A Few Words in Defense of Our Country Robert Hilburn, 2024-10-22 "Randy Newman is our great master of American song and storytelling.--Bruce Springsteen "At last, the biography that Randy Newman has long deserved. The emotional precision, the humor and sweep, the truths and secrets behind his remarkable body of work . . . it's all here in Robert Hilburn's heartfelt and indispensable account of America's finest songwriter. Leave it to Hilburn to pull back the curtain on

the incredible life of Newman, a shy genius who clearly trusted him enough to point him in all the right directions. It's more than a great read, it's an invitation to re-visit Randy Newman's work with renewed appreciation for the man who uniquely defined the American Experience just when we needed it most."--Cameron Crowe

The definitive biography of songwriter Randy Newman, told with his full cooperation, by acclaimed biographer and longtime Los Angeles Times music critic, Robert Hilburn. Randy Newman is widely hailed as one of America's all-time greatest songwriters, equally skilled in the sophisticated melodies and lyrics of the Gershwin-Porter era and the cultural commentary of his own generation, with Bob Dylan and Paul Simon among his most ardent admirers. While tens of millions around the world can hum "You've Got a Friend in Me," his disarming centerpiece for Toy Story, most of them would be astonished to learn that the heart of Newman's legacy is in the dozens of brilliant songs that detail the injustices, from racism to class inequality, that have contributed to the division of our nation. Rolling Stone declared that a single Newman song, "Sail Away," tells us more about America than "The Star-Spangled Banner." And yet, his legacy remains largely undocumented in book form—until now. In *A FEW WORDS IN DEFENSE OF OUR COUNTRY*, veteran music journalist Robert Hilburn presents the definitive portrait of an American legend. Hilburn has known Newman since his club debut at the Troubadour in 1970, and the two have maintained a connection in the decades since, conversing over the course of times good and bad. Though Newman has long refused to talk with potential biographers, he now gives Hilburn unprecedented access not only to himself but also to his archives, as well as his family, friends, and collaborators. Bob Dylan, Paul Simon, John Williams, Linda Ronstadt, Don Henley, Bonnie Raitt, Chuck D, James Taylor, and New York Times' Pulitzer-winning columnists, Thomas Friedman and Wesley Morris, among others, contributed to the book. In addition to exploring Newman's prolific career and the evolution of his songwriting, *A FEW WORDS IN DEFENSE OF OUR COUNTRY* also dives into his childhood and early influences, his musical family that ruled Hollywood movie scores for decades, the relationships that have provided inspiration for his songs, and so much more. As thought-provoking and thorough as it is tender, this book is an overdue tribute to the legendary songwriter whose music has long reflected and challenged the America we know today.

The 16-bar Theatre Audition Michael Dansicker, 2003 Many large theatre auditions call for a '16-bar' excerpt. Musical theatre professionals often complain that singing actors need help in choosing and constructing a 16-bar audition. This [four-volume] series solves that problem forever. Each excerpt has been given a thoughtful, graceful, and effective form, drawing from Broadway, Off-Broadway, standards, movie songs, and the occasional pop song.--Back cover.

Bibliographic Guide to Music GK Hall, 2002-07 The holdings of the Music Division of the New York Public Library cover virtually all musical subjects; its scores represent a broad spectrum of musical style and history.

The Encyclopedia of Film Composers Thomas S. Hischak,2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical materialImportant datesCareer highlightsAnalysis of the composer's musical styleComplete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.
