The Complete Idiot's Guide to Search Engine Optimization Michael Miller, 2009 Most businesses depend on their rankings on Google, Yahoo!, and other search engines to drive traffic to their websites. The higher a business's ranking, the more traffic its site gets. Where does a webmaster or online market manager go for advice and instruction on optimizing a business's website for higher search engine rankings? The few search engine optimization (SEO) books currently on the market are dated and do not cover the latest local, mobile, and social marketing techniques. The Complete Idiot's Guide® to Search Engine Optimization is a comprehensive, up-to-date, easy-to-use guide for SEO. It starts with a general overview of how search engines and SEO work and then flows into specific techniques for basic website optimization. It addresses the analysis and ongoing maintenance of a site's optimization and finishes with a look at how search engine marketing fits within a company's overall online marketing plan. In The Complete Idiot's Guide® to Search Engine Optimization, readers learn- How search engines and SEO work. How to optimize your site's keywords, tags, and design. How to optimize the links to your site, local and mobile searches, and social media. How to apply the strategies to a blog and web videos for search engines. How to use third-party SEO tools. How search engine marketing fits within a company's overall online marketing plan.

Make Me a Star Anastasia Brown, Brian Mansfield, 2008-04-08 Talent is not enough to make it in the music business, and the insights, tips, and techniques in Make Me A Star will give readers the edge they need to stand out to even the toughest judges - on television or anywhere in the music business. Anastasia Brown, music producer and judge of Nashville Star, provides the insight anyone wanting to make it in the music business needs to know, whether through music contests or going the traditional route. From creating a memorable first impression to planning a winning strategy for sustained success, every step of the process is addressed. Behind the scenes stories of what worked (and what didn't) from such performers as Keith Urban, Reba McIntire, Carrie Underwood, and many more show the human side of the journey. Make Me a Star helps the reader determine his or her strengths and gives advice based on those strengths. Each chapter will also include insight from top producers, agents, publicists, and stylists. They say a smart man learns from his mistakes but a wise man learns

from another's mistakes. Some pitfalls are necessary for an artist's development, but not all. The stories and advice within these pages are not merely rhetoric or theory - they are hard-fought and hard-won experiences from those who've been in the trenches. ---Keith Urban

The Hunter T.K. Leigh,2025-08-07 To take down a monster, you have to become one. Victor Kane thought he was untouchable... Until he took something that didn't belong to him. Now I'll burn his empire to the ground, starting with the one thing he holds dearest. His wife. But Ariana Kane is no fragile flower. She's colder than winter, sharper than any thorn, and hiding secrets darker than my own. I took her as a pawn in this ruthless game of revenge. I didn't expect to keep her. And I sure as hell didn't expect to crave her with every beat of my dead, cold heart. She was supposed to be a means to an end. But the deeper I drag her into my world, the more I realize some queens aren't made for the light. And some gods fall hardest for the goddess they were never meant to touch. The Hunter is the first book in a brand new dark romance trilogy from USA Today Bestselling Author T.K. Leigh. Grab your copy today.

The Branding of MTV Paul Temporal,2008-06-09 There have been few brands that have made such a massive impact on the world stage in such a relatively short time-frame as MTV. It is a household name and virtually all young people, regardless of whether they have access to television, have heard of it. It is a name associated with youth and music and all areas in which the two are involved. It has dominated the market space in the category of music television since its inception and looks like it will continue to do so in the foreseeable future. This book is not so much a tribute to MTV, although it deserves as much, but an analysis of how the MTV brand has been built. Global brands do not just arrive by accident - they are carefully and strategically built to match the needs of their target markets. They evolve with those target markets as lifestyles, wants, needs, attitudes, opinions, interests, and many other factors come and go. In addition, global brands successfully manage the differences across countries and cultures. MTV has managed to do all of these things with startling consistency, another attribute of great brands that stand the test of time. What is more intriguing is that it has done all this in one of the most turbulent times ever experienced in consumer markets, particularly in Asia, where change is endemic.
