the planet. It could be their second chance at life...or it could be a suicide mission. CLARKE was arrested for treason, though she's haunted by the memory of what she really did. WELLS, the chancellor's son, came to Earth for the girl he loves -- but will she ever forgive him? Reckless BELLAMY fought his way onto the transport pod to protect his sister, the other half of the only pair of siblings in the universe. And GLASS managed to escape back onto the ship, only to find that life there is just as dangerous as she feared it would be on Earth. Confronted with a savage land and haunted by secrets from their pasts, the hundred must fight to survive. They were never meant to be heroes, but they may be mankind's last hope.

Ever since nuclear war destroyed our planet, humanity has been living on city-like spaceships hovering above the toxic surface. As far as anyone knows, no one has stepped foot on Earth in centuries--that is, until one hundred juvenile delinquents are sentenced to return and recolonize the hostile land. The future of the human race rests in their hands, but nothing can prepare the 100 for what they find on this strange and savage planet. Don't miss the book series that inspired the hit TV show. New York Times bestseller The 100, Day 21, Homecoming, and Rebellion are gathered together for the first time in this striking box set, perfect for fans and series newcomers alike.

Day 21 Kass Morgan, 2014-09-16 It's been 21 days since the hundred landed on Earth. They're the only humans to set foot on the planet in centuries... or so they thought. Book 2 in The 100 series, now a popular show on the CW network. Facing an unknown enemy, Wells attempts to keep the group together. Clarke strikes out for Mount Weather, in search of other colonists, while Bellamy is determined to rescue his sister, no matter the cost. And back on the ship, Glass faces an unthinkable choice between the love of her life and life itself. In this pulse-pounding sequel to The 100, secrets are revealed, beliefs are challenged, and relationships are tested. And the hundred will struggle to survive the only way they can--together.

Rebellion Kass Morgan,2016-12-06 Book four in the New York Times bestselling series *The 100*. Now a hit TV show on the CW! It's been a month since the new dropships landed and the rest of the Colonists joined the hundred on the ground. The teens, once branded juvenile delinquents, are now leaders among their people. It should be a time for celebration and togetherness, but a new threat appears before long: a fanatical cult determined to grow its ranks and heal the war-ravaged planet...by eliminating everyone else on it. After scores of their friends are captured, Clarke sets off to retrieve them, certain that she can come to an understanding with these strangers. Bellamy has a different plan; he won't let anything--or anyone--get in the way of saving the people he loves. Meanwhile, in captivity and scared for their lives, Glass falls under the spell of the cult's magnetic message, and Wells has to learn how to lead again. Unless the rescue party arrives soon, the teen captives will face a fate more terrifying than anything they could imagine. If the hundred ever want to call this dangerous planet home, they'll need to put aside their differences and fight to protect themselves and their world.

Neo-Frontier Spaces in Science Fiction Television Sebastian J. Müller, 2023-04-17 The idea of the frontier--once, the geographical borderline moving further and further West across the North American continent--has shaped American science fiction television since its beginnings. TV series have long adapted the frontier myth to outer space and have explored American Wests of the future. This book takes a deeper look at the futuristic frontiers within such series as Star Trek, Firefly, Terra Nova, Defiance and The 100, revealing how they rethink colonialism, the environment, spaces of risk and utopian/dystopian worlds. Harnessing forms of speculation and the post-apocalyptic imagination, these series engage with matters of the present, from the legacies of colonialism to climate change and the increasing integration of humans and technologies. In doing so, these series question in novel ways the very idea of borders and reshape cultural binaries such as Self/Other, wilderness/civilization, city/nature, human/non-human and utopia/dystopia.

Homecoming Kass Morgan, 2015-02-24 Humanity is coming home. Weeks after landing on Earth, the Hundred have managed to create a sense of order amidst their wild, chaotic surroundings. But their delicate balance comes crashing down with the arrival of new dropships from space. These new arrivals are the lucky ones--back on the Colony, the oxygen is almost gone--but after making it safely to Earth, GLASS's luck seems to be running out. CLARKE leads a rescue party to the crash site, ready to treat the wounded, but she can't stop thinking about her parents who may still be alive. Meanwhile, WELLS struggles to maintain his authority despite the presence of the Vice Chancellor and his armed guards, and BELLAMY must decide whether to face or flee the crimes he thought he'd left behind. It's time for the Hundred to come together and fight for the freedom they've found on Earth, or risk losing everything--and everyone--they love.

Law and the Humanities: Cultural Perspectives Chiara Battisti, Sidia Fiorato, 2019-12-02 This volume investigates

interdisciplinary intersections between law and the humanities from the Renaissance to the present day. It allows for fruitful encounters between different disciplines: from literature to science, from the visual arts to the post-human, from the postmodern novel's experimentation to most recent approaches towards the legal interpretation of literary texts. This productive dialogue fosters original perspectives in the interpretation of and reflection upon identity, justice, power and human rights and values, thus underlining the role of literature in the articulation of relevant cultural issues pertaining to specific periods.
